INFORMATION ABOUT THE GRADUATION RATES REPORT

Introduction.

This information sheet and the NCAA Graduation Rates Report have been prepared by the NCAA, based on data provided by the institution in compliance with NCAA Bylaw 31.2.1.8 (admissions and graduation-rate disclosure) and the federal Student Right-to-Know and Campus Security Act. Please note, the NCAA will make this report public.

The Graduation Rates Institution Report gives graduation information about the most recent six-year graduating class of students and student-athletes who entered as freshmen in 2016-17. The graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university and the number of those who graduated within six years. For example, if 100 students entered and 60 graduated within six years, the graduation rate is 60 percent.

The Graduation Rates Institution Report provides information about two groups of students:

1. All Students. All undergraduate students who were enrolled in a full-time program of studies for a baccalaureate degree; and
2. Student-Athletes. Student-athletes who received athletics aid from the school for any period of time during their entering year. [Note: Athletics aid is a grant, scholarship, tuition waiver or other assistance from a college or university that is awarded on the basis of a student's athletics ability.]

Caution should be exercised when using NCAA Division III student-athlete data. Federal regulations calculate graduation rates for student-athletes who receive athletics aid, but only a very small number of Division III member institutions grant athletics aid (i.e., institutions that sponsor a sport at the NCAA Division I level and institutions that are moving from NCAA Division II or National Association of Intercollegiate Athletics to Division III). Since it is only those student-athletes receiving athletics aid who appear in this report in accordance with federal law, the majority of Division III student-athletes are not reflected in these data.

Two different measures of graduation rates are presented in this report: Federal Graduation Rate and NCAA Division II Academic Success Rate. The freshman-cohort Federal Graduation Rate indicates the percentage of freshmen who entered during a given academic year and graduated within six years. The ASR adds to the first-time freshmen, those students who entered midyear, as well as student-athletes who transferred into an institution and received athletics aid. Both the Federal Graduation Rate and the ASR subtract students from the entering cohort who are considered allowable exclusions (i.e., those who either die or become permanently disabled, those who leave the school to join the armed forces, foreign services or attend a religious mission). In addition, the ASR subtracts those who left the institution prior to graduation, had athletics eligibility remaining and would have been academically eligible to compete had they returned to the institution.

Graduation Rates Report.

1. Graduation Rates Data. The box at the top of the Graduation Rates Institution Report provides freshman-cohort graduation rates for all students and for student-athletes who received athletics aid at this college or university. Additionally, this box provides ASR data for the population of student-athletes. **Note: Pursuant to the Student Right-to- Know Act, when a cell containing cohort numbers includes only one or two students, the data in that cell and one other will be suppressed so that no individual can be identified.**
 - a. All Students. This section provides the freshman-cohort graduation rates for all full-time, degree-seeking students by race or ethnic group. It shows the rate for men who entered as freshmen in 2016-17 and the four-class average, which includes those who entered as freshmen in 2013-14, 2014-15, 2015-16 and 2016-17. The same rates are provided for women. The total for 2016-17 is the rate for men and women combined and the four-class average is for all students who entered in 2013-14, 2014-15, 2015-16 and 2016-17.
 - b. Student-Athletes. This section provides the freshman-cohort graduation rates and also the GSR for student-athletes in each race and ethnic group who received athletics aid. Information is provided for men and women separately and for all student-athletes.
 - c. Student-Athletes by Sports Categories. This section provides the identified graduation rates as in 1-b for each of the eight sports categories. (The small letters indicate the value of N).
2. Undergraduate Enrollment Data.
 - a. All Students. This section indicates the number of full-time, undergraduate, baccalaureate, degree-seeking students enrolled for the 2022 fall term and the number of men and women in each racial or ethnic group.
 - b. Student-Athletes. This section identifies how many student-athletes were enrolled and received athletics aid for the 2022-23 academic year and the number of men and women in each racial or ethnic group.
 - c. Student-Athletes by Sports Categories. This section provides the enrollment data as identified in 3-b for each of the eight sports categories.
