

I get the following error message when I insert my installation CD:

16-bit MS-DOS Subsystem

path to the program that you are trying to start or install

C:\Winnt\System32\xxx

The system file is not suitable for running MS-DOS and Microsoft Windows applications.

Choose 'Close' to terminate the application.

This issue may occur if some Windows essential system files are missing or damaged:

This Microsoft knowledge base article explains the problem and solutions
