

## **DRINK CULTURE 2023**

November 15, 2023

The awards ceremony for the drink books published in 2023 will take place in the first semester of 2024, in the Spring of the Northern hemisphere. It will be in a wine producing country with beautiful vineyards and a great sense of hospitality. We will confirm the location and the dates as soon as possible.

We have more drink books entries than ever, from 65 countries. They come from all continents, from 8 countries in Africa, 15 in America, 10 from Asia, 29 from Europe and 3 from Oceania/Pacific. The quality is outstanding. There is great content, deep research, beautiful production. Drink books seem to be published to take their place in libraries and be used for years.

There are thousands of publications free to download on internet. Some have high quality. The fact is the number of downloads for even the very best is surprisingly low. We have selected the best, and they are included in the Gourmand Awards, representing a total of 15% of the entries. The number of pages is indicated in order to help identify the document.

This list includes the selected finalists as of November 15, 2023.
