ABOUT US

Founded in 2014, World BEYOND War (WBW) is a global, grassroots network advocating for the abolition of the institution of war, and its replacement with an **alternative global security system**.

Individuals and organizations in **175 countries** have signed WBW's Declaration of Peace, pledging to work for a just and sustainable peace.

Through education and activism, we **make the case for war abolition** by outlining the economic, environmental, democratic, cultural, and moral downsides of war and preparations for war.

We outline the evidence that **nonviolent methods are the most effective and lasting tools by which to resolve conflict**. We provide a blueprint for ending war, one that is rooted in the strategies of demilitarizing security, managing conflict nonviolently, and creating a culture of peace.

World BEYOND War is a people-powered movement for peace.

An international network of volunteers, small-dollar donors, and affiliated organizations make this work possible.
