

TRUSTEDSEC

Enable Better **Cybersecurity** for your Customers

The ever-evolving threat landscape can make it challenging for organizations to keep up with the complexity of security attacks. As a partner, TrustedSec can help your customers anticipate and prepare for potential attacks by providing expert guidance and support. Whether your customers are just starting out or have an established security posture, we can help them make meaningful improvements.

As a trusted cybersecurity partner for organizations of all sizes and industries, TrustedSec can help your customers prioritize security assessments, identify critical areas, and deliver actionable insights and recommendations. When working closely with you and your customers, we tailor our approach to meet unique organizational needs and vulnerabilities, resulting in a more robust security program.

Whether you're looking for subcontracting or referral opportunities, TrustedSec provides cybersecurity expertise and experience that will help strengthen your partnerships. We understand that when we deliver exceptional security services to your customers, it is reflected on you. Let us help you build your reputation as a reliable and trustworthy partner to those who matter the most.

About TrustedSec

When founder David Kennedy created TrustedSec, he set out to assemble the most technically advanced team of consultants and advisors with a goal of changing the security industry for the better. Investing in exceptional people allows TrustedSec to enhance client security, elevate the InfoSec community, and create a more secure world.

After more than a decade and thousands of completed engagements, we remain true to our purpose: providing services that are tailored to our clients' needs to help them achieve their goals. Our unique approach to cybersecurity has enabled us to grow into a name trusted by Fortune 500s, government entities, and hackers alike.

With our expertise, technical skills, and ethical character, we help you secure what matters most.

Solutions for Every Security Challenge.

Our team of experts will craft a customized security strategy that aligns with an organization's unique goals and objectives. From creation to full maturity, we'll be there every step of the way to ensure the security program adapts as the business grows.
