The Three Big Points from WSIS

- Conceptual Framework "Information Society"
  - a people-centred, inclusive and development-oriented Information Society, where everyone can create, access, utilize and share information and knowledge, enabling individuals, communities and peoples to achieve their full potential in promoting their sustainable development and improving their quality of life, premised on the purposes and principles of the Charter of the United Nations and respecting fully and upholding the Universal Declaration of Human Rights.

- 16 Action Lines

- Understanding about Internet Governance

Challenges für WSIS+20

- Protect the Achievements

- Identify Weaknesses and Gaps

- Build on what you have achieved

Internet Governance

- Achievement
  - Multistakeholder Approach
    - Government, Civil Society, Business, Technical Community
  - Definition
    - Internet governance is the development and application by governments, the private sector and civil society, in their respective roles, of shared principles, norms, rules, decision-making procedures, and programmes that shape the evolution and use of the Internet.
  - Principles
    - Transparency, Open, Inclusive, Accountability, Bottom Up PDP etc.
- Weaknesses
  - Tangible Output
  - Digital Divide
  - Procedures
- The Way Forward
  - GDC
  - NetMundial +10
  - SDG & WSIS
