Wildlife Trust

A Welcome to **Wildlife**

More nature everywhere, for everyone

Hello from BBOWT

“ Hello, and a heartfelt thank you for becoming a BBOWT member. Your support will help us achieve more for the wild places and wildlife we cherish.

By joining us you are making an important contribution to local wildlife at a pivotal moment. Nature faces unprecedented pressure from inappropriate development, intensive agriculture and climate change.

At the same time, we all need nature more than ever before. But change is in the air and we are best placed to lead nature's recovery locally.

We already work hard to create safe havens for wildlife on our nature reserves. Now we are thinking bigger, bolder and wilder, beyond our reserves, to create a wilder landscape for all.

We're working with landowners, farmers and communities across our three counties to put nature at the heart of all our lives, while also tackling the climate crisis.

We have big ambitions to see 30% of land well managed for nature by 2030 and we know the stakes have never been higher.

Yet we are confident that with your help, we can bring nature back. Together we can achieve our aim of more nature everywhere, for everyone, in urban and rural areas.

We want you to know you are making a difference, to ensure a wilder future for all at this crucial time.

Thank you.

Estelle Bailey
Chief Executive

Don't forget!

As a new member to BBOWT, you are in a unique position to offer insights and ideas that can help us improve your membership experience. Please let us know your thoughts by completing your New Member Survey online at bbowt.org.uk/welcome

Getting to know us

We're thrilled you've decided to join BBOWT! Here are a few things you might like to know about us and your membership

How do I get in touch to make a change to my membership details – for example, my subscription amount or address?

You can easily update your contact details, the amount you donate and anything else to do with your membership by getting in touch with our Membership Team (see contact details at the bottom of this page).

What is Gift Aid and how does BBOWT benefit from it?

Gift Aid is a tax relief that enables UK charities to reclaim an extra 25% in tax on every eligible donation made by a UK taxpayer. This means BBOWT can claim 25p for every £1 donated at no extra cost to you. If you would like to know more or change your Gift Aid status please get in touch with the Membership Team.

How can I find out what events are being held near me?

The Events section of our website has information on all our upcoming wildlife themed events - bbowt.org.uk/events. Your regular Wild Berkshire Buckinghamshire and Oxfordshire magazine will also highlight interesting events throughout the year.

How do I book onto an event?

You can book onto one of our events by signing up on the specific event page on our website, or by contacting the Events Team at events@bbowt.org.uk

Who can I talk to about a specific wildlife issue?

If you have any queries about wildlife please get in touch by calling 01865 775476 or emailing wildlifeenquiries@bbowt.org.uk.

Make the most of your membership

We like to keep in touch, so you can choose how we contact you and take part in fantastic wildlife-themed events we put on every year.

As the only charity dedicated solely to the wildlife of Berkshire, Buckinghamshire and Oxfordshire, our roots are local. In fact, BBOWT is all about local people coming together to make a difference for local wildlife. It's good news for nature and everyone is better off when they're a bit wild.

Our members are the lifeblood of BBOWT, which is why we want you to be as happy and informed as possible, so that you too can discover the incredible wildlife that's right on your doorstep.

Staying in touch

We'll send you a copy of *Wild Berkshire Buckinghamshire and Oxfordshire* magazine three times a year (at the end of March, July and November). It is a great way to catch up on all the latest news and to see what a difference your support is making for local wildlife. We offer a digital

version of the magazine, which you can sign up to on our website at bbowt.org.uk/publications.

We may also get in touch a couple of times a year to let you know about other opportunities to support BBOWT. These may include appeals to purchase a piece of land that will benefit local wildlife. You can opt out of any form of communication by contacting our membership team. If you haven't yet signed up for our regular

email newsletter, you can do so on our website at bbowt.org.uk/newsletter or by contacting us.

If you wish to change anything about the content you receive or the method of communication, then please get in touch with us or complete the Data Protection form enclosed with your Welcome Pack.

Adriana Alberts
Membership Manager
One of the helpful and friendly BBOWT Membership Team

Journey of discovery

Two members share their experiences of taking part in an event and what becoming a member means to them.

“ I'm very grateful that my membership was bought for me as a gift. It's given me an incentive to explore my local wildlife and learn about the work BBOWT does on a daily basis.

“ Although I'm not a nature expert I have always loved wildlife. The guided walk was very interesting and reminded me of the wildlife I grew up with. It's been a great opportunity to get out and learn more about the wildlife that surrounds me.

**Serena Millen
Events Officer**

Part of our amazing Events Team who run online and in person events across our three counties

Let's get together!

We run a programme of events you are welcome to take part in. There are activities for all ages and abilities, bringing you closer to nature. Enjoy a fascinating guided tour of a nature reserve, led by an expert in local wildlife, bring your child to a hands-on activity session or join an online talk from home to discover more about nature.

Events are a great way to learn about local conservation and the wildlife that thrives in our area, while of course meeting other like-minded members.

Visit bbowt.org.uk/events and have a browse - we look forward to meeting you!

WILLOW OBELISK ADULT WEAVING EVENT BY CON HAWKINS

**Chinnor Hill,
Oxfordshire.**

Great deals for you and wildlife

Take advantage of these opportunities to help local wildlife while you shop and enjoy a few discounts just for you too. For full details of all our membership benefits, visit bbowt.org.uk/shop/product-partners

**15% discount
at Cotswold
Outdoor**

We are delighted to offer you **15% off** at Cotswold Outdoor. They offer an extensive range of outdoor clothing equipment and accessories. Use the code **AF-WILDLIFE-M5** to claim your exclusive discount in store or online.

**Save 10% on
NatureBureau
books**

NatureBureau uses their expert knowledge in biodiversity and conservation to publish ecology and natural history books under their imprint, Pisces Publications. Order online at www.naturebureau.co.uk/bookshop. Remember to enter the code **"BBOWT10"** in the 'coupon or voucher code' box on the checkout page.

**Go green and
help BBOWT too**

Sign up for green electricity or gas from renewable energy company Ecotricity and you'll benefit BBOWT as well as the environment! Switch to Ecotricity and they will donate up to £60 to us – it's as easy as that!

**Food for birds and a
boost for BBOWT**

Get your bird food from Vine House Farm and help BBOWT at the same time. The Watts family, who run the Lincolnshire Fens farm, are dedicated to managing their land in a wildlife-friendly way. As much bird food as possible is grown in the local area and packaged on-site. When you order use the code **BBOWTNM10** to get 10% off your first order. What's more, BBOWT receives £10 for every member who becomes a new customer of Vine House Farm. Order online at vinehousefarm.co.uk or phone 01775 630208.

PAUL MARTIN

Earthly paradise

Fragrant orchids and horseshoe vetch at Yoesden

GAVIN BENNETT

The spectacular chalk grassland wild flowers of Yoesden support an extraordinary diversity of butterflies. Your membership will help us continue to protect this special place, says Buckinghamshire Senior Land Manager, Mark Vallance

On a sunny day, there is no better place to be than a wildflower meadow. With just the low thrum of insects for company, these precious habitats are the antidote to our hectic lives.

Chalk grassland

Yoesden is one of these special places, a remnant of chalk grassland inaccessible to the plough and untouched by modern fertilisers. Sheep have grazed here for centuries and together with the thin soil, this has helped control fast-growing grasses, ensuring an

extraordinary tapestry of wild flowers that makes Yoesden a haven for butterflies. Chalk grasslands can contain up to 40 plant species per square metre, providing a bountiful display. The show starts in spring when the slope is brought to life by clumps of pale yellow cowslips. Soon after, the patches of hawthorn scrub glow their brilliant white. The floral climax arrives in June when pink and purple orchids, including fragrant, pyramidal and common spotted, contrast with yellow kidney vetch and bird's-foot trefoil, creating a riot of colour across the grassland.

Haven for wildlife

Yoesden was saved in 2015 and the site was extended in 2016 thanks to our generous members and other supporters. Now one of our finest nature reserves, this steep slope is home to butterflies as varied as grizzled and dingy skippers, green hairstreaks and the three blues: small blue, chalkhill blue and Adonis blue. The vivid Adonis blue is the

key species here and Yoesden is its most northerly site. You're sure to catch a red kite circling overhead, while the fragrance of wild thyme and marjoram permeates the air. On a summer's day, listen closely and you may catch the repetitive 'song' of male great green bush-crickets as they rub their forewings together to attract a mate.

Long-term care

BBOWT is protecting this magical place by selectively removing scrub to maintain the mosaic of scrub and grassland. Many species rely on scrub for food and shelter, so this needs to be done in a balanced way. We also continue to graze the meadow to keep vigorous grasses under control, working with a local farmer who brings in cattle once the wild flowers have set seed. With the future of Yoesden secured, this patch of earthly paradise will be around for generations to come. Come and see for yourself and bask in the glow of a pristine chalk grassland at its very finest.

Adonis blue butterfly

COLIN WILLIAMS

“ An extraordinary tapestry of wild flowers makes Yoesden one of the best sites in the Chilterns for butterflies. ”

Yoesden is a precious fragment of chalk grassland

JOHN MORRIS

Make a space for wildlife

Don't forget your closest nature reserve: your garden! Whatever its size, making a difference for wildlife is easy

AMY LEWIS

Gardens cover a greater area than all the land protected for nature, so helping wildlife really does begin at home. Wildlife gardening doesn't mean just letting your garden grow wild – you can have a beautiful garden and help nature at the same time.

Greener backdrop

Start with plants. Berry-producing trees and shrubs such as dogwood, berberis and pyracantha provide food for birds, especially in winter. Climbing plants like honeysuckle have nectar-rich flowers for bees, while evergreens such as ivy also offer year-round shelter. Replace fences with hedges to create nesting sites and allow hedgehogs to move freely between gardens to forage.

“ Your garden can become a magnet for local wildlife.

Butterflies and bees love nectar-rich flowers like verbena and scabious. Simple flowers make it easy for insects to reach the nectar. Many cottage garden favourites are ideal.

Consider turning part of your lawn into a mini wildflower meadow – start afresh from seed or plant plugs of flowers like cowslip, oxeye daisy and meadow crane's-bill. Tight on space? Then potted lavender or marjoram are great for bees and butterflies.

Pond life

Ponds attract more wildlife than any other garden feature. If you've got no room for a big pond, you could create a mini pond from an old washing-up bowl or bucket. Fill your pond with rainwater and native pond plants, then watch and wait. Frogs, newts and even dragonflies will soon arrive. Birds and mammals will use your pond as the local watering hole.

Right at home

A pile of logs in a shady corner will help rare stag beetles breed and shelter toads and slow worms. Spiders and solitary bees seek out nooks and crannies. Put up bird boxes. Many gardens are also suitable for bat boxes or swift boxes - also available as 'bricks' to replace standard ones.

Ponds are a haven for wildlife

TOM MARSHALL

Attract more wildlife

Flower power Sow traditional cornfield annuals like cornflower, corn marigold and poppies.

Rotten luck Compost heaps provide a natural supply of nutrients and a home for insects and spiders.

Bug bonanza Hollow stems and drilled holes provide hidey holes for solitary bees and other bugs.

Feathered nest Bird boxes offer instant homes. Locate them in a quiet area, out of direct sunlight.

Don't forget to keep feeding the birds and topping up bird baths. For more wildlife gardening tips visit bbowt.org.uk/actions.

Do you help wildlife on your patch? Every action, no matter how small, makes a difference. Tell us what you're doing and put your jigsaw piece on our #teamWILDER map. You can be part of the solution to the nature and climate crisis!

Visit bbowt.org.uk/team-wilder

Best nature reserves for...

Looking for ideas but unsure where to begin? Here's some inspiration to get out there and discover the best of our local wildlife

Inkpen Crocus Field

KATHRYN SHEPHERD

Wild flowers

Inkpen Crocus Field (Berks)
From late February to early April this field is awash with more than 400,000 purple and white blooms. Britain's biggest display of wild crocuses is believed to be the result of bulbs brought back from the Mediterranean by Knights Templars in the 12th century.

Bernwood Meadows (Bucks)
These traditional hay meadows, a remnant of medieval ridge and furrow meadow, offer a riot of colour from April to July. More than 100 plant species thrive here, from lady's bedstraw with its tiny yellow flowers to rare green-winged orchids.

Iffley Meadows (Oxon)
Every spring thousands of delicate purple, pink and white chequered snake's-head fritillary flowers nod gracefully in the breeze. This exotic-looking flower is the emblem of Oxfordshire, symbolising its relationship with the Thames. Why not bring a picnic and watch the river lazily flow by?

RIG MELLIS

Families

Nature Discovery Centre (Berks)
The stunning lakeside visitor centre is full of interactive wildlife and natural history displays, while

BAYAH AIRD

Nature Discovery Centre

outside there's a network of family-friendly footpaths to explore. Wear the little ones out in the Adventure Playground, feed the waterfowl then relax in the Lakeside Café.

Warburg Nature Reserve (Oxon)
Warburg is one of BBOWT's flagship nature reserves, a magnificent place alive with wildlife – ask the warden for current highlights. With a small visitor centre, picnic area, bird hides and interactive Nature Detectives Trail to try, there's lots for young and old alike.

College Lake (Bucks)
Nature reclaimed this worked-out chalk quarry and created an

outstanding centre for wildlife, which gives nature-lovers of all ages easy access to an amazing range of wild plants and animals. Explore the interactive displays in our visitor centre and around the reserve then enjoy delicious food and drinks in the café.

ROBERT LEWIS

“ Try our circular Wildlife Walk at College Lake - just follow the lapwing waymarkers around the lake!

Above: Lapwing at College Lake

Birdwatchers

Chimney Meadows (Oxon)

A tranquil corner of the Upper Thames converted from a commercial farm to a rich mosaic of wildflower meadows. Its nationally-important wetlands are home to wading birds like curlew, while feeding cormorant, little egret and kingfishers are often glimpsed.

Thatcham

Reedbeds (Berks)

There aren't many places you can still hear the call of the cuckoo or the rich song of the nightingale, but these reedbeds offer a good chance.

The reeds are home to water rail, reed bunting and warblers like the Cetti's warbler. Look out for bitterns too.

DAVID TIP-LING

Chimney Meadows. Left: Look out for bitterns at Thatcham Reedbeds.

RICHARD BACOR

Upper Ray Meadows (Bucks)

The River Ray is one of the best areas in central England for locally scarce wading birds. The first curlew usually return to the Upper Ray Meadows in late February, and by early spring lapwing and curlew can be seen performing displays across the reserve.

Walkers

Dancersend with Pavis Woods (Bucks)

Lose yourself in this tranquil haven nestled within two sheltered Chiltern valleys. The extraordinary tapestry of woodland and meadows has been a nature reserve since the 1940s. The recent addition of wonderful beechwoods means there's now even more to discover.

RIG MELLIS

Above right: Orchids at Dancersend.

Greenham and Crookham Commons (Berks)

Explore Berkshire's largest tract of heathland. Once an airbase, the roar of US Air Force planes has been replaced by the songs of rare birds, including nightjars, woodlarks and Dartford warblers, that thrive among the heather and gorse.

Tramper Hire

Limited mobility needn't mean missing out on nature! Find out which of our nature reserves are suitable for less-mobile visitors, either with a robust mobility scooter or a robust wheelchair and an assistant. Three of our flagship nature reserves have Trampers available to borrow free of charge - the Nature Discovery Centre (Berkshire), College Lake (Buckinghamshire) and Warburg Nature Reserve (Oxfordshire). Visit our website bbowt.org.uk/tramper-hire for more information about our accessible reserves and how to book a tramper.

CATHIE HASLER

PETER CREED

Bluebells at Foxholes

Remote wilderness

Foxholes (Oxon)

Revel in this cool deep wood filled with birdsong, bluebells and flashes of butterflies flitting among the trees. Because Foxholes is ancient woodland it is a haven for bats. Seven species have been recorded here, many of them using old woodpecker holes in trees as their roosts.

Moor Copse (Berks)

The River Pang meanders through the woodland, where in spring bluebells carpet the ground with stunning effect. Then in summer the restored floodplain meadows teem with wild flowers from which seed has been harvested to restore other nearby meadows.

JIM ASHER

Hartslock

Hartslock (Oxon)

Let your spirit soar at this jewel on the edge of the Chilterns. Admire views across to the Thames while you watch swallows skim the pasture or red kites circle overhead. In summer Hartslock reveals its real treasure – a visual orchestra of orchids and butterflies.

CLAIRE FORREST

● For visiting reserves information, please consult *Your Wild Guide* nature reserve handbook. You can also find all the details you need at bbowt.org.uk/reserves

Ratty's revival

JILL ORPEN

The water vole may be Britain's fastest declining mammal but the local picture is very different thanks to BBOWT's Water Vole Recovery Project, as Mammal Project Manager Julia Lofthouse reveals

Water voles, a favourite character in the children's classic *The Wind in the Willows*, always look as if they're on important business. If you are lucky enough to glimpse one chances are it will be scrambling into the water, scuttling away into the undergrowth or darting headlong into a burrow.

While once a common sight, water voles have declined by more than 90% since the 1970s. Changes in farming practices and land use have seen losses of the lush waterside vegetation that water voles rely on for food and cover. The sharp decline coincides with the spread of their most voracious predator, the American mink.

Local recovery

It's not all bad news for our industrious water voles though. BBOWT's Water Vole Recovery Project was set up in 1998 to conserve local water vole populations with some very encouraging results. By 2018, the total area of water vole activity in our three counties reached 233 square miles; a remarkable increase of 78% over 10 years, and a result that validates our approach.

So how have we done it? To conserve water voles we first need to know where

they are. The project has a team of 50 trained volunteer surveyors who give up their time to scour their allocated sites for water vole burrows, droppings, feeding signs and footprints.

We work with landowners to create favourable conditions for water voles with opportunities taken to enhance sites. This might include fencing off a

“ We work with landowners to create favourable conditions.

watercourse or reducing trees and scrub to allow grasses, reeds and herbs to flourish. We also work to monitor and control mink by providing advice and special mink monitoring rafts to land managers.

By helping the remaining colonies to flourish and spread they may eventually link up to create larger and, crucially, more robust populations that are more sustainable in the long term. In time we hope that the distinctive 'plop' of a water vole diving into the water will be a common sound once more.

BBOWT works hard to create the right conditions for water voles

Water vole field signs

- Riverbank burrows, often with a nibbled 'lawn' by the entrance.
- 'Latrines' of rounded, Tic Tac-sized droppings.
- Piles of nibbled vegetation with the ends cut at a 45 degree angle.

KARIN LLOYD

● Find out more about the Project and where to see water voles at bbowt.org.uk/water-vole-recovery-project

Wild young things!

An early fascination with nature will last a lifetime. Making the most of your family membership is the perfect way to ignite that passion

Instil a love of nature from an early age to create tomorrow's wildlife guardians. Your family membership is an easy and fun way of starting their lifelong interest in nature – and they can look forward to receiving all sorts of wildlife-themed goodies too!

✦ Four issues a year of *Wildlife Watch*, full of fun facts, things to do, wallcharts and more ✦ The Wildlife Watcher's Handbook – a pocket-sized guide to being a 'Wildlife Watcher' ✦ Membership card, badge, poster and stickers ✦ Fun family events – everything from craft workshops to pond dipping.

Get out there!

Throughout the year and whatever the weather, BBOWT puts on many exciting family focussed activities. They are a great introduction

JON HAWKINS

to wildlife, with hands-on activities and awe-inspiring talks and demonstrations to get the youngsters in your lives genuinely enthralled by nature.

Pond dipping, bug hunting, bird watching, den building or perhaps a magical wildlife-themed story time – there's lots going on for all age groups and interests. Discover how fascinating nature can be and how you too can help local wildlife. Visit bbowt.org.uk/events and find activities to bring out your family's wild side!

- Discover more and sign up to our Family Fun e-newsletter at bbowt.org.uk/family-days-out

More Wildlife Watch activities!

For more awesome facts, stories and activities that help children connect with nature, visit wildlifewatch.org.uk

EMIE AND TOM PHOTOGRAPHY

A voice for nature

Wildlife can't speak, which is why we campaign tirelessly on its behalf

Development: Increasing development pressures mean we have to ensure wildlife is fully considered within the planning system. BBOWT responds to strategic planning consultations, comments on selected planning applications that pose a risk to wildlife, and provides advice to planners, developers and consultants.

Natural climate solutions: BBOWT works in our nature reserves and beyond, across our Living

Landscapes and into the wider countryside. We are working with landowners and farmers to deliver nature-based solutions to the nature and climate crisis. This will enable us to restore nature at a landscape-scale, helping to halt the loss of wildlife, and at the same time tackling climate change locally.

High Speed 2: The High Speed 2 (HS2) railway line is cutting through our region. BBOWT campaigned throughout the approval process for changes to reduce its impact on wildlife; our evidence helped to secure new barn owl and bat habitats along the route.

Get involved

Be a Wildlife Ambassador:

Join our community of more than 900 Wildlife Ambassadors who help us stand up for wildlife. Sign up to receive updates on how you can get involved, tips about how you can support our campaigns, plus the latest news from BBOWT. To sign up as a Wildlife Ambassador and find out more about lobbying your local MP, visit bbowt.org.uk/campaigning-wildlife.

● For more on our current campaigns please visit bbowt.org.uk/campaigning-wildlife

Fancy getting even more involved?

Wildlife Trust**

Here are some other ways to help us and your local wildlife

Become a volunteer!

Volunteering with BBOWT is the perfect way to help local wildlife, have fun, maybe get fit too, learn new skills and meet other volunteers at social events. To find out more about the ways in which you can volunteer visit bbowt.org.uk/volunteer. If you have a particular role in mind, please email volunteering@bbowt.org.uk and tell us what you would like to do. Or if you would like to discuss further, call us on 01865 775476 and ask to speak to our Volunteering Administrator.

I love the flexibility of volunteering with BBOWT. I've been doing things I never thought I'd do.

Right: Charlotte Karmali
Volunteer Warden at Finemere Wood
A vital volunteer who organises work parties of enthusiastic volunteers.

DAVID RICHARDSON

Fundraise for BBOWT

Whether you fancy organising a bake sale, taking on a Tough Mudder, or even doing a marathon, you can help raise essential funds and make a real difference for wildlife. Go wild, raise money, and help the wildlife you love! Visit bbowt.org.uk/wildpack for more details and to order your fundraising pack.

Recycle ink cartridges for BBOWT

Make money for BBOWT and get rid of your old inkjet cartridges! We receive £1 for every cartridge recycled with us through Recycle 4 Charity. You can order recycling envelopes at recycle4charity.co.uk/register/C55659

Leave a gift in your Will

Gifts in Wills are incredibly valuable to BBOWT, as they help us nurture and protect valuable wild spaces, so that local species can thrive in the years to come. If you would like more information on leaving a gift in your Will to BBOWT, please visit bbowt.org.uk/legacy. You can also request a hardcopy of the *BBOWT Guide to Making a Will* booklet by emailing us at legacies@bbowt.org.uk or calling 01865 788300.

We are also offering a limited number of free Wills to our supporters, through a partnership with Farewill, the UK's largest Will-writing service.

Visit farewill.com/bbowt-web and enter the following voucher code **BBOWT-WEB** at check-out.
