

NEW ZEALAND

Region: East Asia and Pacific
Income Category: High Income

Human capital – knowledge, skills, and good health – empowers people to achieve their potential and drives economic growth. This brief tracks progress by New Zealand in building and using human capital. The Human Capital Complementary Indicators offer a snapshot of human capital investments at four stages of the lifecycle. The figures show the latest available data, benchmarked against regional averages. The figures also report progress over the previous 5 years.

EARLY CHILDHOOD

- **Neonatal mortality rate.** The neonatal mortality rate is **2** per 1,000 live births (2022), compared to 3 in 2017. The indicator is lower than the regional average.
- **Participation rate in organized learning.** In 2020, **90%** of children one year younger than the official primary school entry age participated in an organized learning program, compared to 93% in 2015. The indicator is above the regional average.
- **DTP vaccination rate, third dose.** In 2023, **88%** of infants received the third dose of the diphtheria, tetanus and pertussis vaccine, compared to 93% in 2018. The indicator is higher than the regional average.

SCHOOL AGE

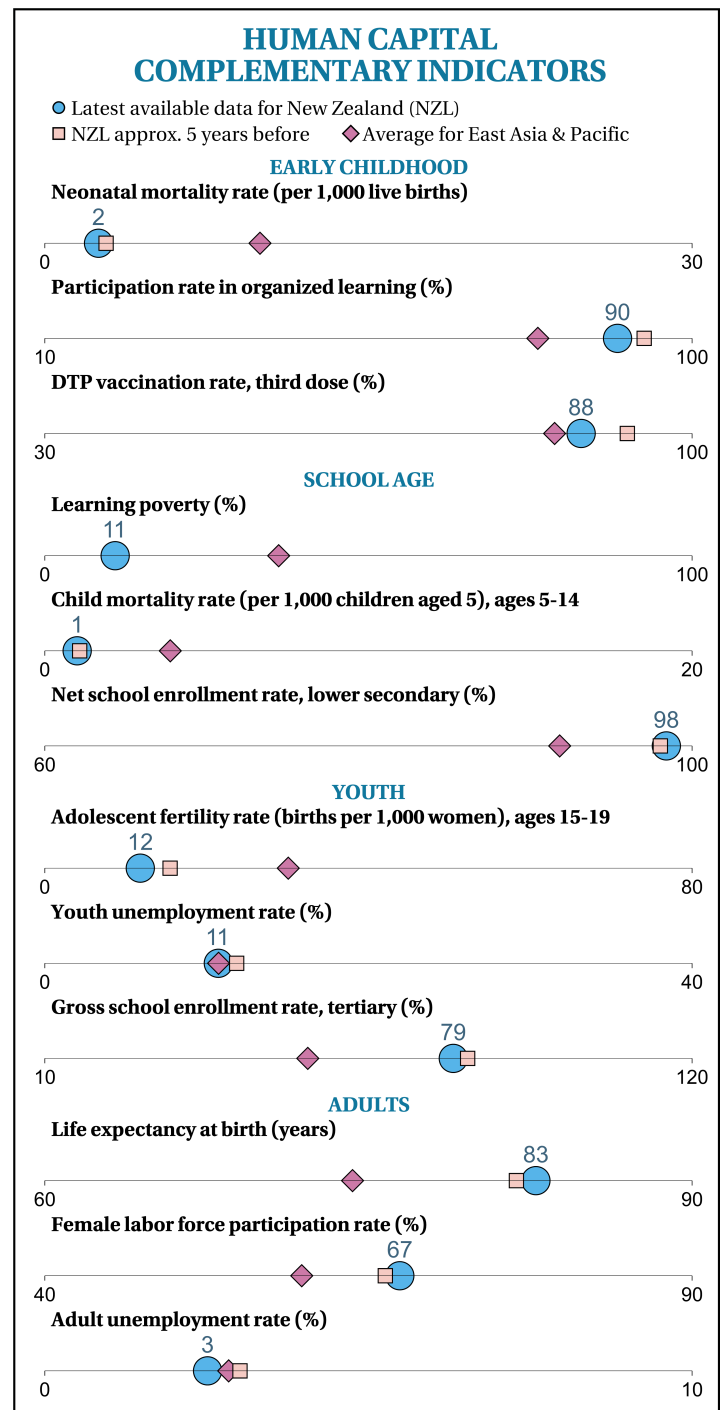

- **Learning poverty.** In 2021, **11%** of children could not read and understand a simple text, by age 10. The indicator is lower than the regional average.
- **Child mortality rate.** The mortality rate for children ages 5-14 is **1** per 1,000 children aged 5 (2022). This remains unchanged since 2017. The indicator is below the regional average.
- **Net school enrollment rate, lower secondary.** The percentage of lower secondary school-aged children enrolled is **98%** (2021). This remains unchanged since 2016. The indicator is higher than the regional average.

YOUTH

- **Adolescent fertility rate.** The number of births for every 1,000 women ages 15-19 is **12** (2022), compared to 15 in 2017. The indicator is lower than the regional average.
- **Youth unemployment rate.** Unemployed youth as a share of the youth labor force (ages 15-24) is **11%** (2023), compared to 12% in 2018. The indicator is similar to the regional average.
- **Gross school enrollment rate, tertiary.** Tertiary school enrollment as a percentage of people ages 18-24 is **79%** (2021), compared to 82% in 2016. The indicator is higher than the regional average.

ADULTS

- **Life expectancy at birth.** Life expectancy at birth is **83** years (2022), compared to 82 in 2017. The indicator is higher than the regional average.
- **Female labor force participation rate.** Female labor force participation as a percentage of the female working-age population (ages 25+) is **67%** (2023), compared to 66% in 2018. The indicator is above the regional average.
- **Adult unemployment rate.** Unemployed adults as a share of the adult labor force (ages 25+) is **3%** (2023). This remains unchanged since 2018. The indicator is similar to the regional average.

Note: Missing symbols indicate internationally comparable data are not available to generate the corresponding statistic.
