

UPLIFT DESK®

PRICE BOOK +
SPECIFICATION GUIDE
Spring 2022

A Healthier, Happier Work Environment Starts Here

At UPLIFT Desk, we understand that your office needs are as individual as each user. Let us create an ergonomic solution for your team. From private offices to open floor plans, we'll be with you every step of the process. As your partner, we offer free delivery, design planning services, a 30-day trial, and a 15 year warranty on standing desks, as well as financing options. For a full breakdown of warranties for all the products featured in this guide, visit the warranty page on our website.

The process begins with a phone call or email to our team, and it's followed by an in-person visit. Our team will work with you to craft a plan that solves the pain points you're experiencing with your current office. If an in-person meeting isn't possible, we'll request a CAD file to get a better understanding of your space.

Once a design has been agreed upon, we'll begin with pricing and financing options, then set an installation date. We can turn around projects from conception to installation in as little as 14 days. After your new office is complete, we'll follow up to ensure everything is perfect.

Give us a call at 800-349-3839, we're looking forward to working with you.

Save Money and Time

We cut out the middleman and pass the savings on to you. All orders ship free.

Empower Your Workforce

Improve employee retention with a happier, healthier, and more productive workplace.

Plan for Growth

Flexible, scalable solutions designed to evolve with the ever-changing needs of your business.

A LETTER FROM THE CEO

Dear Friend,

Welcome to UPLIFT Desk, a global leader in standing desks and ergonomics. Our mission at UPLIFT Desk is simple; we're here to provide the best selection of beautiful, functional, sustainable, and affordable standing desks and ergonomic furniture to enable you to work better and live healthier.

The adverse health effects from a sedentary lifestyle are well documented. Our bodies were built to move, and standing intermittently throughout your workday at a properly height-adjusted desk can lead to better overall health and increased productivity. We're thrilled that UPLIFT desks are helping hundreds of thousands of people worldwide improve their lives. Our desks have assisted Google, Boeing, Apple, JP Morgan Chase, AT&T, and Microsoft (to name a few) in a healthier work environment for their employees.

At UPLIFT Desk, we have a tireless commitment to handling manufacturing, retail, and fulfillment directly. This allows us to cut out the middleman and offer lower prices than our competitors. We also offer free shipping on every order, a 30-day trial, and a 15-year warranty on standing desks, in addition to bulk discounts and free desk accessories.

Additionally, we are a U.S. General Services Administration (GSA) contract holder and are proud to provide industry-leading ergonomic furniture and accessories to federal, state, and local government agencies and organizations in the United States. We have ergonomic solutions for any office, including those with ANSI/BIFMA standard requirements. You can refer to our products on [GSAAdvantage.gov](https://www.GSAAdvantage.gov).

We hope you consider UPLIFT Desk for your office furniture needs in the future. If you're ever in Austin, Texas, be sure to stop by and say, Howdy.

Sincerely,

Jon, President
CEO

Rated #1 Best Standing Desk by Wirecutter for four years in a row (2019, 2020, 2021, 2022, 2023)

Minimizes desk depth by six inches to maximize your floorplan or small office space

The perfect corner desk for those that need more desk space.

A corner desk for those with limited space.

More legs for greater stability and more power.

Concave arc desktop that curves around you. Great for grouping three desks together.

UPLIFT V2 Standing Desk Frame

The [UPLIFT V2 Standing Desk Frame](#) boasts a carrying capacity of 355 lb, sturdy steel construction, and cast-aluminum feet. C-shaped and T-shaped feet are available for desks with desktops 30" and deeper, while shorter C-shaped feet are also available for desks with desktops 24" deep. C-shaped feet allow more room for accessories. This three-stage frame delivers 25.6" of height adjustment and is 33% faster to adjust than a two-stage frame.

This frame features dual soft start/stop motors (one in each leg), an energy-efficient low-draw transformer, and a control box with collision detection for safety. A telescoping upper crossbar is positioned directly where the base meets the desktop. The frame adjusts to fit desktops from 42"-80" wide and 24"-30" deep. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

Specifications

[See complete spec sheet here](#)

- Height Range: 24.5" - 49.9" H
- Travel Speed: 1.57" per second
- Noise Level: 50 decibels during motion
- Frame Width: 41.3" min - 72.2" max
- Weight Capacity: 355 lb
- Control Box Input: 100-120VAC, 50/60Hz, 4A

Colors

		T-Frame, 27" feet	55 lb	KIT-FRMA-2-T27-XXX	\$549

UPLIFT V2-Commercial Standing Desk Frame

The [UPLIFT V2-Commercial Standing Desk Frame](#) has a height range of 22.6" - 48.7" (with a 1" desktop installed) and a lifting capacity of 355 lb. C-shaped and T-shaped feet are available for desks with desktops 30" and deeper, while shorter C-shaped feet are also available for desks with desktops 24" deep. C-shaped feet allow more room for accessories.

This frame has a lower starting height, a lower max height, and a broader overall height-adjustment range, compared to the UPLIFT V2 Frame. We designed this frame to meet the ANSI/BIFMA G1-2013 height standard.

Because of its greater height adjustment range, we added a lower crossbar for increased stability. The UPLIFT V2-Commercial Frame supports ergonomic working postures in both seated and standing positions. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

UPLIFT V2 L-Shaped Standing Desk Frame

The [UPLIFT V2 L-Shaped Standing Desk Frame](#) comes with two C-shaped feet and one upright support leg for a setup that can be configured based on the user's needs. The width-adjustable frame supports larger desktops and lets users build an L-shaped workstation. The electric three-stage frame is 33% faster than a two-stage frame, delivers 25.6" of height adjustment, and boasts a carrying capacity of over 535 lb.

The frame comes with a whisper-quiet, soft start/stop motor in each leg, an energy-efficient low-draw transformer, and a control box with collision detection for safety. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

UPLIFT V2 4-Leg Standing Desk Frame

The [UPLIFT V2 4-Leg Standing Desk Frame](#) features 25.6" of height adjustment and boasts a 535 lb lifting capacity. A three-stage frame design provides an expanded height adjustment range and is 33% faster to adjust than two-stage frames. Frames come with a low-draw power transformer that uses little electricity, and a single control box includes collision detection functionality for safety.

A quad-leg design delivers optimal desk stability at any height and includes four upper crossbars to support more massive desk setups.

UPLIFT V2-Commercial 4-Leg Standing Desk Frame

The [UPLIFT V2-Commercial 4-Leg Standing Desk Frame](#) was created to provide a seated and standing height range that's ergonomically suitable for 95% of office workers. With a height range of 22.6" - 48.7" you have 26.1" of available adjustments. This frame (with a 1" thick desktop) meets the ANSI/BIFMA G1-2013 height standard requirements.

The legs have a 35% larger cross sectional area to improve stability, which is further reinforced by a single, lower crossbar. With a 535 lb lifting capacity, you'll have enough power to handle the toughest tasks.

Storage Grommet

Turn your desktop's grommet hole into a built-in cup holder with the [Storage Grommet](#). You now can safely place your beverage within arms reach without the fear of knocking it over. You can also use the Storage Grommet for your pens, pencils, markers, keys, and any other small items.

Simply place the Storage Grommet into the grommet hole on your desktop and lock it into place by hand-tightening the locking ring on the underside of the desktop. It's a smart and simple way to keep your things nice and tidy!

Features

- Converts the grommet holes on UPLIFT Desk desktops to cup holders
- Create a place for your drinks, pens, and other small items
- Compatible with desktops between 3/4" and 1-3/4" thick

Specifications

- Dimensions: 3.75" W x 2.4" H
- Interior Cup Dimensions: 2.9" W x 2.3" H
- Fits Grommet Holes: 3.15"-3.35" (80-85 mm) diameter
- Material: Molded ABS Plastic
- Colors: Black, Gray, White

Desk Casters

Work at a standing desk made mobile with [UPLIFT Desk casters](#).

Available in a set of four or five for every UPLIFT Desk model, these locking casters make your desk even more versatile. They work great on either hard floors or low pile carpeting.

For safety and stability, the casters lock to keep the desk in place. For those who like to rearrange their spaces frequently or move a lot, casters make moving UPLIFT Desk a breeze.

Enjoy a portable workstation in your pick of caster colors - black and white.

Features

- Standard casters are compatible with all UPLIFT Desk models
- Removing the glides and adding casters adds about 1.5" of height
- This accessory is also compatible with non-UPLIFT desks

Specifications

- Caster diameter: 1.5"
- Dimensions: 2" W x 1.5" H
- Material: Polyamide 6 wheel material
- Colors: Black, and White

Soft Roll Desk Casters

Keep your desk mobile and your floors safe with our [Soft Roll Desk Casters](#). Traverse any surface with ease—from a cable-covered carpet to a delicate hardwood—without feeling any big bumps to your desk or risking scratches to your floors. Move your desk or table whenever you need, then simply lock the casters when you're ready to work.

These desk casters are compatible with any UPLIFT desk frame or table frame (even side tables) and can even handle desks and tables that hold a lot of weight: up to 140 lb per caster. Make your UPLIFT workstation as mobile as you need.

Features

- Soft rubberized tread is gentle on any flooring including hardwood
- Locking casters keep your desk in place and provide stability
- Soft Roll Desk Casters raises your UPLIFT desks and tables by about 2.5"
- This accessory is also compatible with non-UPLIFT desks

Heavy Duty Locking Casters

Our [Heavy Duty Locking Casters](#) take your height adjustable work table to places where traditional casters cannot, such as industrial environments and warehouses. Roll without worry that you'll get stuck thanks to large desk wheels that glide smoothly and mightily over surfaces, from drains to cables. The casters lock easily with a foot so you don't even have to stop work to secure your table in place.

Features

- Makes your workstation mobile over cords, uneven floors, and debris
- Ideal for use in industrial areas, like warehouses and assembly lines
- Casters can be locked with a foot to keep tables and desks in place
- 360 degree swivel ball bearings move in all directions

Specifications

- Caster diameter: 4"
- Height added to desk: 4.7"
- Dimensions: 11" L x 21" W x 7" H
- Material: Stainless Steel

FIXED HEIGHT
TABLE FRAMES

2-Leg Seated Height Fixed Height Table Frame

The [2-Leg Seated Fixed Height Table Frame](#) can be used as a matching accent table to an UPLIFT Desk, or as a desk on its own. Frame comes with 28" of height to the underside of desktops and allows users extra room to store large or rarely used office supplies and decor and perform short duration tasks while seated.

The frame can pair with any UPLIFT Desktop to create a fixed-height desk, and comes in our standard frame colors to match UPLIFT Desks. The patent-pending accessory mounting point system allows for quick and sturdy attachment of our exclusive desk accessories without the need to drill holes into your desktop.

Specifications

[See complete spec sheet here](#)

- Width: 41.3" - 72.2" W
- Height: 29" H with 1" thick desktop
- Depth: 27.6" D
- Levelers: 0.375" adjustment
- Weight Capacity: 355 lb

4-Leg Standing Height Fixed Height Table Frame

The [4-Leg Standing Fixed Height Table Frame](#) lets users build a matching Fixed Height Table to supplement desk space at sit-stand workstations. The frame rests at a comfortable standing height for most users at 42 inches tall; this provides plenty of extra space for housing devices and accessories that don't need to be stationed on the user's primary work area.

The frame can pair with any UPLIFT Desktop to create a fixed-height desk, and comes in our standard frame colors to match UPLIFT Desks.

Specifications

ATX Standing Desk Converter

If you aren't ready to upgrade to a full UPLIFT V2 Standing Desk yet, transform your current desk with the [ATX Standing Desk Converter](#). Arrives fully assembled and ready to use. The single-handed operation creates smooth and quiet adjustments without any predetermined height settings. Enjoy a competitive height range of 18.3" with a single handle operation. Compatible with users from 4' 10" to 6' 2" in height. Safely hold up to 39.6 lb of work equipment. Some users prefer monitor arms, which are options for those who would like to mount a monitor to their desk or converter. Monitor arms support the monitor without taking up additional space on your work surface.

Features

- Heavy-duty lifting power, up to 39.6 lb
- Adjustable height range up to 18.3"
- Attached one or two monitor arms

Riser or Clamp Standing Desk Converter

The [Standing Desk Converter - Riser or Clamp](#) converts fixed-height surfaces into adjustable height workstations. Easy controls, a large work surface, and an attached keyboard tray help users work in comfort. The converter adjusts for height via a gas cylinder so no electricity is necessary. Choose between freestanding (riser) or clamp mount models. Installing with the clamp mount allows the attached keyboard tray to lower below desk surface for ideal ergonomic typing position, while the freestanding mount allows more freedom and mobility.

Features

- Converts any surface into an adjustable height workstation
- Pneumatic adjustment does not require electrical outlet
- Counterbalances to support weight of equipment
- Clamp mount allows attached keyboard tray to lower below desk surface for ideal ergonomic typing postures
- Freestanding base also available

Specifications

[See complete Riser spec sheet here](#)
[See complete Clamp spec sheet here](#)

- Worksurface: 23.6" W x 15.75" D
- Keyboard Tray: 27" W x 10.5" D
- Height Range: 16.7" H
- Weight Capacity: 28.6 lb
- Desktop Requirements: Riser - 23.5" D and up
Clamp - 19" - 31.5" D

Swing Laptop Sit/Stand Workstation

Our bodies were meant to move and change positions frequently. The [Swing Laptop Sit/Stand Workstation](#) gives you the ability to work at a perfect sitting and standing height improves posture and helps eliminate health risks while keeping you more comfortable and focused at work.

Although we recommend a complete Standing Desk for intensive work, some situations and scenarios call for a space saving laptop.

Features

- Transform a fixed height workspace into an active, height-adjustable workspace
- Suitable for various workspaces: in home, office, warehouse, healthcare, or educational environments
- Deploy anywhere to promote active movement
- Can be utilized both as a standing workstation or at a sitting height with the laptop screen at an ergonomic height

Specifications

[See complete spec sheet here](#)

- Worksurface: 24.8" W x 13.3" D
- Height Range: Work surface is 0.9" to 19.9" above the desk.
- Weight Capacity: 19.8 lb

**Use bolt thru or clamp mount for desktops 0.4" - 3.3" thick*

*** Max forward reach measured from center of post to VESA plate

**** Side extension is how far the monitor arm can extend out to the left or right. It is measured from the center of the post/base to the center of the VESA plate

Laptop Mount

The [Laptop Mount](#) should be compatible with all monitor arms that use a 75mm VESA mount, unless there is a unique design interference between the two products.

We don't recommend the use of the Laptop Mount with any of the UPLIFT Desk Align model monitor arms because there is no way to line up laptop screen with the monitor.

The Laptop Mount is available in black and can be utilized with the following UPLIFT Desk monitor arms.

Features

- Ergonomically position your laptop screen to act like a perfectly positioned monitor
- Free up valuable workspace on your desktop
- Steel frame with front lip, non-slip pads, and elastic straps securely holds most laptop computers
- Ventilation cutout offers improved airflow to prevent overheating
- Laptop Mount attaches to any monitor arm with a 75mm VESA pattern

Specifications

[See complete spec sheet here](#)

Zilker Single Monitor Arm

The dynamic [Zilker Single Monitor Arm](#) lets you position your screen at a comfortable and ergonomically correct working distance, height, and angle. The Zilker Single Monitor Arm supports monitors from 4.4 lb - 11 lb on a gas spring mechanism for smooth travel between 6.75" - 19" high (a 12.25" range from the center of the VESA plate to the desktop). A sturdy clamp mount installs quickly on desktops ranging from 0.75" - 3.75" thick; also includes an optional bolt-through mounting kit for holes 0.4" - 3.2" in diameter and desks ranging from 0.6" - 2.1" thick.

The rotation stop pin prevents the monitor arm from swiveling past the back edge of your desk, or remove the pin to let it rotate 360 degrees. Built-in cord management streamlines cables for a clutter-free workspace. Available in four colors so you can coordinate with your standing desk frame.

Features

- Rotate 360 degrees to share your screen with neighbors
- Stay organized with built-in cable management
- Ergonomic angle reduces neck strain
- Quick-release VESA mounts

Specifications

[See complete spec sheet here](#)

- Height Adjustment Range: 6.75" - 19" H
- Depth Adjustment Range: 20" D
- Display Rotation Range: 360°
- VESA Mount: 100 x 100 mm & 75 x 75 mm
- Monitor Weight: 4.4 - 11 lb

**Use bolt thru mount for desktops 0.6" - 2.1" thick and clamp mount for desktops 0.75" - 3.75" thick*

Zilker Dual Monitor Arm

With the [Zilker Dual Monitor Arm](#), control two screens while you work, changing monitor angles, heights, and distances with this sleek monitor arm. Or add a laptop mount to give your laptop a boost. Give monitors from 4.4 lb - 11 lb the ability to glide above your desk—as well as raise from 6.75" - 19" (as measured from the desktop to the center of the VESA mount). Installation is easy. The monitor arm securely clamps onto the back edge of desktops 0.75" - 3.75" thick—or can be bolt-mounted through holes 0.4" - 3.2" in diameter on 0.6" - 2.1" thick desktops.

Rotation stop feature also allows you to halt your arms at the back edge of the desk to avoid hitting objects. Remove the locking pin to rotate 360 degrees. Place all your cables into the integrated wire management clips for a clean, streamlined look.

Attach your monitors to the arm using the quick-release VESA mount.

Features

- Save desktop space by lifting two monitors off the desktop
- Control two screens and increase productivity
- Four colors available to coordinate with your space
- Quick-release VESA mounts

Specifications

Range Single Monitor Arm

The [Range Single Monitor Arm](#) supports single monitors weighing between 4.5-17.5 pounds and its counterbalance system allows easy fingertip adjustment of height and depth. Built-in cable management allows users to route and hide monitor cords. Installs to desks via a stable clamp mount and fits desktops up from 0.75" - 3.75" thick. VESA compatible 75 mm and 100 mm.

Features

- Counterbalance system allows fingertip adjustment
- Built-in cable management
- Quick-release VESA mounts
- 180-degree stopping pin limits arm movement in space-constrained environments. Remove pin for 360 degrees of motion

Range Dual Monitor Arm

The [Range Dual Monitor Arm](#) secures and elevates dual monitor setups for comfortable viewing via a stabilizing counterbalance system that offers fingertip height and depth adjustment. It's designed to hold screens between 4.5 - 17.5 pounds on each arm and comes with integrated cable management. The arm installs via a stable clamp mount that fits desktops from 0.75" - 3.75" thick. VESA compatible 75 mm and 100 mm.

Features

- Counterbalance system allows fingertip adjustment
- Quick-release VESA mounts

Enfield Single Monitor Arm

The Enfield Single Monitor Arm enables a monitor to be ergonomically positioned for increased comfort and productivity. Adjust the height, angle, and distance of a monitor to minimize stress on the neck, shoulders, and torso—and to keep eyes from straining to see monitor text that is too far away.

Features

- Quickly position your monitor at an ergonomically correct distance from your eyes
- Hover your monitor above the desktop
- Capable of pivoting a complete 360 degrees, or engage the 180 degree stopping feature
- Keep your workspace tidy with integrated wire management

UPLIFT Desk Extension

Combine the [UPLIFT Desk Extension](#) with the sturdy patent-pending mounting system on our UPLIFT V2 frame, and you can enjoy the benefits of more desk space in record time. Extend one or both sides of your desk by 12 inches. Each 12.2" W x 30" D extension provides 2.5 square feet of extra workspace.

A neoprene rubber pad top surface helps keep desktop items in place, reduces scratching, and minimizes noise. Pad is removable, or use the included adhesive backing to attach permanently

Place your large computer on top or underneath. The top makes a perfect place for a large computer. Or it's designed to work with our UPLIFT Desk CPU holder.

Features

- Holds up to 60 lb with included U-supports installed
- Holds up to 30 lb without included U-supports installed
- Perfect place for a large computer
- Only compatible with UPLIFT V2 frames
- Color choices to perfectly match your UPLIFT V2 desk frame

Specifications

Flexible Desk Hook

Install the [Flexible Desk Hook](#) anywhere underneath your desktop. Consider placement of the hook from both a seated or standing position before attaching.

If you own an UPLIFT Desk or Table, simply install the hook using the pre-drilled keypad holes on the opposite side as the keypad.

The hook's aluminum core and molded plastic mounting clip provide the ideal combination of strength and flexibility.

This versatile hook supports up to 10 lb of weight and can bend to form a cradle for your headphones, gaming controllers, and other devices.

Features

- Holds up to 10 lb
- Perfect place to hold headphones or gaming pads
- Compatible with any desk
- Strong aluminum construction

VESA Mount Adapter Plate 200mm x 100mm

A simple and cost-effective solution, the [VESA Mount Adapter Plate](#) converts your existing 75mm x 75mm VESA to a larger 200mm x 100mm VESA.

Steel construction with a black powder coat finish ensures your monitor will be held securely in place with a plate that won't scratch easily. The Adapter Plate is designed with a recess to accommodate a flush fit against the back of the monitor without screw heads interfering. The Adapter Plate is easy to install and comes with all the screws needed to mount it to your monitor arm.

Features

- Convert a 75mm x 75mm VESA plate to a 200mm x 100mm
- Sturdy steel construction
- Hardware included
- Works with all UPLIFT Desk monitor arms and most monitor arms of other brands
- Recommended for monitors 23"- 43" (measured diagonally)

Bamboo Rocker-X Board

The [Bamboo Rocker-X Board](#) lets users get on their feet and rock from side to side, helping improve circulation and boost energy throughout the day.

The Rocker board is a gentler motion board alternative to our Motion-X Board, which provides a 360-degree range of motion and requires active heel/toe weight distribution. The Rocker-X simply rocks side-to-side, allowing you to get the benefits of added motion within a more stable range of movement.

Features

- Allows more movement at standing desks
- Optional rubber bumpers for extra stability and bump protection
- Optional add-on comfort mat reduces fatigue

Bamboo Motion-X Board

The [Bamboo Motion-X Board](#) lets users balance, tilt, and rock while standing in place at sit-stand desks, boosting energy and improving circulation. Featuring a low-profile design, the Board's deck is made from genuine and sustainable bamboo. A molded plastic base underneath allows for gentle rocking movements, while molded high durometer rubber bumpers protect against bumps. An anti-fatigue comfort mat can be added to the top of the board for additional support.

Features

- Allows more movement at standing desks
- Optional rubber bumpers for extra stability and bump protection

Motion Board E7

Balance, rock, and tilt in easy mode at your standing desk with the [Motion Board E7](#).

This board gets you on your feet and invigorates your workday with one easy addition. Our E7 allows you to multitask with gentle and smooth movements, delivering you slightly less motion than some of our other balance boards. A curved bottom surface allows you to balance on top while anti-fatigue faux leather padding takes pressure off your feet and legs for a more supportive, energizing, and comfortable way to actively stand at work.

Features

- Board encourages gentle, ergo-friendly balancing
- Faux leather mat under board reduces fatigue
- Keeps you feeling great on your feet

Specifications

[See complete spec sheet here](#)

- Dimensions: 22" W x 17.75" D x 3" H

Fit Motion Board

Improve your health and focus with gentle, active motion with the [Fit Motion Board](#). The tilt angle is adjustable for greater control over the range of motion, and the heel grab option lets you reposition the board without bending and reaching. Gently work your leg muscles and engage your core at your desk.

The soft wool felt top adds traction and comfort, making it easy to keep your footing. The board is small in size, easily portable, and strong enough to hold up to 350 lb.

Features

- Allows more movement at standing desks
- Removable bumpers provide adjustable tilt angle
- Soft wool felt top for traction

Specifications

Motion Board E3

The [Motion Board E3](#) allows you to rock, tilt, swivel, or balance in place while you finish up your latest project. The board utilizes more muscle groups and burns more calories than simply standing in place, and can even boost your energy levels. Once you get the hang of it, work will feel more like surfing at your desk than working on your spreadsheets.

Features

- Curved surface lets you rock, tilt, and swivel at work
- Burns calories and engages more muscles
- Available in blue

Elevate Footrest

We all know more movement is good for your health and alternating between sitting and standing throughout the day is a good way to accomplish this. Our bodies benefit immensely from movement, no matter how small.

Standing for extended periods of time may cause foot, leg, and back fatigue. This footrest solves that problem by letting you comfortably take the load off of one foot at a time. The [Elevate Footrest](#) enables you to shift your weight and increase circulation by emulating the foot rail typically found at a restaurant or bar.

Features

- Height adjustable to 6 positions
- Footrest platform has a comfortable 12-degree incline

Specifications

[See complete spec sheet here](#)

- Dimensions: 15.75" W x 11.5" D x 13.6" H, 6.9 lb
- Height Adjustments: 3.5", 4.5", 5.5", 6.5", 7.5", 8.5" (from the floor to the front edge of the platform).

Standing Desk Mat with Heel Grab

Standing is comfortable with the [Standing Desk Mat with Heel Grab](#). Featuring a durable, rubberized gel foam interior and a textured surface with beveled edges that prevent tripping when stepping on or off, the mat provides standing support for the user's feet, legs, and back. Spill-resistant thanks to a closed-cell construction, the mat is 0.75" thick and fits underneath all UPLIFT Desks. The heel grab allows you to move it into place with ease.

Features

- Textured exterior prevents slips
- Rubberized gel foam provides comfort for standing by absorbing weight and pressure in legs and feet
- Heel grab helps you move mat around with ease
- Smooth beveled edges prevent tripping hazards
- Strong surface is abrasion- and tear-resistant, and is able to withstand the weathers of work
- Closed-cell construction makes mat resistant to spills and easy to clean

E7 Active Anti-Fatigue Mat

The [E7 Active Anti-Fatigue Mat](#) gives users an active standing experience complete with anti-fatigue support. A rest bar with textured surface massages the feet and massage mounds let users stretch muscles. Power wedges on the back of the mat relieve calves while standing. The E7 lets users vary their standing postures even more than they can with a traditional standing mat.

Features

- Several options for users to switch postures and stretch muscles.
- Spacious anti-fatigue mat area to relieve pressure on the legs and feet while standing.
- Massage mounds on outer sides for arches of feet
- Rest bar at front with textured surface for massaging feet and exercising ankles.
- Power wedges at back to relieve heels and stretch calves.

E7 Small Active Anti-Fatigue Mat

The [E7 Small Active Anti-Fatigue Mat](#) allows you to stand comfortably for longer periods, take a stretch break, and work in greater comfort at your cubicle or workstation.

Engage your core and stretch targeted muscle groups in the legs, ankles, and feet with this multidimensional floor mat. Massage mounds on the edges can give your feet some needed rest and relaxation throughout the day. An incline at the front of the mat provides a place to vary your posture and stretch, and the mat's heel grab allows you to shift its position on the floor without needing to bend over awkwardly.

Because we know you'll be using your anti-fatigue mat for hours per day, we've made it from high-density materials that will stand the test of time. With a smaller design than our full-sized E7, this mat fits in more places and suits a wide range of users, from children to adults.

Features

- Switch postures and stand comfortably at your workstation
- Smaller design is ideal for compact office spaces and kids
- Built-in heel grab means users can move the mat without bending down
- Rest bar with textured surface at the front lets you massage tired feet
- Massage mounds on the outer edges allow for targeted stretching
- Boasts a high-density core for long-lasting, steadfast support
- Fits most users, from kids to adults

Chair Mat with Standing Cushion

The [Chair Mat with Standing Cushion](#) serves as the ultimate 2-in-1 for support and protection. It offers the perfect blend of protection, support, and comfort by providing a soft anti-fatigue surface for your feet when you're standing AND protecting the finish of your floor from your chair.

Dual-purpose mat made of strong faux-leather and engineered foam features a smooth surface on the back portion for your chair's casters. Sit, roll, and swivel without worrying about damaging your floor.

Stand up for your health at work while enjoying relief from foot, leg, and back fatigue.

Features

- Sit and stand comfortably at your workstation
- Dual purpose anti-fatigue mat and back portion for chair
- Made of strong faux-leather and engineered foam
- Swivel without worrying about damaging your floor

Standing Desk Mat

Take a close look at the [Standing Desk Mat](#)'s top surface, and you'll notice a textured, faux leather finish that provides just the right amount of friction.

The bottom of the mat itself has a non-slip molded pattern to keep the mat in place wherever you put it. You can shift your weight and move around without worrying about the mat moving. However, it's lightweight and easy to pick up and move.

The mat edges have a thoughtfully beveled design to prevent the edges from curling up. This reduces tripping hazards, and keeps the Standing Desk Mat flat and flush with the floor.

Features

- Extra supportive
- Large surface - 32" Wide x 20" Deep
- Stays in place

Desk Shelf or Monitor Stand

Maximize your desk space with the [Desk Shelf or Monitor Stand](#). Crafted from steel, the tray top design is deep and sturdy enough to hold speakers, monitors, laptops, and other desktop essentials; while providing extra storage space beneath it.

Its clamp-on hardware yields ease and flexibility when mounting the shelf. Clamp it wherever you would like. It aligns flush with the rear edge of a desk or table, making it useful even on desks within a cubicle or with privacy panels attached.

Features

- creates additional desktop space for speakers, picture frames, books, monitors, plants, etc
- 15" steel shelf supports up to 35 lb; 27" steel shelf supports up to 50 lb
- Desk shelf sits 4" above the desktop leaving room underneath for additional items

Specifications

Glass Desk Blotter

Use the [Glass Desk Blotter](#) to protect your desk from scratches and provide a smooth writing surface without hiding the desktop's beauty.

Avoid the cost of a full glass desktop protector. Our budget-friendly clear glass pad protects the most-used area of your desk. The Optiwhite glass provides a clear finish. The low iron content results in exceptional color neutrality and clarity.

Features

- Protect your desk without hiding the desktop's beauty
- Provides a smooth writing surface
- Pre-installed clear rubber bumpers keep the blotter in place
- Place photos, notes, calendars, or decor underneath for easy reference
- Write on top of the glass with dry-erase markers

Specifications

Desktop Air Purifier

Use the [Desktop Air Purifier](#) to improve the air quality surrounding your desk by removing airborne particles from the air you breathe such as dust, allergens, and odors. Studies show that improved air quality increases productivity and performance.

True HEPA filter captures 99.7% of air particles that are 0.3 microns and larger while the activated carbon eliminates odor and removes volatile organic compounds (VOCs), and other gaseous pollutants from the air.

Features

- Removes airborne particles from such as dust, allergens, and odors
- Portable, powerful and compact
- Made for personal spaces with ultra-quiet operation
- Automatic shut off mode after 8 hours of use
- Increases your productivity and performance

Specifications

- Power Type: USB cable (38")
- Working Area: Up to 10 square meters (107.6 square feet)
- Filter Type: True HEPA & Active Carbon Filter
- Filter Life: 2-6 month intervals
- Size: 4.8" diameter x 7.5" H
- Color: White
- Working Voltage: 5V
- Power: 2W
- Negative Ion Output: 5 million/cm³
- Timer: 8 hours
- Noise: 28dB

LIGHTING

Illuminate LED Task Light

The **Illuminate LED Task Light** lets users direct their light source via a swiveling lamp head with multiple modes of adjustability. Users can bend and pose the lamp thanks to rotating joints in the lamp and body. Three light setting modes (Cool, Warm, and Natural), with five levels of brightness for each, produce light for a variety of tasks and environments, while LED lights reduce energy consumption and last for years of work. The Illuminate comes with a USB port on the base.

Features

- Upper arm swivels open upward, left, and right
- Collapsible upper arm
- 5 brightness levels
- Cool, warm, and natural light modes
- USB port

Specifications

Clamp-On or Under-Mount Power with USB

With two power and two USB outlets within reach, the [Clamp-On or Under-Mount power with USB](#) allows you to charge your most essential devices within close range. Tool-free installation is designed with convenience in mind. Twist the bottom knobs to tighten the clamp. Once the power outlet is secured to your desk, plug into the wall using the attached 10' cord. Now you can begin charging your devices. The anti-slip neoprene pad located on the bottom of the power outlet will protect desktop surfaces from wear and tear. Use optional under desk mounting bracket to attach to the bottom of your desk.

Features

- More powerful than most computer USB ports
- Anti-slip neoprene pad protects surfaces from scratches
- Tool-free installation - twist bottom knobs to tighten
- Includes 2 outlets and 2 USB ports

Specifications

Wire Management Modesty Panels

The [Modesty Panel with Wire Management](#) increases privacy underneath desks while providing more cable management. Users can bundle and hide cords within the discreet mesh panels, which protects them as they raise and lower their desks. Modesty Panels come in multiple size options and attach to desks via hanging clips.

Features

- Adds privacy under desk
- Includes pouch for wire management
- 15 year warranty

Wave Vertical Ergonomic Mouse

The comfortable and easy-to-use design of the [Wave Vertical Ergonomic Mouse](#) encourages healthy neutral wrist and arm positions for effortless movement with less wrist pressure and twisting. The DPI resolution can be adjusted from 800,1200, or 1600 for optimal tracking technology. The Wave mouse provides an excellent range of tracking sensitivity, on a broader range of surfaces than standard optical mice.

This product is also available in right or left-hand models, so it's perfect for anyone in the office. Ergonomically-Designed thumb rest and shape fit the contours of your palm for maximum comfort, which reduces pain and results in a happier work life. Additional mouse buttons can be used as next/previous buttons when browsing the web, action buttons for gamers, and can be utilized by other applications.

Features

- Ergonomic grip for comfortable movement
- Available in left and right-hand models
- Reduces pain with neutral wrist position
- Wirelessly connects via USB

Whisper Click Mouse

The [Whisper Click Mouse](#) boasts comfortable contours that support your hand and fingers. The ergonomically-designed thumb rest and grips fit the shape of your palm for maximum comfort. Prevent future wrist pain while on the job. DPI of 800, 1200, or 1600 resolution can be adjusted for optical tracking technology to provide you with an excellent range of tracking sensitivity. Work on a broader range of surfaces than standard optical mice. Additional mouse buttons can be used as next and previous features in your Internet browser, and action buttons for gamers are also available for set up.

Features

- Comfortable contours support hand and fingers
- Prevent pain with ergonomically-designed thumb rest
- Whisper soft mouse clicks
- Wirelessly connects via USB

Swell Vertical Ergonomic Mouse

The [Swell Vertical Ergonomic Mouse](#) has a comfortable and easy-to-use design which encourages healthy neutral wrist and arm positions for smoother movement and less strain and twisting. It's also ergonomically designed for smaller hands. The rechargeable battery is eco-friendly by eliminating the need for disposable batteries. The battery lasts for weeks on a single charge, but we recommend charging every 2-4 weeks for optimal use. Don't worry about draining the energy of your mouse when you're away from your desk. It automatically enters power saving mode after 15 minutes of idleness.

Additional buttons can also be used to return to previous pages when browsing the Internet. The default DPI is set to 1600, but you have the option to adjust using computer settings.

Vert Ergonomic Office Chair

With a back designed to mimic the spine, the [Vert Ergonomic Office Chair](#) provides ideal seated support via a collection of ergonomic adjustment features. The Vert's rib design works together with an elastomer spine system to increase flexibility along the entire back while soft-touch armrests can be raised and lowered to suit different users and tasks. The plush seat offers height and depth adjustment while the chair's mesh back blends support and breathability for the user. Available in black or white.

Features

- Back mimics human vertebrae to deliver more support
- Rib design and elastomer spine system for flexibility
- Mesh back improves airflow
- Plush seat buttresses lower half
- Armrest height adjustment
- Seat height and depth adjustment
- Lumbar support adjustment
- Syncro-tilt mechanism
- Back tilt lock with weight-sensing mechanism

Pursuit Ergonomic Chair

The [Pursuit Ergonomic Chair](#) combines ideal support and customizable adjustments to suit one user or many for use at shared workstations. Intuitive support via a synchro-tilt mechanism lets the seat and back angle adjust automatically and provides continuous support as users change from upright to reclining postures. The chair has a height-adjustable back, arms, and headrest. A soft cushion fabric seat and mesh back blend comfort and breathability, while a waterfall seat edge decreases pressure behind legs for better circulation.

J3 Ergonomic Chair

The **J3 Ergonomic Chair** features an advanced design that suits most body types. Users have control over the chair's height, seat depth, armrests, and headrest position. A wider leather seat with a waterfall edge increases comfort while a mesh back improves airflow to the back. The responsive and intuitive lumbar support provides comfort and support without the need for manual readjustments.

Features

- Height adjustment
- Seat depth adjustment
- Armrest height adjustment
- Back height adjustment

Facet Ergonomic Chair

The [Facet Ergonomic Chair](#) is a budget-friendly option with advanced adjustable features to ensure a perfect fit. The breathable mesh fabric allows for airflow, so you stay cool while seated, and the soft seat cushion delivers extra support. Synchro-tilt is an adjustable mechanism for back and seat resistance. This ensures that the backrest reclines when you lean backward and allows your feet to stay on the floor. Optional height and tilt-adjustable headrest support both your back and neck so you can focus on more critical tasks.

Features

- Height adjustment
- Seat depth adjustment
- Armrest height adjustment
- Back height adjustment
- Syncro-tilt mechanism
- Back tilt lock with weight-sensing adjustment
- Headrest height and angle adjustment

Starling Stool

The **Starling Stool** tilts to relieve pressure off your feet, aligning your spine into a neutral position and combating fatigue that comes from sitting or standing all day. With 360 degrees of rotation and 10 degrees of tilt, this ergonomic stool lets you rotate and move from side to side for more stimulating work. Its waterfall seat edge and tilting motion allow the Starling Stool to relieve pressure on the rear of your legs and engage your core muscles for a healthier workday.

Features

- Waterfall edge on seat reduces pressure points
- Sturdy and lightweight frame for easy carrying
- Sit, stand, and perch to promote an active workday

Motion Stool

Plush and supportive, the **Motion Stool** supports users in postures that offer more movement than traditional office chairs. The stool provides 10" of height adjustment and a convex base allows the stool to pivot a complete 360°. A treaded grip with a semi-soft elastomer on the base grips the floor for stability while a weighted base keeps the stool stable and upright throughout a full range of motion.

Features

- Easy-to-reach buttons deliver 10" of height adjustment
- Stable Base throughout full range of motion
- Circular seat cushion with waterfall edges
- 360° rotation
- Semi-soft elastomer on base grips floors

2-Drawer File Cabinet with Seat

The [2-Drawer File Cabinet with Seat](#) combines storage and seating to provide users a multi-functional mobile storage solution. A soft cushion on top makes it suitable for short-term seating while two locking drawers secure personal items, from paper to purses. The large bottom drawer holds letter and legal sized paper, and the soft-close top drawer comes with a removable accessory tray that helps organize smaller items.

Features

- Drawers lock for security
- Bottom drawer adapts to hold paper and folders
- Removable tray in top drawer organizes smaller items
- Adhesive padded seat cushion for comfortable sitting
- Top drawer comes with a soft-close function

Specifications

Narrow 2-Drawer File Cabinet with Seat

The [Narrow 2-Drawer File Cabinet with Seat](#) adds more storage to compact spaces and lets users clean up clutter by organizing personal things within its two roomy locking drawers. This multi-functional seating/storage solution fits neatly underneath UPLIFT Desks to provide ample storage at sit-stand workstations. A smaller top drawer features a soft-close function and comes with removable accessory tray, and its spacious bottom drawer can be adapted with a hanging bar to hold letter and legal sized paper. The cabinet also comes with a removable anti-fatigue cushion with reusable adhesive for short-term seating.

Features

- Drawers lock for security
- Narrow design fits in compact spaces
- Bottom drawer adapts to hold paper and folders
- Removable tray in top drawer organizes smaller items
- Adhesive padded seat cushion for comfortable sitting
- Top drawer comes with a soft-close function

3-Drawer File Cabinet

The mobile, secure **3-Drawer File Cabinet** blends the best in storage and security to offer users a portable three drawer cabinet that locks. The bottom drawer holds letter and legal sized paper, while the top drawers are roomy enough for office odds and ends, from notepads to snacks. A soft-close function on the top drawer eliminates drawer slams, and the cabinet comes with a removable accessory tray that fits in the two top drawers. All drawers lock via a single lock and key.

Features

- Drawers lock for security
- Top two drawers hold a removable pencil tray
- Bottom drawer adapts to hold paper and folders
- Top drawer comes with a soft-close function

3-Drawer Square File Cabinet

The top two drawers are ideal for personal items, like a phone, keys, or wallet. Use the removable pencil tray to keep necessities like pens, paperclips, and batteries nearby. The tray can be placed in one of 11 positions in either of the top two drawers.

If you've got files to organize, use the large bottom drawer to hang legal or letter size folders. The [3-Drawer Square File Cabinet](#) includes a hanging folder bar that is movable to fit any folder size.

Features

- Ample space - three drawers
- Sized just right - Designed to fit underneath or beside desks
- Secure storage - all three drawers lock via lock located in top drawer
- Soft close drawers

File Cabinet Leveling Glides

Set of 4 [File Cabinet Leveling Glides](#) are a direct replacement for the casters that ship with all UPLIFT Desk file cabinets

Rubber ring embedded on the bottom of each glide grips the floor to hold the file cabinet more securely in place, on slippery floors, than when casters are used

Lowers overall height of file cabinet by 1.8" versus casters

Features

- Simple installation
- Provides 1/4" of leveling on each glide
- Steel with durable, black electroplated finish and rubber ring on floor

Locking Under Desk Drawer with Shelf

The [Locking Under Desk Drawer with Shelf](#) blends security and storage for desks that are lacking adequate drawer space. Featuring a 11.75" by 11.75" drawer that locks and a 13" by 13" shelf on top for easy storage of flat items like laptops, the drawer is easy to install underneath desks for a quick way to increase storage space.

Features

- Sliding drawer locks for security
- Shelf above drawer holds items like tablets and laptops
- Guard stop near back of shelf ensures items don't fall

Specifications

Half Circle Desk Drawer

Minimalist and effective, the [Half Circle Desk Drawer](#) is an easy way to add storage space to desks. The swiveling drawer comes with two separated compartments and holds items ranging from pens to glasses. A central mounting design allows for 360° of rotation, so users can swivel the drawer open and closed smoothly and seamlessly.

Features

- Integral storage compartments offer space for pens, pencils, sticky notes, and other small items
- Low profile minimizes under-desk footprint and allows drawer to be hidden when not in use
- 360° of rotation allows for tray to be opened or closed by pushing on either side

Bamboo Desk Drawer

The [Bamboo Desk Drawer](#), made of beautiful Moso bamboo, is sustainably sourced and designed with a natural finish. Store office supplies like laptops, notebooks, and pens for a tidy desk surface. The drawer's taller profile helps prevent it from hanging down or falling out when it's opened. This simple design gives extra support and keeps the drawer and its contents secure. Use the optional stop bar to prevent the drawer from pulling out.

The easy installation of the Bamboo Desk Drawer can be completed in minutes. Pair your bamboo drawer with a bamboo desktop, bamboo desk organizer set, and bamboo keyboard tray for a coordinated look – or contrast it with other desktop styles and materials.

Features

- Sustainably sourced
- Installs in minutes
- Beautiful, natural finish
- Great for laptops, notebooks, and pens

SPACE DIVISION

Power and Data Rail

The [Power and Data Rail](#) is comprised of customizable features you won't find on any other power rail solution, our patent-pending power and data rail is the most capable and flexible solution for open office environments.

Power all your devices in areas where access to outlets is limited, service up to 16 desks per power infeed, eliminate unsightly cable clutter on floors, organize electrical drops from ceilings (if you require them), and maintain consistent spacing between desks to keep your workspace attractive and organized.

As your office layout changes (and it always does), the Power and Data Rail can grow and transition right along with it. Its telescoping post height and rail width enable it to fit workspaces of various shapes and sizes.

Specifications [Contact us for additional information](#)

- 2 power covers with holes for Byrne receptacles
- 2 power covers with holes for Dekko receptacles
- 2 power covers with no holes for receptacles
- 2 data covers with no holes

3D Wave Acoustic Wall Panel

3D Wave Acoustic Wall Panels allow individuals and businesses to build a sound-sheltered space that improves concentration at work. The thin, yet effective, panels can be installed on almost any flat wall and features a Noise Reduction Coefficient of .8, so 80% of noise that comes into contact with panels is absorbed. Made out of Polyester fiberboard, a single panel or multiple panels can be installed to dampen office noise. Lagoon Blue, Dark Gray, and Red Rock color options available.

Features

- Reduces ambient noise
- Adds texture to blank walls
- Wide range of patterns possible

Specifications

3D Cubes Acoustic Wall Panel

The 3D cube design on the [3D Cubes Acoustic Wall Panels](#) creates more surface area for sound to be absorbed and enhances the look of plain walls. Sound-dampening panels lower ambient noise levels in office spaces and provide decoration for walls. Each 2' x 2' panel has a 0.80 noise reduction coefficient (NRC) —which means that 80% of the sound energy that hits the panel will be absorbed.

Our panels are made from 50% recycled plastic bottles, reducing their environmental impact, and reusing resources wisely.

Features

- Add texture to walls
- Add color to your workspace decor
- Absorb up to 80% of ambient sound

Specifications

[See complete spec sheet here](#)

- Dimensions: 23.6" W x 23.6 D x ~2.9" H
- Material Thickness: 4.5 mm

3D Pebbles Acoustic Wall Panel

Lower the overall noise level in your office while adding aesthetic appeal to your walls with the [3D Pebbles Acoustic Wall Panel](#). Improve sound dampening capabilities by increasing the acoustic square footage of your wall while bringing flat surfaces to life. Each panel is effective at eliminating sound reflection, boasting an 80% absorption rate (NRC 0.80). Add as many panels as will fit on your wall to create a modular noise solution for small and large wall surfaces.

Features

- Add aesthetic appeal to walls
- Add texture to your workspace decor
- Absorb up to 80% of ambient sound

Specifications

3D Cellular Acoustic Wall Panel

Absorb office noise and make it easier for employees to concentrate, while adding unique design textures to your walls with the [3D Cellular Acoustic Wall Panel](#). The textured surface absorbs more sound than most flat panels due to their increased surface area. Convert entire walls into decorative, sound-dampening surfaces. Engineered to an NRC (noise reduction coefficient) rating of 0.8, these panels absorb 80% of sound that reaches them.

Our panels are made from 50% recycled post-consumer material such as plastic bottles, giving you an eco-friendly acoustic solution.

Features

- Attach panels to the wall for improved room acoustics
- Add color to your workspace decor
- Absorb up to 80% of ambient sound

Circular Acoustic Wall Panel

Lower the noise levels in your workspace by adding functional design elements to your walls. The [Circular Acoustic Wall Panels](#) are 1"-thick, sturdy, yet lightweight, and made of eco-conscious polyester fiberboard, which comes from 50% recycled material. Our panels are made to reduce noise effectively by absorbing 40% of all sound they come into contact with when flush-mounted against the wall. Leave an air gap by mounting panels to the wall with a spacer to increase this absorption up to 86%.

The panels come in 2' and 4' diameters so that you can put together the best arrangement for your space. Mounting the panels is quick and easy, and there are multiple options such as nails or Loctite® Construction Adhesive. For an additional level of functionality, panels can also be used as bulletin boards. Pin notes and reminders to the panels while dampening office noise.

3D Fan Acoustic Wall Panel

Add a dual-purpose design element to your office with the [3D Fan Acoustic Wall Panel](#). The circular panel’s fan shape provides a colorful, 3D acoustic wall treatment, decreasing noise and echos while increasing aesthetic wall interest. The fan ridges gather and deflect noise and vibrations by providing more sound-absorbing surface area compared to most flat panels.

These panels are rated to absorb 80% of all the sound that reaches them (NRC 0.8). Mitigating workday phone call volume, conversations, and keyboard clacking result in a quieter work environment ideal for concentration. If you’re looking for an eco-friendly option, these are perfect for you. The 3D Fan Acoustic Wall Panels are made from polyester fiberboard, which includes 50% recycled plastic bottles.

Circular Acoustic Ceiling Cloud

The [Circular Acoustic Ceiling Cloud](#) provides sound absorption and eliminates echo in open-space environments. Add a unique design element to your space with circular sound panels that hang from the ceiling. They absorb sound on all sides, for increased effectiveness. Sound panels have an NRC of 0.86 or higher, which means they absorb 86% of the sound that comes into contact with them. Installation is quick and easy.

Panels hang from steel aircraft cables attached to adjustable clips so that you can alter their height. Tailor your panel configuration for your design and sound-reduction needs.

Features

- Hang from the ceiling for a unique design
- Add color to your workspace decor
- Absorb up to 86% of ambient sound
