

BOSNIA AND HERZEGOVINA

Region: Europe and Central Asia

Income Category: Upper Middle Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by Bosnia and Herzegovina in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The figures show the latest available data, benchmarked against regional averages. The figures also report progress over the previous 5 years.

EARLY CHILDHOOD

- **Neonatal mortality rate.** The neonatal mortality rate is **4** per 1,000 live births (2022), compared to 5 in 2017. The indicator is similar to the regional average.
- **Participation rate in organized learning.** In 2021, **29%** of children one year younger than the official primary school entry age participated in an organized learning program, compared to 28% in 2019. The indicator is below the regional average.
- **DTP vaccination rate, third dose.** In 2023, **73%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine. This remains unchanged since 2018. The indicator is lower than the regional average.

SCHOOL AGE

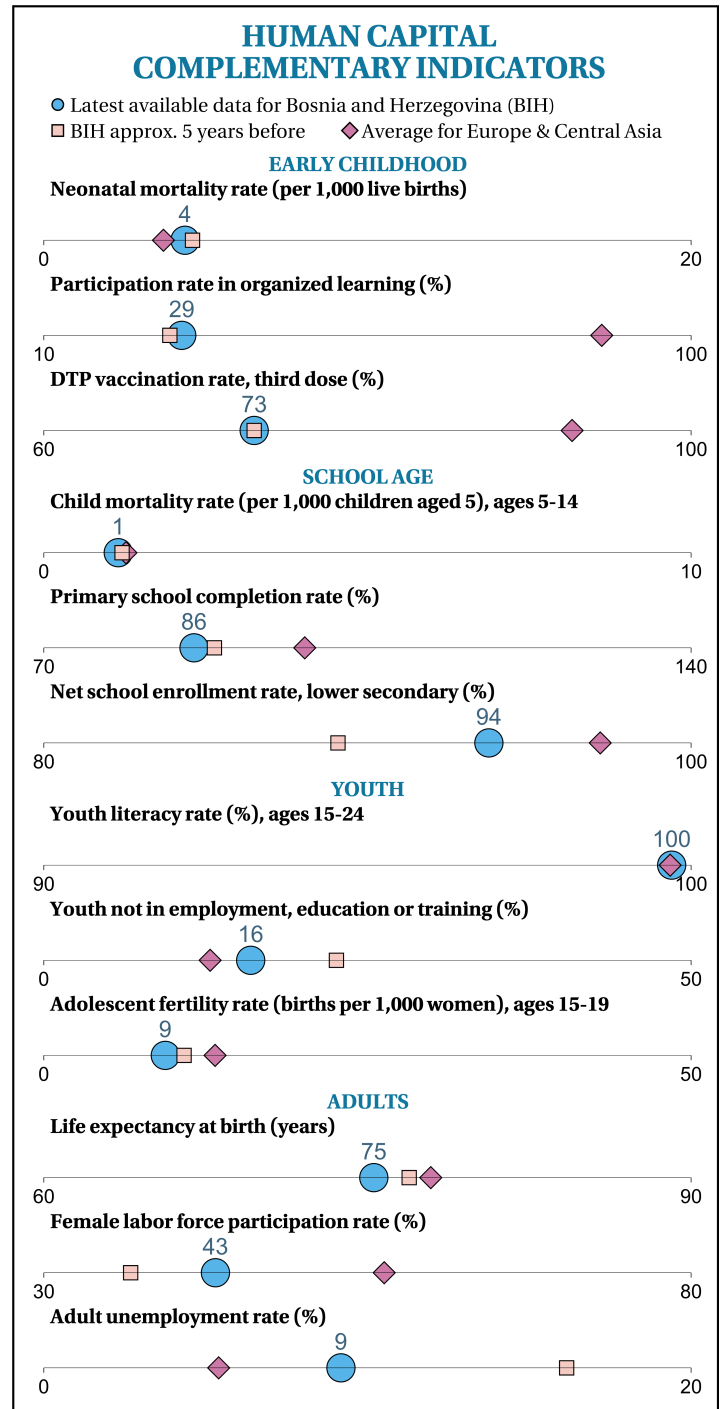

- **Child mortality rate.** The mortality rate for children ages 5-14 is **1** per 1,000 children aged 5 (2022). This remains unchanged since 2017. The indicator is similar to the regional average.
- **Primary school completion rate.** The primary school completion rate is **86%** (by the official entrance age of the last grade) (2023), compared to 88% in 2018. The indicator is below the regional average.
- **Net school enrollment rate, lower secondary.** The percentage of lower secondary school-aged children enrolled is **94%** (2022), compared to 89% in 2017. The indicator is lower than the regional average.

YOUTH

- **Youth literacy rate.** The share of youth (ages 15-24) who are literate is **100%** (2022). The indicator is similar to the regional average.
- **Youth not in employment, education or training.** In 2023, **16%** of youth (ages 15-24) were not in employment, education or training, compared to 23% in 2018. The indicator is above the regional average.
- **Adolescent fertility rate.** The number of births for every 1,000 women ages 15-19 is **9** (2022), compared to 11 in 2017. The indicator is lower than the regional average.

ADULTS

- **Life expectancy at birth.** Life expectancy at birth is **75** years (2022), compared to 77 in 2017. The indicator is lower than the regional average.
- **Female labor force participation rate.** Female labor force participation as a percentage of the female working-age population (ages 25+) is **43%** (2023), compared to 37% in 2018. The indicator is below the regional average.
- **Adult unemployment rate.** Unemployed adults as a share of the adult labor force (ages 25+) is **9%** (2023), compared to 16% in 2018. The indicator is higher than the regional average.

Note: Missing symbols indicate internationally comparable data are not available to generate the corresponding statistic.
