

## Behavioral Health

In the early 1970's, CCAP began providing outpatient addiction treatment services to the community. Over the years, our services have grown to include counseling and trauma treatment, medication assisted treatment for opioid addiction, services for victims of abuse and crime, as well as general outpatient psychotherapy services. We have a team of Licensed Medical and Psychiatric Providers,

Clinicians and Addiction Specialists. We are located at 1090 Cranston Street in Cranston, 191 MacArthur Blvd in Coventry and 226 Buttonwoods Avenue in Warwick, RI.

The team of clinicians work collaboratively with primary care providers, as well as other service providers, throughout the CCAP system to provide you with the best comprehensive, quality care possible.

At CCAP we understand that life can be challenging and sometimes help is needed. CCAP offers a full range of behavioral health counseling services to help individuals and families develop healthy ways of coping with adversity and resolve problems that have created obstacles to leading full lives.

Comprehensive Community Action Program is a private, nonprofit community action agency formed under the 1964 Economic Opportunity Act. In 1965, Cranston Community Action Program (CCAP) was incorporated. At that time CCAP served Cranston, Coventry, Scituate and Foster. As many of our programs grew to include cities and towns outside that catchment area, we decided to change our name and in 1994 we officially became Comprehensive Community Action, but still CCAP.

Today CCAP is one of Rhode Island's largest organizations dedicated solely to fighting the war on poverty. Our professional staff provides a wide spectrum of services designed to help those in immediate need and empower anyone desiring to become more self-sufficient.

- Family Health Services
- Family Development Services
- Social Services
- Emergency Services
- Child Development

## CCAP MISSION

To empower all people and communities, challenged by poverty as well as social and cultural barriers, through advocacy, education, and access to high quality health and human services.
