## A Profile of U.S. Importing and Exporting Companies, 2013 - 2014

The U.S. Census Bureau, Department of Commerce, releases the report, *A Profile of U.S. Importing and Exporting Companies, 2013 - 2014*. It provides information on identified companies and their known export or import value. Identified U.S. companies are defined as companies that can be linked to import or export transactions. The known value is the value of export or import transactions linked to specific companies. The increases or decreases in known export and import values correspond with the overall direction of trade in 2014; total export value increased by 2.6 percent and total import value increased by 3.5 percent. The number of identified exporters decreased by 0.2 percent in 2014 and the known export value increased by 2.5 percent compared to 2013. The number of identified importers increased by 2.0 percent in 2014 and the known import value increased by 3.6 percent.

In 2014 the identified U.S. exporters accounted for \$1,442 billion in exports or 88.9 percent of the total value of exported goods (\$1,621 billion). In 2014 the number of identified U.S. exporters was 304.5 thousand, down from 305.0 thousand in 2013 (revised). In 2013, the known value was revised to \$1,406 billion.

Figure 1a: 2014 Export Value and Number of Exporters by Company Type (by NAICS)

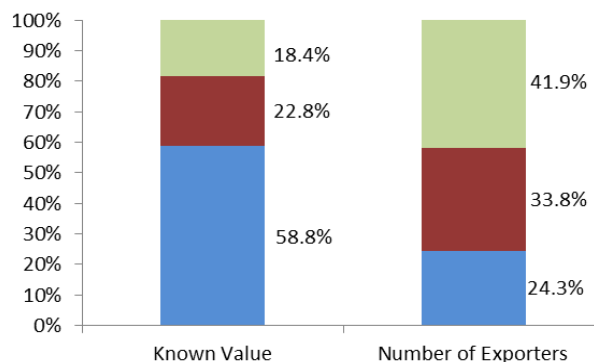

Figure 1b: 2014 Import Value and Number of Importers by Company Type (by NAICS)

NOTE: All percentages given for company size are based on known value.

In 2014 identified U.S. importers accounted for \$2,057 billion in imports or 87.6 percent of the total value of imported goods (\$2,347 billion). The number of identified U.S. importers was 188 thousand, up from 184.2 thousand in 2013 (revised).

Because not all shipments can be linked to specific companies, the number of exporters and importers may be understated (Table 1). The total export value that could not be linked to specific companies totaled 11.0 percent in 2014 and 11.0 percent in 2013. This portion of the total export value includes exports by individuals, governments, low-value estimates, and information filed with missing, unknown, or incomplete company identifiers. The total import value that could not be linked to specific companies totaled 12.4 percent in 2014 and 12.4 percent in 2013. This portion of the total import value includes imports by individuals, articles exported and returned (the condition was not advanced), low-value estimates, electricity and natural gas imports from Canada, and information filed with missing, unknown, or incomplete company identifiers. Export and import values are taken from the detailed transactions used to compile the official U.S. trade statistics. Company size and type information are taken from administrative records and census or survey data on file with the Census Bureau.

The overall findings for 2014 and 2013 are shown in Table 1, which shows the proportion of exports and imports that were successfully matched to companies in the 2013 and 2014 Business Registers. The 2013 exporter figures in this report are revised from data released in the 2012-2013 exporter profile. The revisions are based on the ability to match additional export records by company name. Unlike exports, all import records have unique numeric importer identifiers, so additional matching by the company name is not performed. Therefore no revisions are made to imports. Please refer to the Methodology section of the *Technical Documentation* at the end of this report.

### ***Who Exports and Imports?***

During 2014, 9.2 percent (28.1 thousand) of all identified exporters were *multiple location companies*; these companies accounted for 75.5 percent of the known export value (Exhibit 1a). In contrast, 276.4 thousand *single location companies* (making up 90.8 percent of the exporting companies) contributed 24.5 percent of the known export value.

In 2014, 10.4 percent of all identified importers were *multiple location companies*; these companies accounted for 77.1 percent of the known import value (Exhibit 1d). *Single location companies*, making up 89.6 percent of the importing companies, contributed 22.9 percent of the known import value.

Trade with related parties accounted for 36.0 percent of the known export value by *multiple location companies* compared to 18.0 percent by *single location companies* (Exhibit 3a).

Exhibit 1a shows that *manufacturers* accounted for the largest portion of the 2014 known value, 58.8 percent, with 24.3 percent of the identified exporters. *Wholesalers* accounted for 22.8 percent and *other companies* accounted for 18.4 percent of the known export value.

For imports, *manufacturers* accounted for the largest portion of 2014 known value, 42.2 percent with 19.3 percent of the known importers. *Wholesalers* accounted for 32.0 percent and *other companies* accounted for 25.8 percent of the known import value (Exhibit 1d).

The *other companies* category includes manufacturers of prepackaged software and books; brokers or freight forwarders and other transportation and warehousing firms, which often act as agents for the true exporter; business, engineering, and management services; oil and gas extraction companies; coal mining companies; communication services companies; and companies for which an industry could not be determined.

The number of *multiple location exporting companies* decreased by 1.6 percent in 2014. *Manufacturers* decreased by 0.7 percent, *wholesalers* decreased by 0.3 percent as well as *other companies* by 3.7 percent (Exhibit 1c).

The number of *multiple location importing companies* decreased by 0.2 percent in 2014. The number of *manufacturers* increased by 0.1 percent, *wholesalers* increased by 1.0 percent, while *other companies* decreased by 1.6 percent (Exhibit 1f).

Figure 2 shows the concentration by percent of known export and import values. Of the known export value for 2014, 61.9 percent was accounted for by the top 500 companies. The top 250 companies accounted for 52.7 percent of the known export value. For imports, 66.1 percent of the known value was accounted for by the top 500 companies and 57.3 percent of the total known import value was accounted for by the top 250 importers.

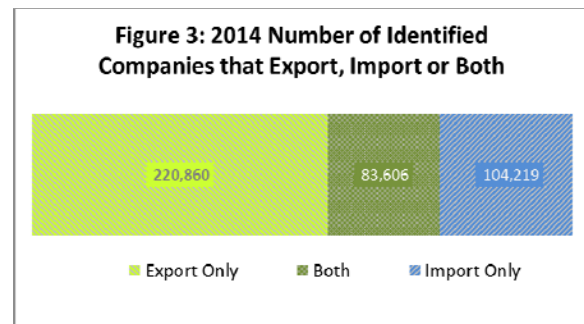

For exports, the top 100 *manufacturers* contributed 32.6 percent of the total known export value and 55.5 percent of all exports by *manufacturers* (Exhibit 2a). For imports, the top 100 *manufacturers* contributed 27.6 percent of the total known import value and 65.4 of all imports by *manufacturers* (Exhibit 2c).

Among the company types, the top 50 *manufacturers* accounted for 45.3 percent of the known export value of the manufacturing sector.

The top 50 companies represented 37.8 percent of the known export value for *wholesalers* and 44.4 percent of the known value for *other companies* (Exhibit 2a).

For imports, the top 50 importing *manufacturers* accounted for 55.6 percent of the known value of this sector. The top 50 companies represented 34.0 percent of the known import value for *wholesalers* and 61.2 percent of the known value for *other companies* (Exhibit 2c).

Figure 3 shows the number of identified companies with both exports and imports. During 2014, 83,606 companies both exported and imported goods, 220,860 companies only exported goods, and 104,219 companies only imported goods. The companies that both exported and imported in 2014 accounted for 85.5 percent of the known export value and 93.2 percent of the known import value. Among companies that both imported and exported goods, 29.9 percent were *manufacturers*, 48.3 percent were *wholesalers*, and 21.7 percent were *other* (Exhibits 1a, 1d, and 1g).

### Large-Sized Companies

Large identified companies (those employing 500 or more workers) were responsible for 66.6 percent of the known export value and 68.8 percent of known import value. They represented only 2.3 percent of all identified exporters and 2.9 percent of all known importers (Exhibits 1a and 1d).

Large companies dominated manufacturers' exports, with 3.5 percent of manufacturing exporters (2,570 of 74,114) accounting for 80.1 percent of manufacturing export value (\$679 billion of \$848 billion). Similarly, large wholesalers, who comprise 0.8 percent of the

wholesalers who export, accounted for 39.4 percent of the value of known exports by wholesalers. Large companies in the “other” category represented 2.8 percent of the identified exporters in the “other” category, and 57.1 percent of the known value. Large manufacturers’ export value to related parties represented 30.0 percent of the manufacturers’ total known export value (Exhibit 3a).

Large companies comprised 6.4 percent of manufacturing importers (2,338 of 36,342) accounting for 85.9 percent of manufacturing import value (\$746 billion of \$868 billion). Large wholesalers, who comprise approximately 0.9 percent of the wholesalers who import, accounted for 42.9 percent of the value of known imports by wholesalers. (Exhibit 1d).

Large companies accounted for 5.6 percent of those that both exported and imported goods in 2014. These large companies represented 76.3 percent of the known export value and 73.2 percent of the known import value. (Exhibit 1g).

### ***Small- and Medium-Sized Companies***

Small- and medium-sized companies (those employing fewer than 500 workers, including number of employees unknown) comprised 97.7 percent of all identified exporters and 97.1 percent of all identified importers. They account for 33.4 percent and 31.2 percent of the known export and import value, respectively. The following findings were extracted from Exhibits 1a, 1d, 1g, and 7a:

- 96.5 percent of *manufacturing exporters* were small- and medium-sized companies and they contributed 20.0 percent of the sector’s \$848 billion in exports. 93.6 percent of *manufacturing importers* were small- and medium-sized; they accounted for 14.1 percent of the sector’s \$868 billion in imports.
- 99.2 percent of *exporting wholesalers* were small- and medium-sized companies; they accounted for 60.6 percent of the sector’s \$329 billion in exports. 99.1 percent of *wholesaler importers* were small- and medium-sized; they contributed 57.1 percent of the sector’s \$659 billion in imports.

- 97.2 percent of *other companies* with exports were small- and medium-sized companies. 96.5 percent of importing *other companies* were small- and medium-sized.
- Among companies that both exported and imported in 2014, small- and medium-sized companies accounted for 94.4 percent of such companies, accounting for 23.7 percent of the known export value and 26.8 percent of the known import value.
- Among 3-digit NAICS for wholesale industries, *Merchant Wholesalers, Nondurable Goods* (NAICS 424) experienced the largest percent increase in export value by small- and medium-sized companies from 2013 to 2014 at 3.6 percent. For 3-digit manufacturing industry NAICS, *Beverage and Tobacco Product Manufacturing* (NAICS 312) saw the largest percent increase in export value by small- and medium-sized companies at 16.7 percent.

### ***Export and Import Markets***

The country groups used in the 2014 Profile have been revised from those used in earlier Profiles (Exhibits 5a, 5b, 5c, 5d, 5e, 5f, 5g, and 5h). Please refer to the Technical Documentation for country grouping definitions.

Most identified companies exported to (58.7 percent) or imported from (60.2 percent) only one foreign country. A small percentage of exporters, 0.4 percent, shipped to 50 or more countries; these companies accounted for 50.4 percent of the known export value (Exhibit 4a). Less than 0.1 percent of importing companies imported from 50 or more countries, accounting for 17.4 percent of the known import value (Exhibit 4c).

In 2014, 80.4 percent of all exporting companies exported to at least one of the top 25 U.S. trading partners. The largest number of identified companies exported to Canada, followed by Mexico, the United Kingdom, China and Germany (Exhibit 5a). 91.2 percent of all importing companies imported from at least one of the top 25 trading partners. The largest number of identified

companies imported from China, followed by Taiwan, Italy, Germany and India (Exhibit 5d).

U.S. companies that both exported to and imported from Canada represented 71.7 percent of known export value to Canada in 2014 (\$167 billion of \$233 billion). Companies exporting to and importing from China represented 67.3 percent of known import value from China (\$297 billion of \$441 billion). In 2014, China, Germany, Canada, the United Kingdom, and Mexico were the top 5 countries with the largest number of identified U.S. companies which both exported to and imported from the specific country (Exhibits 5a, 5d, and 5g).

### ***Exports and Imports by State***

The Census Bureau releases data on exports by state based on the origin of movement (OM). The OM data series is based on where the goods began their journey to the port of export as reported with the electronic export information. Similarly, import statistics by state are based on the state of destination (SD). This is the reported state, U.S. territory or U.S. possession where the merchandise is destined. Exhibit 6 shows the number of companies exporting from and importing to each state during 2013 and 2014 based upon these definitions. (Note that the same company can be shown as exporting from or importing to multiple states.)

- In 2014, the top five states, based on the number of identified exporting companies, were California, Florida, Texas, New York, and Illinois. Exporters in these five states represented 42.8 percent of the total known export value. For importing companies, the top five states were California, New York, Texas, Florida, and New Jersey. Importers in these states accounted for 45.6 percent of the total known import value.
- States recording the largest increases in known export value in 2014 were Hawaii (99.3 percent), North Dakota (45.7 percent), New Mexico (41.8 percent), Wyoming (36.0 percent), and District of Columbia (31.5 percent). Alaska (48.5 percent), District of Columbia (44.6 percent), Virgin Islands (29.9

percent), South Carolina (18.1 percent), and Alabama (17.2 percent) had the largest increases in known import value.

- In 2014, 72,591 small- and medium-sized companies exported from California. Florida was second with 58,404 small- and medium-sized companies exporting from that state. California also had the highest proportion of small- and medium-sized exporters, with 95.9 percent; followed by Florida with 95.3 percent; and New York with 94.1 percent.

### ***Comparison of 2013 and 2014 Results***

The relative proportions of exports and imports accounted for by *manufacturers*, *wholesalers*, and *other companies* based upon both number of companies and known value remained consistent from 2013 to 2014. Below are a number of noteworthy year-to-year changes (Exhibits 1c, 1f, 5c, and 5f):

- The known export value increased by 2.5 percent. The number of identified exporting companies decreased by 560 (0.2 percent). Single location companies decreased by 90 and multiple location companies decreased by 470.
- The known import value increased by 3.6 percent. The number of identified importing companies increased by 3,617 (2.0 percent). Single location companies increased by 3,649 and multiple location companies decreased by 32.
- The number of small- and medium-sized exporting companies decreased by 0.2 percent, from 298.1 thousand in 2013 to 297.5 thousand in 2014, while the number of large companies increased by 0.8 percent, from 6,893 to 6,947.
- The number of exporting *wholesalers* increased by 1.1 percent from 101.7 thousand in 2013 to 102.8 thousand in 2014. Additionally, the number of exporting *manufacturers* decreased by 0.6 percent from 74.6 thousand in 2013 to 74.1 thousand in 2014.

- The number of importing *wholesalers* increased 2.4 percent from 82.5 thousand in 2013 to 84.5 thousand in 2014. Additionally, the number of importing *manufacturers* decreased 0.1 percent from 36.4 thousand in 2013 to 36.3 thousand in 2014.
- Of the top 25 U.S. export trading partners, Mexico (3.3 percent), and United Arab Emirates (3.3 percent) showed the largest increases in the number of identified exporting companies between 2013 and 2014. Canada (2.8 percent), Australia (2.8 percent), and Thailand (2.2 percent) showed the largest percentage decreases.
- Among the top 25 U.S. import trading partners, Venezuela (10.7 percent), and Canada (4.8 percent) showed the largest increases in the number of identified importing

companies. Thailand (0.5 percent) and Israel (0.1 percent) were the only countries in the Top 25 with a percentage decrease.

Some portion of these changes may reflect changes in the match rate rather than an actual change in the number of companies. During the process of identifying individual companies, it was not possible to investigate every unmatched case. Priority was given to identifying unmatched companies having high values of trade. As a result, the information on small importers and exporters is most likely understated. Also, users should not assume that the unidentified companies reflected the same distribution of company types and sizes as the identified (known) exporters and importers. Comparisons between the number of companies importing and exporting in given categories or different years might be somewhat misleading due to differences in the percent of value we were able to match to specific companies.

**Table 1: Distribution of Exports and Imports by Identified and Unidentified Companies**  
(Value in millions of dollars. Details may not sum to total due to rounding.)

	2014 Value	% of 2014 Value	2013 Value	% of 2013 Value

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 1c**  
**Percent Difference Between the 2013 and 2014 Export Results**

Value in millions of dollars. Details may not equal totals due to rounding. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Cumulative percents are cumulative proportions relative to a particular sector's totals.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 1f**  
**Percent Difference Between the 2013 and 2014 Import Results**

Value in millions of dollars. Details may not equal totals due to rounding. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013 or 2014.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports or U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(3) Includes manufacturing companies of prepackaged software and books, brokers or freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to 100 percent because companies may export to both related and nonrelated parties.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to 100 percent because companies may import from both related and nonrelated parties.

(3) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(4) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(3) Includes manufacturing companies of prepackaged software and books, freight forwarders and other transportation service firms, business services, engineering and management services, gas and oil extraction companies, coal mining companies, communication services companies; and companies for which an industry could not be determined.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports or U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 5h**  
**2013 Exports and Imports for Selected Countries and World Areas by Employment Size**  
**Only for Companies that both Imported from and Exported to Listed Countries and World Areas**

Value in millions of dollars. Details may not equal totals due to rounding. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total exports or U.S. total general imports that could be matched to specific companies.

(2) Includes missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 6a**  
**2014 Exports by State of the Origin of Movement, Number of Exporting Companies,**  
**and Value for Small and Medium Sized Companies**

Value in millions of dollars. Details may not equal totals due to rounding. (-) Represents zero or less than one-half unit of measurement shown. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Detail may not sum to total because companies may export from more than one state.

(3) Includes transactions not reported by state and low-value estimates.

(4) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 6b**  
**2013 Exports by State of the Origin of Movement, Number of Exporting Companies,**  
**and Value for Small and Medium Sized Companies**

Value in millions of dollars. Details may not equal totals due to rounding. (-) Represents zero or less than one-half unit of measurement shown. (D) - Represents suppressed to avoid disclosure.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Includes transactions not reported by state and low-value estimates.

(3) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013 or 2014.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

**Exhibit 6d**  
**2014 Imports by State of Destination, Number of Importing Companies,**  
**Value, and Percent Difference Between 2013 and 2014 Imports**

Value in millions of dollars. Details may not equal totals due to rounding. (-) Represents zero or less than one-half unit of measurement shown. (Z) - Represents greater than 499%.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2014.

(3) A 2-digit NAICS code is the most detailed NAICS available for some companies. A NAICS code such as "11X" implies that only 2 NAICS digits have been defined (e.g. it is only known for certain that a company is classified within NAICS sector 11). "XXX" represents an unclassified company. For information on partially defined NAICS codes, see the Technical Documentation.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

(1) Known value is defined as the portion of U.S. total exports that could be matched to specific companies.

(2) Small and Medium sized companies are defined as those companies with fewer than 500 employees, those with missing employment data, nonemployers, and companies that reported annual payroll but did not report any employees on their payroll during specified period(s) in 2013.

(3) A 2-digit NAICS code is the most detailed NAICS available for some companies. A NAICS code such as "11X" implies that only 2 NAICS digits have been defined (e.g. it is only known for certain that a company is classified within NAICS sector 11). "XXX" represents an unclassified company. For information on partially defined NAICS codes, see the Technical Documentation.

Note: This exhibit is compiled using data from export trade information and the Business Register. For information on nonsampling errors and other data limitations, see the Technical Documentation.

## ***Technical Documentation***

**NOTE TO USERS:** This section contains critical information on sources and reliability of data, as well as definitions of terms and methodological procedures that users should consider before attempting to interpret or analyze the statistical data presented in this report. Failure to do so may affect the results.

### ***Overview***

This report is a continuing series of reports profiling U.S. importers and exporters. The first report, *A Profile of United States Exporters: Initial Findings from the Exporter Data Base*, was released by the International Trade Administration in September 1993. That report was based on Census Bureau data compiled both from the 1987 Economic Census and from documents filed for export clearances during 1987 and used a methodology not employed in succeeding reports. Subsequent reports, covering 1992 through present, are based on economic census and survey data on file at the Census Bureau, administrative records from other government agencies, and documents filed for export clearances. The 2009 report introduced import data to the profile. The annual release is now named the *Profile of U.S. Importing and Exporting Companies*.

These profiles are compiled by the Economic Statistical Methods Division of the U. S. Census Bureau. The International Trade Administration (ITA) is a partial sponsor of the work, providing both financial assistance and advice on data user needs. The ITA also sponsors more detailed Exhibits, which will be available on their Web site later this year. Users will be notified on the ITA Web site ([www.ita.doc.gov](http://www.ita.doc.gov)) when this information is available.

Effective with the 1997/1998 report, companies are classified according to the North American Industry Classification System (NAICS) instead of the Standard Industrial Classification (SIC) system. There are differences in the ways NAICS and SIC classify certain types of companies. For example, manufacturers of prepackaged software and books are classified as manufacturers under SIC and as “Other” types of companies under NAICS. Users are advised to consider these differences when making year-over-year comparisons of exporters and exporter characteristics before and after 1997. This profile, based on new and revised data, uses the same methodology as previous years.

The importer and exporter profiles are developed to provide both government and private sector users with information about the importing and exporting community including employment size, type of company, and major foreign markets. In this report the data are presented in Exhibits 1 through 7, where the export and import data use letters a through h to designate whether the data represents statistical year, prior year, or year-over-year comparisons. Letters g and h represent data on companies that both import and export for current and prior year. The previous year’s export figures in this report are revised from data released in the previous exporter profile. The revisions are based on the ability to match additional export records.

The exhibits in this report include detailed breakdowns based upon the number of employees of the identified importing and exporting companies. In presenting these results, companies are classified as small (less than 100 employees including number of employees unknown), medium (100 to 499 employees), and large (500 or more employees).

Exhibit 3 provides information on exports to related parties, such as parent or subsidiary firms. Two parties are considered related if either party owns, directly or indirectly, 10 percent or more of the other party. We do not currently capture related party information for imports entered into U.S. Foreign Trade Zones. As a result, the import related party exhibits (3c and 3d) are not available at this time. Due to mandatory AES filing requirements, an exporter must report whether or not an export shipment is to a related party. Therefore, effective with the 2009/2010 report, the columns in exhibits 3a and 3b labeled “Non-reported” have been eliminated.

For explanations of the methods used in tabulating the information as well as non-sampling errors and other limitations of the export data in this report, see the *Methodology* section below. Users are advised to consider these limitations when analyzing this information as they may affect the results. Users should cite the U.S. Census Bureau, U.S. Department of Commerce as the source of the information in this report, not as the source of their analyses.

### ***Sources of Information***

The importer and exporter profiles were created from import and export merchandise trade information and company characteristics contained in the Census Bureau's data base of company information, the Business Register. Company characteristics are gathered through economic censuses and surveys and supplemented with employment and payroll information provided by the Internal Revenue Service. Data on U.S. exports of merchandise from the U.S. to all countries, except Canada, is compiled from the Electronic Export Information (EEI) filed by the United States Principal Party in Interest (USPPI) or their agents through the Automated Export System (AES). The EEI is unique among Census Bureau data collection methods since it is not sent to respondents soliciting responses as in the case of surveys. Each EEI represents a shipment of one or more kinds of merchandise from one exporter to one foreign importer on a single carrier. Filing the EEI is mandatory under Chapter 9, Title 13, United States Code. Qualified exporters or their agents submit EEI data by automated means directly to the U.S. Census Bureau. The United States is substituting Canadian import statistics for U.S. exports to Canada in accordance with a 1987 Memorandum of Understanding signed by the Census Bureau, U.S. Customs and Border Protection, Canadian Customs, and Statistics Canada. The import trade statistics are compiled from multiple sources. The majority of import data comes from transactions filed electronically by importers or their licensed brokers via the Automated Broker Interface (ABI) or the Automated Commercial Environment (ACE). Other sources include electronic or paper documents for foreign trade zone admission and paper import entry summaries. In addition, data on imports of electricity and natural gas from Canada are obtained from Canadian sources.

### ***Methodology***

This profile was compiled using company identifiers or company names from import and export transactions to electronically link trade data to company characteristics in the Business Register. Beginning with data year 2002, the Business Register database was completely restructured to include additional information. Due to these changes and problems with our prior methodology, the matching routines used to create the Profile were updated. Despite the limitations within the Business Register, we are able to maintain consistency with our prior Profiles' matching routines.

Less than 3 percent of the total export value and slightly more than 3 percent of the import value, including low-value estimates, imports or exports by U.S. and foreign governments, timing adjustments, and end-of-year revisions, was excluded from this matching process because the transactions cannot be attributed to specific importing or exporting companies. Export transactions that could not be matched electronically were investigated and linked manually to specific companies using a combination of criteria, including company name, location, type, and product. Import transactions that could not be matched electronically were left unmatched. Unlike exports, all of the identifiers are numeric for imports, so the name matching investigations used to increase the export match rates cannot be applied. A comparison of the overall match rates, based on total import and export value, is presented in Table 1 under *Distribution of Exports and Imports by Identified and Unidentified Companies*, on page 7.

It was not possible to investigate every unmatched export transaction, so priority was given to those with the highest export values. The percentage of unidentified value tends to decrease each year as more companies are identified and value thresholds triggering investigation are lowered. Therefore, users should make year-to-year

comparisons with caution and be aware that the number of small companies and their associated known value are most likely understated. Similarly, the known value may not reflect all shipments by identified companies.

Beginning with data year 2010, this profile is produced using the same revised import and export data used to compile the U.S. Census Bureau's published *U.S. International Trade in Goods and Services* Annual Revision for a given data year. The rows labeled "Revisions" will be removed from Table 1 under ***Distribution of Exports and Imports by Identified and Unidentified Companies*** effective with the 2010/2011 report.

Beginning with data year 2012, the company NAICS category of Other Companies was combined with the category of Unclassified Companies. In the Profile of U.S. Importing and Exporting Companies, company size details for Unclassified Companies are not shown. However, the company size details for Unclassified Companies could be created by data users by subtracting the company size details for Manufacturers, Wholesalers, and Other companies from the total of All Identified Companies. Because of disclosure requirements, the Unclassified Companies size details are therefore checked for disclosure and suppressed as required. This causes secondary suppression to be applied to the published data, often in the Other Companies category. By combining Other Companies with Unclassified Companies and publishing the resulting data as a single category, we will reduce the number of cells that need to be suppressed due to secondary suppression caused by the Unclassified Companies category.

### ***Data Quality***

Quality assurance procedures were applied to all phases of collection, processing and tabulation of the information in this report to minimize errors. The data continue to be subject to non-sampling errors in data reporting (of the basic trade statistics and the administrative record source data), coding, keying, and in coverage (due to failure to identify all importing and exporting companies). For an explanation of non-sampling errors affecting the trade statistics, see the **Information on Goods and Services** section of the FT 900 U.S. International Trade in Goods and Services, or call (301)763-2311 to request a copy of the release. One can also obtain this information from the web at the following address: <http://www.census.gov/ft900>.

The characteristics of importing and exporting companies in this report reflect companies that could be matched to the Business Register. When analyzing these data, users should consider the possible impact of unmatched transactions and unidentified companies on their results. Unidentified importers or exporters may not reflect the same distribution of company types and sizes as identified companies. Similarly, comparisons between the number of companies importing or exporting in given categories may be misleading due to differences in the percentage of value matched to companies of various types and sizes.

Year-over-year comparisons should also be made with caution. Changes in the number of importers or exporters and the value of their transactions, the known value, may be due to differences in match rates or companies entering/dropping out of the import/export market. Table 1, under ***Distribution of Exports and Imports by Identified and Unidentified Companies***, at the beginning of this report shows a comparison of the match rates, based on total value, as well as the value attributable to companies that either imported or exported in both years.

### ***Data by State***

The data contained in Exhibits 6a through 6c are based on the Origin of Movement (OM) State. The U.S. state of origin is the 2-character postal code for the state in which the goods begin their journey to the port of export. This field allowed the compilation of the Origin of Movement - Based on Origin State Series. The OM series based on origin state has been available since 1987 and is intended to reflect the transportation origin of exports.

The data contained in Exhibits 6d and 6e are based on the U.S. State of Destination. This is defined as the U.S. state, U.S. territory or U.S. possession where the merchandise is destined, as known at the time of entry summary filing. For shipments into Foreign Trade Zones, the import state represents the location of the zone.

For more complete information on the state data series, refer to the notice at: <http://www.census.gov/foreign-trade/aip/elom.html>

### ***NAICS-based Data***

The North American Industrial Classification System (NAICS) is a two- through six-digit hierarchical classification system, offering five levels of detail. Each digit in the code is part of a series of progressively narrower categories, and the more digits in the code signify greater classification detail. The first two digits designate the economic sector, the third digit designates the subsector, the fourth digit designates the industry group, the fifth digit designates the NAICS industry, and the sixth digit designates the national industry.

NAICS information for a given company or establishment comes from a variety of governmental agencies. These include the Internal Revenue Service (IRS), the Social Security Administration (SSA) and the Bureau of Labor Statistics (BLS). These agencies collect information from companies and provide these data to the Census Bureau to the best of their abilities. Generally, the U.S. Census Bureau's NAICS classification codes are derived from information that the business establishment provided on surveys, census forms, or administrative records. Occasionally, these codes can only be defined at a level of very low detail (as low as 2 digits).

For more information on NAICS, refer to the web at the following address:

<http://www.census.gov/eos/www/naics/>

### ***Definitions of Terms***

***Business Register.*** Data base of companies included in economic census and surveys conducted by the Census Bureau.

***Company.*** A company is a business consisting of one domestic location (single location company) or more than one domestic location (multiple location company) under its ownership or control.

***Identified Companies:*** Identified companies are those companies to which one or more transactions were matched. The import or export value associated with these companies is termed “*known value.*”

***Unclassified Companies:*** These are identified companies for which no NAICS classification (manufacturers, wholesalers or other companies) could be assigned. As of 2012, these companies are considered *other companies.*

***Company Size.*** Company sizes are based on employment: small (less than 100 employees including number of employees unknown), medium (100 - 499 employees), and large (500 or more employees).

***Company Type.*** Company types are based on the North American Industry Classification System (NAICS) and are broken out into manufacturers, wholesalers, and all other companies. Those companies for which a valid NAICS code is not available are placed in the *other* grouping.

***Employment.*** Employment includes all employees, full-time or part-time, reported on a firm’s payroll during specific payroll periods.

**General Imports.** "General Imports" measure the total physical arrivals of merchandise from foreign countries, whether such merchandise enters consumption channels immediately or is entered into bonded warehouses or Foreign Trade Zones under Customs custody.

**Low-value Estimates.** Export transactions valued under \$2,501 and import transactions valued under \$251 for certain quota items and \$2001 for all other imported goods, are not required to be reported. Instead, the Census Bureau estimates the value of such shipments to each country using factors based on the ratios of low-valued shipments to individual country totals for past periods. For more information please see the following link: <http://www.census.gov/foreign-trade/aip/lvpaper.html>

**Related Party.** A related party transaction is one between a U.S. exporter and a foreign consignee, where either party owns (directly or indirectly) 10 percent or more of the other party.

**State of the Origin of Movement (OM).** The OM series data provides export statistics based on the U.S. state from which the merchandise starts its journey to the port of export; i.e., the transportation origin. This information is reported by the exporter. See the **Data Quality** section above for limitations of this data series.

**State of Destination.** The State of Destination data series provides import statistics based on the U.S. state, U.S. territory or U.S. possession where the merchandise is destined, as known at the time of entry summary filing. This information is reported by the importer. See the **Data Quality** section above for limitations of this data series.

**Value (Exports).** The export values in this report are f.a.s. ("free alongside ship") and include both domestic exports and re-exports of foreign merchandise. Several different values are given:

Total export value: The total value includes all transactions whether or not linked to specific companies.

Known value: The value of transactions linked to specific companies. All percentages given for company size and types are based on known value.

Unidentified Value: The valued transactions that were not linked to a specific company. Note that these shipments might have been exported either by identified companies or by other companies not identified in the linking process.

**Value (Imports).** The import values in this report are customs import value. The Customs value is the value of imports as appraised by the U.S. Customs and Border Protection in accordance with the legal requirements of the Tariff Act of 1930, as amended. This value is generally defined as the price actually paid or payable for merchandise when sold for exportation to the United States, excluding U.S. import duties, freight, insurance, and other charges incurred in bringing the merchandise to the United States. The term "price actually paid or payable" means the total payment (whether direct or indirect, and exclusive of any costs, charges, or expenses incurred for transportation, insurance, and related services incident to the international shipment of the merchandise from the country of exportation to the place of importation in the United States) made, or to be made, for imported merchandise by the buyer to, or for the benefit, of the seller. The type of imports shown in this report is "general." Please see the definition for "General Imports" for more information. Several different values are given:

Total import value: The total value includes all transactions whether or not linked to specific companies.

Known value: The value of transactions linked to specific companies. All percentages given for company size and types are based on known value.

Unidentified Value: The valued transactions that were not linked to a specific company. Note that these shipments might have been imported either by identified companies or by other companies not identified in the linking process.

### *Country Groupings*

Country groupings are defined at the time of the statistical reporting period. Therefore, country groupings may have different definitions between years. Any differences are noted in the listing below.

**Africa** - Algeria, Angola, Benin, Botswana, British Indian Ocean Territories, Burkina Faso, Burundi, Cameroon, Cape Verde, Central African Republic, Chad, Comoros, Congo (Brazzaville), Congo (Kinshasa), Cote d'Ivoire, Djibouti, Egypt, Equatorial Guinea, Eritrea, Ethiopia, French Southern and Antarctic Lands, Gabon, Gambia, Ghana, Guinea, Guinea-Bissau, Kenya, Lesotho, Liberia, Libya, Madagascar, Malawi, Mali, Mauritania, Mauritius, Mayotte, Morocco, Mozambique, Namibia, Niger, Nigeria, Reunion, Rwanda, Sao Tome and Principe, Senegal, Seychelles, Sierra Leone, Somalia, South Africa, South Sudan, St. Helena, Sudan, Swaziland, Tanzania, Togo, Tunisia, Uganda, Western Sahara, Zambia, Zimbabwe.

**APEC** (Asia - Pacific Economic Cooperation) - Australia, Brunei, Canada, Chile, China, Hong Kong, Indonesia, Japan, Korea (South), Malaysia, Mexico, New Zealand, Papua New Guinea, Peru, Philippines, Russia, Singapore, Taiwan, Thailand, Vietnam.

**ASEAN** (Association of Southeast Asian Nations) - Brunei, Burma, Cambodia, Indonesia, Laos, Malaysia, Philippines, Singapore, Thailand, Vietnam.

**Asia Near East** - Bahrain, Gaza Strip Administered by Israel, Iran, Iraq, Israel, Jordan, Kuwait, Lebanon, Oman, Qatar, Saudi Arabia, Syria, United Arab Emirates, West Bank Administered by Israel, Yemen.

**Asia - South** - Afghanistan, Bangladesh, India, Nepal, Pakistan, Sri Lanka.

**CAFTA - DR (Dominican Republic-Central America-United States Free Trade Agreement)** - Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Nicaragua

**Central American Common Market** - Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua.

**Euro Area** - Austria, Belgium, Cyprus, Estonia, Finland, France, Germany, Greece, Ireland, Italy, Latvia, Luxembourg, Malta, Netherlands, Portugal, Slovakia, Slovenia, Spain.

**Europe** - Albania, Andorra, Armenia, Austria, Azerbaijan, Belarus, Belgium, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Faroe Islands, Finland, France, Georgia, Germany, Gibraltar, Greece, Hungary, Iceland, Ireland, Italy, Kazakhstan, Kosovo, Kyrgyzstan, Latvia, Liechtenstein, Lithuania, Luxembourg, Macedonia, Malta, Moldova, Monaco, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, Russia, San Marino, Serbia, Slovakia, Slovenia, Spain, Svalbard, Jan Mayen Island, Sweden, Switzerland, Tajikistan, Turkey, Turkmenistan, Ukraine, United Kingdom, Uzbekistan, Vatican City.

**European Union** - Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, United Kingdom.

**LAFTA (Latin American Free Trade Area)** - Argentina, Bolivia, Brazil, Chile, Colombia, Ecuador, Mexico, Paraguay, Peru, Uruguay, Venezuela.

**NATO (North Atlantic Treaty Organization) Allies** - Belgium, Bulgaria, Canada, Czech Republic, Denmark, Estonia, France, Germany, Greece, Hungary, Iceland, Italy, Latvia, Lithuania, Luxembourg, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Turkey, United Kingdom.

**NICS (Newly Industrialized Countries)** - Hong Kong, Korea (South), Singapore, Taiwan.

**North America** - Canada, Mexico

**OECD (Organization for Economic Cooperation and Development)** - Australia, Austria, Belgium, Canada, Chile, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (South), Luxembourg, Mexico, Netherlands, New Zealand, Norway, Poland, Portugal, Slovakia, Spain, Sweden, Switzerland, Turkey, United Kingdom.

**OPEC (Organization of the Petroleum Exporting Countries)** - Algeria, Angola, Ecuador, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, United Arab Emirates, Venezuela.

**Pacific Rim Countries** - Australia, Brunei, China, Hong Kong, Indonesia, Japan, Korea (South), Macau, Malaysia, New Zealand, Papua New Guinea, Philippines, Singapore, Taiwan.

**South/Central America** - Anguilla, Antigua and Barbuda, Argentina, Aruba, Bahamas, Barbados, Belize, Bermuda, Bolivia, Brazil, British Virgin Islands, Cayman Islands, Chile, Colombia, Costa Rica, Cuba, Curacao, Dominica, Dominican Republic, Ecuador, El Salvador, Falkland Islands (Islas Malvinas), French Guiana, Grenada, Guadeloupe, Guatemala, Guyana, Haiti, Honduras, Jamaica, Martinique, Montserrat, Nicaragua, Panama, Paraguay, Peru, St. Kitts and Nevis, Sint Maarten, St. Lucia, St. Vincent and the Grenadines, Suriname, Trinidad and Tobago, Turks and Caicos Islands, Uruguay, Venezuela.

**Twenty Latin American Republics** - Argentina, Bolivia, Brazil, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Ecuador, El Salvador, Guatemala, Haiti, Honduras, Mexico, Nicaragua, Panama, Paraguay, Peru, Uruguay, Venezuela.

### *Additional Information*

For additional information, refer to the Guide to Foreign Trade Statistics: <http://www.census.gov/foreign-trade/guide/>
