

# Intel<sup>®</sup> AI for Future Workforce

## Building An AIOT Ready Workforce

Artificial intelligence holds the potential to make a profound impact on the next generation of workforce. World Economic Forum in its Future of Jobs Report 2020 states that 97 million new jobs will be created across 26 countries by 2025.”\*

\* IBM: AI will necessitate employees to reskill in the next 3 years, ETHRWorldME ([indiatimes.com](http://indiatimes.com))

# Transforming Tomorrow's Workforce through **AI Excellence**

With the technology and business landscape continuing to change at an unprecedented pace, equipping students with industry-ready skills is now of paramount importance.

Dell Technologies, in collaboration with Intel, is bringing forth a comprehensive AI empowerment program - Intel® AI for Future Workforce - to empower the workforce of tomorrow with necessary AI skills for employability in the digital economy.

## AI Domains Covered in the Program

Statistical Data

Natural Language  
Processing

Computer Vision

Intel's AI for Future Workforce program is very relevant in today's time. Training quality was excellent. I learnt various new AI, Data analysis and visualization tools. Excited to take it ahead to students."

**Pritam Ghosh, Lecturer,**  
ICV Polytechnic Jhargram, West Bengal

# Customizing Programs to Individual Requirements

The program offers two choice for institutes to integrated AI skills in their existing curricula.

**Intel® AI for Future Workforce Elective Program**

**Intel® AI for Future Workforce Core Program**

AI for Future Workforce Program is truly insightful and engaging! I feel more confident in my understanding of AI concepts now. Thank you for such a valuable experience.

**Teena Sajwan,**  
Student, MCA, 2nd year, Punjab University, Chandigarh

## Building Future Employability for AI-driven Jobs

Industry-focused trade applications featuring machine learning algorithms

Guided and capstone projects featuring industry use cases in SD, NLP and CV

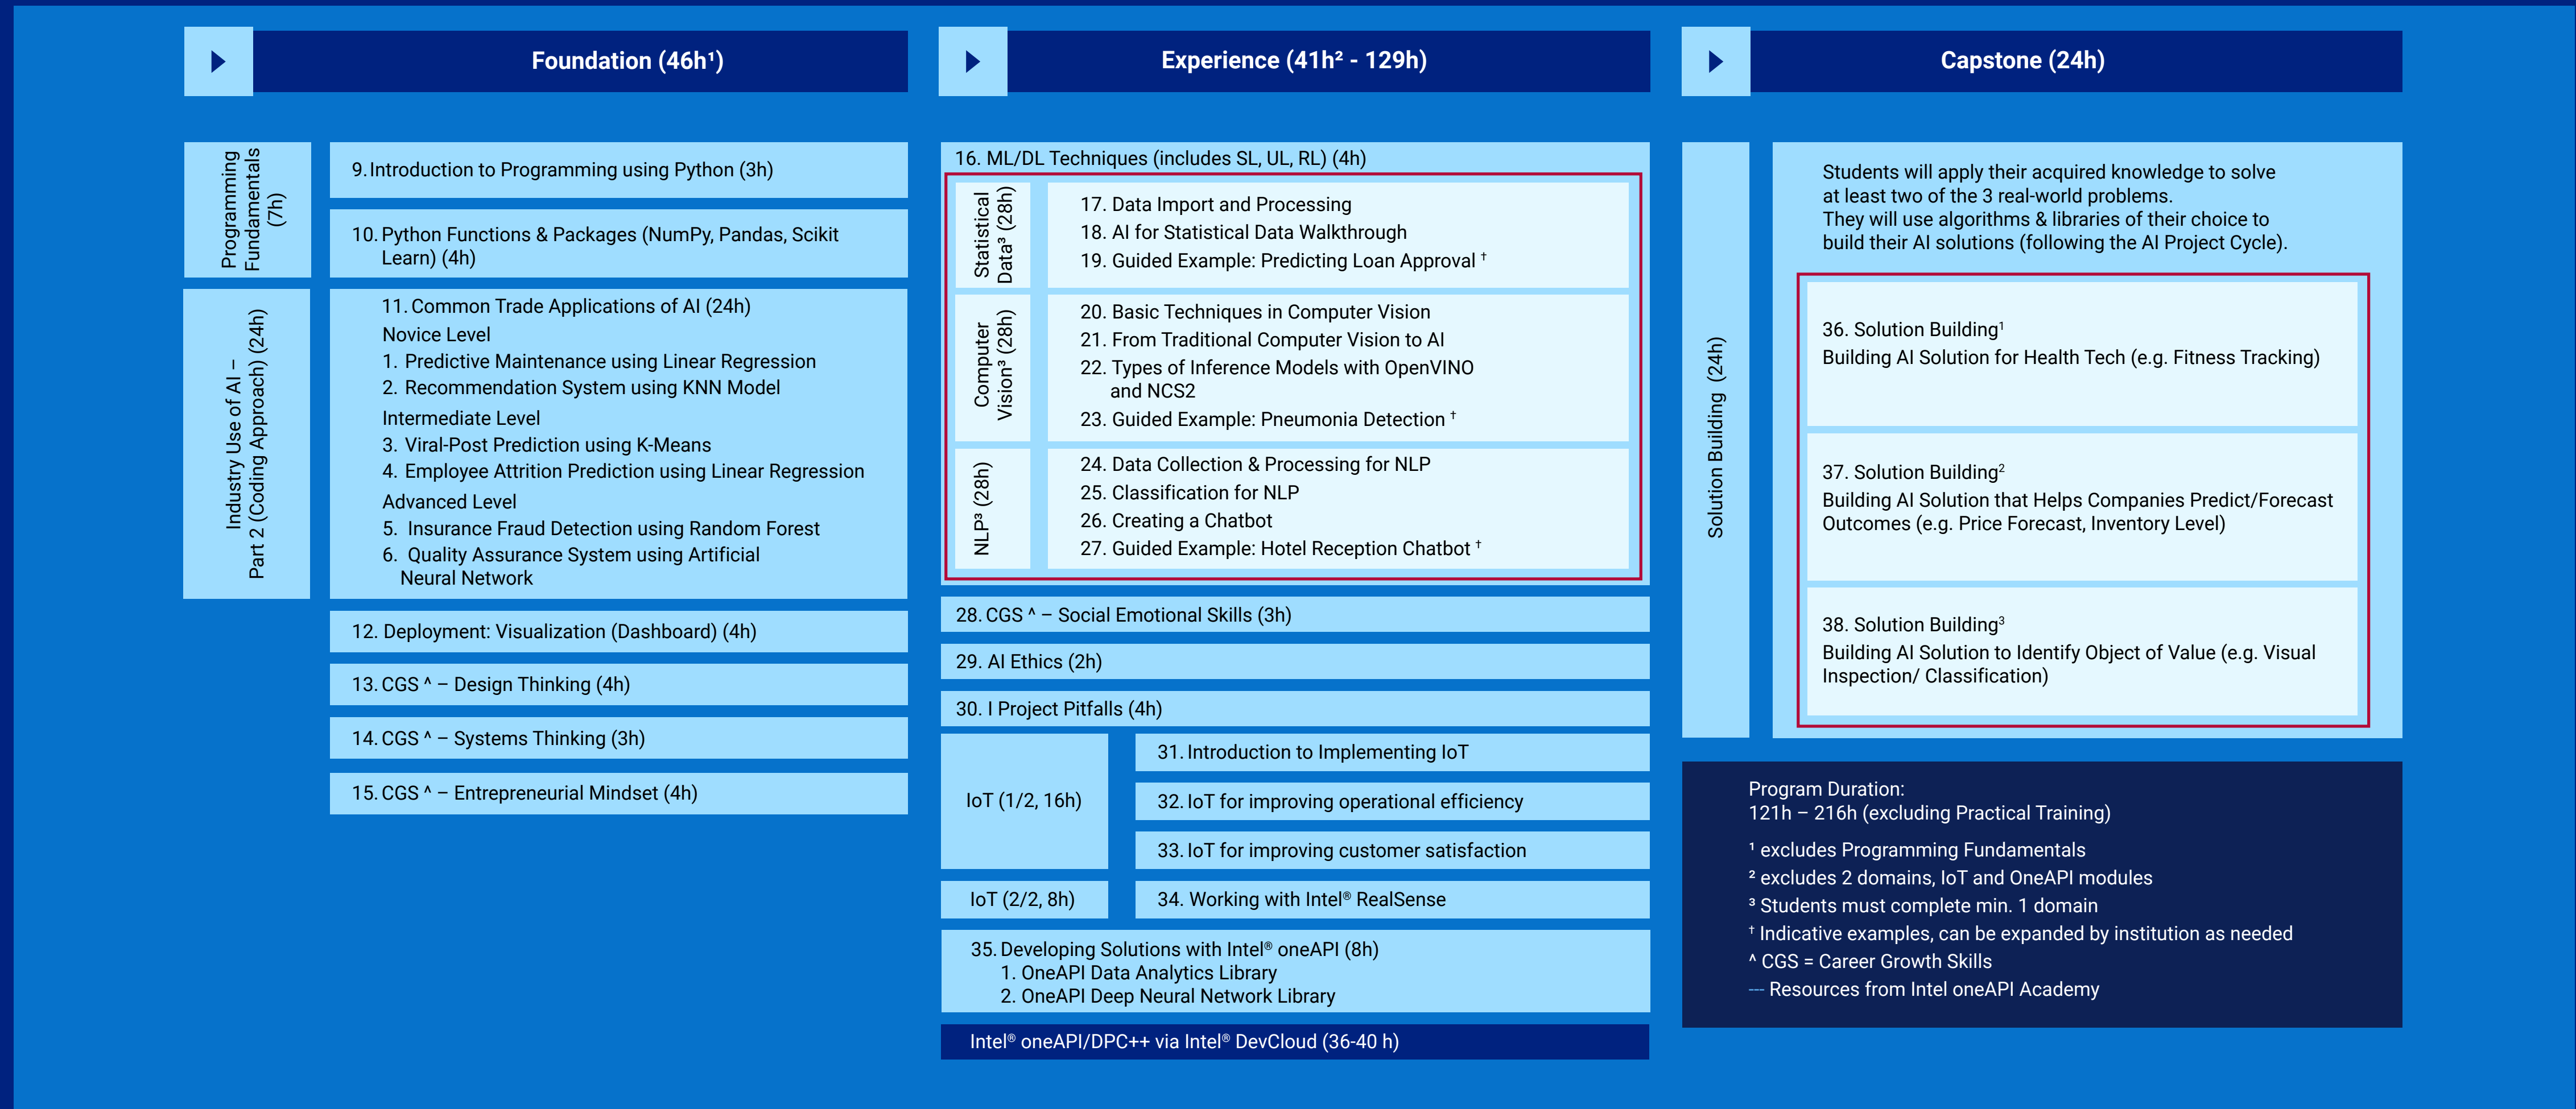

Industry-tailored, simulated trainings enabling student to solve real-life industry challenges

# Intel® AI for Future Workforce Elective program

## Accelerate the Path to Building AI-based Solutions

The elective program provides 108 hours of content with a focus on industry-tailored capstone projects. Integrated over two semesters, this course enables students to demonstrate their technical AI and non-technical competencies in building AI-based solutions.

# Intel® AI for Future Workforce Core program

## Accelerate the Path to In-demand AI Skills

This 216-hour AI curriculum equips participants with essential skills for industry-oriented AI solutions. The customizable course will be implemented as a standalone program spanning over 4 semesters, supplemented by additional modules provided by participating educational institutions. The participants will also get a chance to work on industry-level problems through simulated apprenticeship.

Awareness (6h)	Foundation (50h <sup>1</sup> - 57h)		Experience (41h <sup>2</sup> - 129h)		Capstone (24h)	Practical Training (4 months+)				
1. Emerging Technologies – AI (1h)	Industry Use of AI - Part 1 (No-Code) (Using Analytics Software, No Programming Required) (11h)	7. Introduction to AI Project Cycle (1.5h)	16. ML/DL Techniques (includes SL, UL, RL) (4h)		Solution Building (24h)	39 Practical Training (4 months)				
2. AI Made Easy – Demystification (1h)		8. Common Trade Applications of AI (9.5h) • Predictive Maintenance • Recommendation System • Viral Post Prediction • Employee Attrition Prediction • Insurance Fraud Detection • Quality Assurance System	Statistical Data <sup>3</sup> (28h) 17. Data Import and Processing 18. AI for Statistical Data Walkthrough 19. Guided Example: Predicting Loan Approval †	Computer Vision <sup>3</sup> (28h) 20. Basic Techniques in Computer Vision 21. From Traditional Computer Vision to AI 22. Types of Inference Models with OpenVINO and NCS2 23. Guided Example: Pneumonia Detection †			Students will apply their acquired knowledge to solve at least two of the 3 real-world problems. They will use algorithms & libraries of their choice to build their AI solutions (following the AI Project Cycle).	Industry Training Attachment to trade - relevant employers		
3. What is Inside AI (1h)		9. Introduction to Programming using Python (3h)	NLP <sup>3</sup> (28h) 24. Data Collection & Processing for NLP 25. Classification for NLP 26. Creating a Chatbot 27. Guided Example: Hotel Reception Chatbot †						36. Solution Building <sup>1</sup> Building AI Solution for Health Tech (e.g. Fitness Tracking)	Simulated Training Trade-relevant sample project for Students not working with employers
4. Impact of AI on Your Future (Surviving AI) (1h)	Programming Fundamentals (7h) 10. Python Functions & Packages (NumPy, Pandas, Scikit Learn) (4h)	28. CGS ^ – Social Emotional Skills (3h)	37. Solution Building <sup>2</sup> Building AI Solution that Helps Companies Predict/Forecast Outcomes (e.g. Price Forecast, Inventory Level)	AI for Education Sample Project (to be provided by the educational institute)						
5. Inclusive AI (1h)		29. AI Ethics (2h)								
6. Control Your AI Destiny (1h)	Industry Use of AI – Part 2 (Coding Approach) (24h) 11. Common Trade Applications of AI (24h) Novice Level 1. Predictive Maintenance using Linear Regression 2. Recommendation System using KNN Model Intermediate Level 3. Viral-Post Prediction using K-Means 4. Employee Attrition Prediction using Linear Regression Advanced Level 5. Insurance Fraud Detection using Random Forest 6. Quality Assurance System using Artificial Neural Network	30. I Project Pitfalls (4h)	IoT (1/2, 16h) 31. Introduction to Implementing IoT 32. IoT for improving operational efficiency 33. IoT for improving customer satisfaction	Program Duration: 121h – 216h (excluding Practical Training)  <sup>1</sup> excludes Programming Fundamentals <sup>2</sup> excludes 2 domains, IoT and OneAPI modules <sup>3</sup> Students must complete min. 1 domain † Indicative examples, can be expanded by institution as needed ^ CGS = Career Growth Skills — Resources from Intel oneAPI Academy						
12. Deployment: Visualization (Dashboard) (4h)		34. Working with Intel® RealSense								
13. CGS ^ – Design Thinking (4h)		IoT (2/2, 8h)								
14. CGS ^ – Systems Thinking (3h)			35. Developing Solutions with Intel® oneAPI (8h) 1. OneAPI Data Analytics Library 2. OneAPI Deep Neural Network Library							
15. CGS ^ – Entrepreneurial Mindset (4h)		Intel® oneAPI/DPC++ via Intel® DevCloud (36-40 h)								

# Perfection in Practice

## The Implementation Methodology

The program is executed using the train-the-trainer approach, where AI capabilities will be built among faculty members who then will train and educate the students.

### Establishing the AI Lab

Infrastructure to help participants create industry-ready solutions.

### Faculty Enablement

30-hour training for nominated faculty members by Intel trainers. On successful completion will be certified by Dell Technologies and Intel.

### Curriculum Mapping

Mapping and integrating the program curriculum into current institution curricula, facilitated by Intel trainers.

### Student Training

Trained professors will educate the students based on the predetermined curriculum. On successful completion, which includes submitting capstone project for elective program and simulated practical training for core program, students would be certified by Intel and Dell Technologies.

# Program Outcome

## The Path to Achievement

The program paves the way for the participants to create industry-oriented guided and capstone projects using software like **Python, OpenVINO™ Toolkit, Intel® OneAPI, Intel® Endpoint Management Assistant (Intel® EMA), and more.**

Participants will get a chance to work on the following industry-oriented capstone projects based on the program and elective of choice.

AI Domain	Capstone Projects
SD	Building the AI model to predict crypto currency.
Computer Vision	Analyzing the customer demographic for e-Auto shop by creating a CV model
NLP	Designing an NLP model comprising chatbot, sentiment analysis for an e-commerce website.

The educational institutions opting for Intel® AI for Future Workforce Core program will also have the chance to participate in practical training in a **simulated industry ecosystem.**

# Certification on Successful Completion

Students will be awarded certificates on successful completion of required projects and training and showcasing their technical skills and problem-solving ability in a professional environment.

## Intel® AI for Future Workforce Core program

Certification on completing Capstone projects & practical training for the core program.

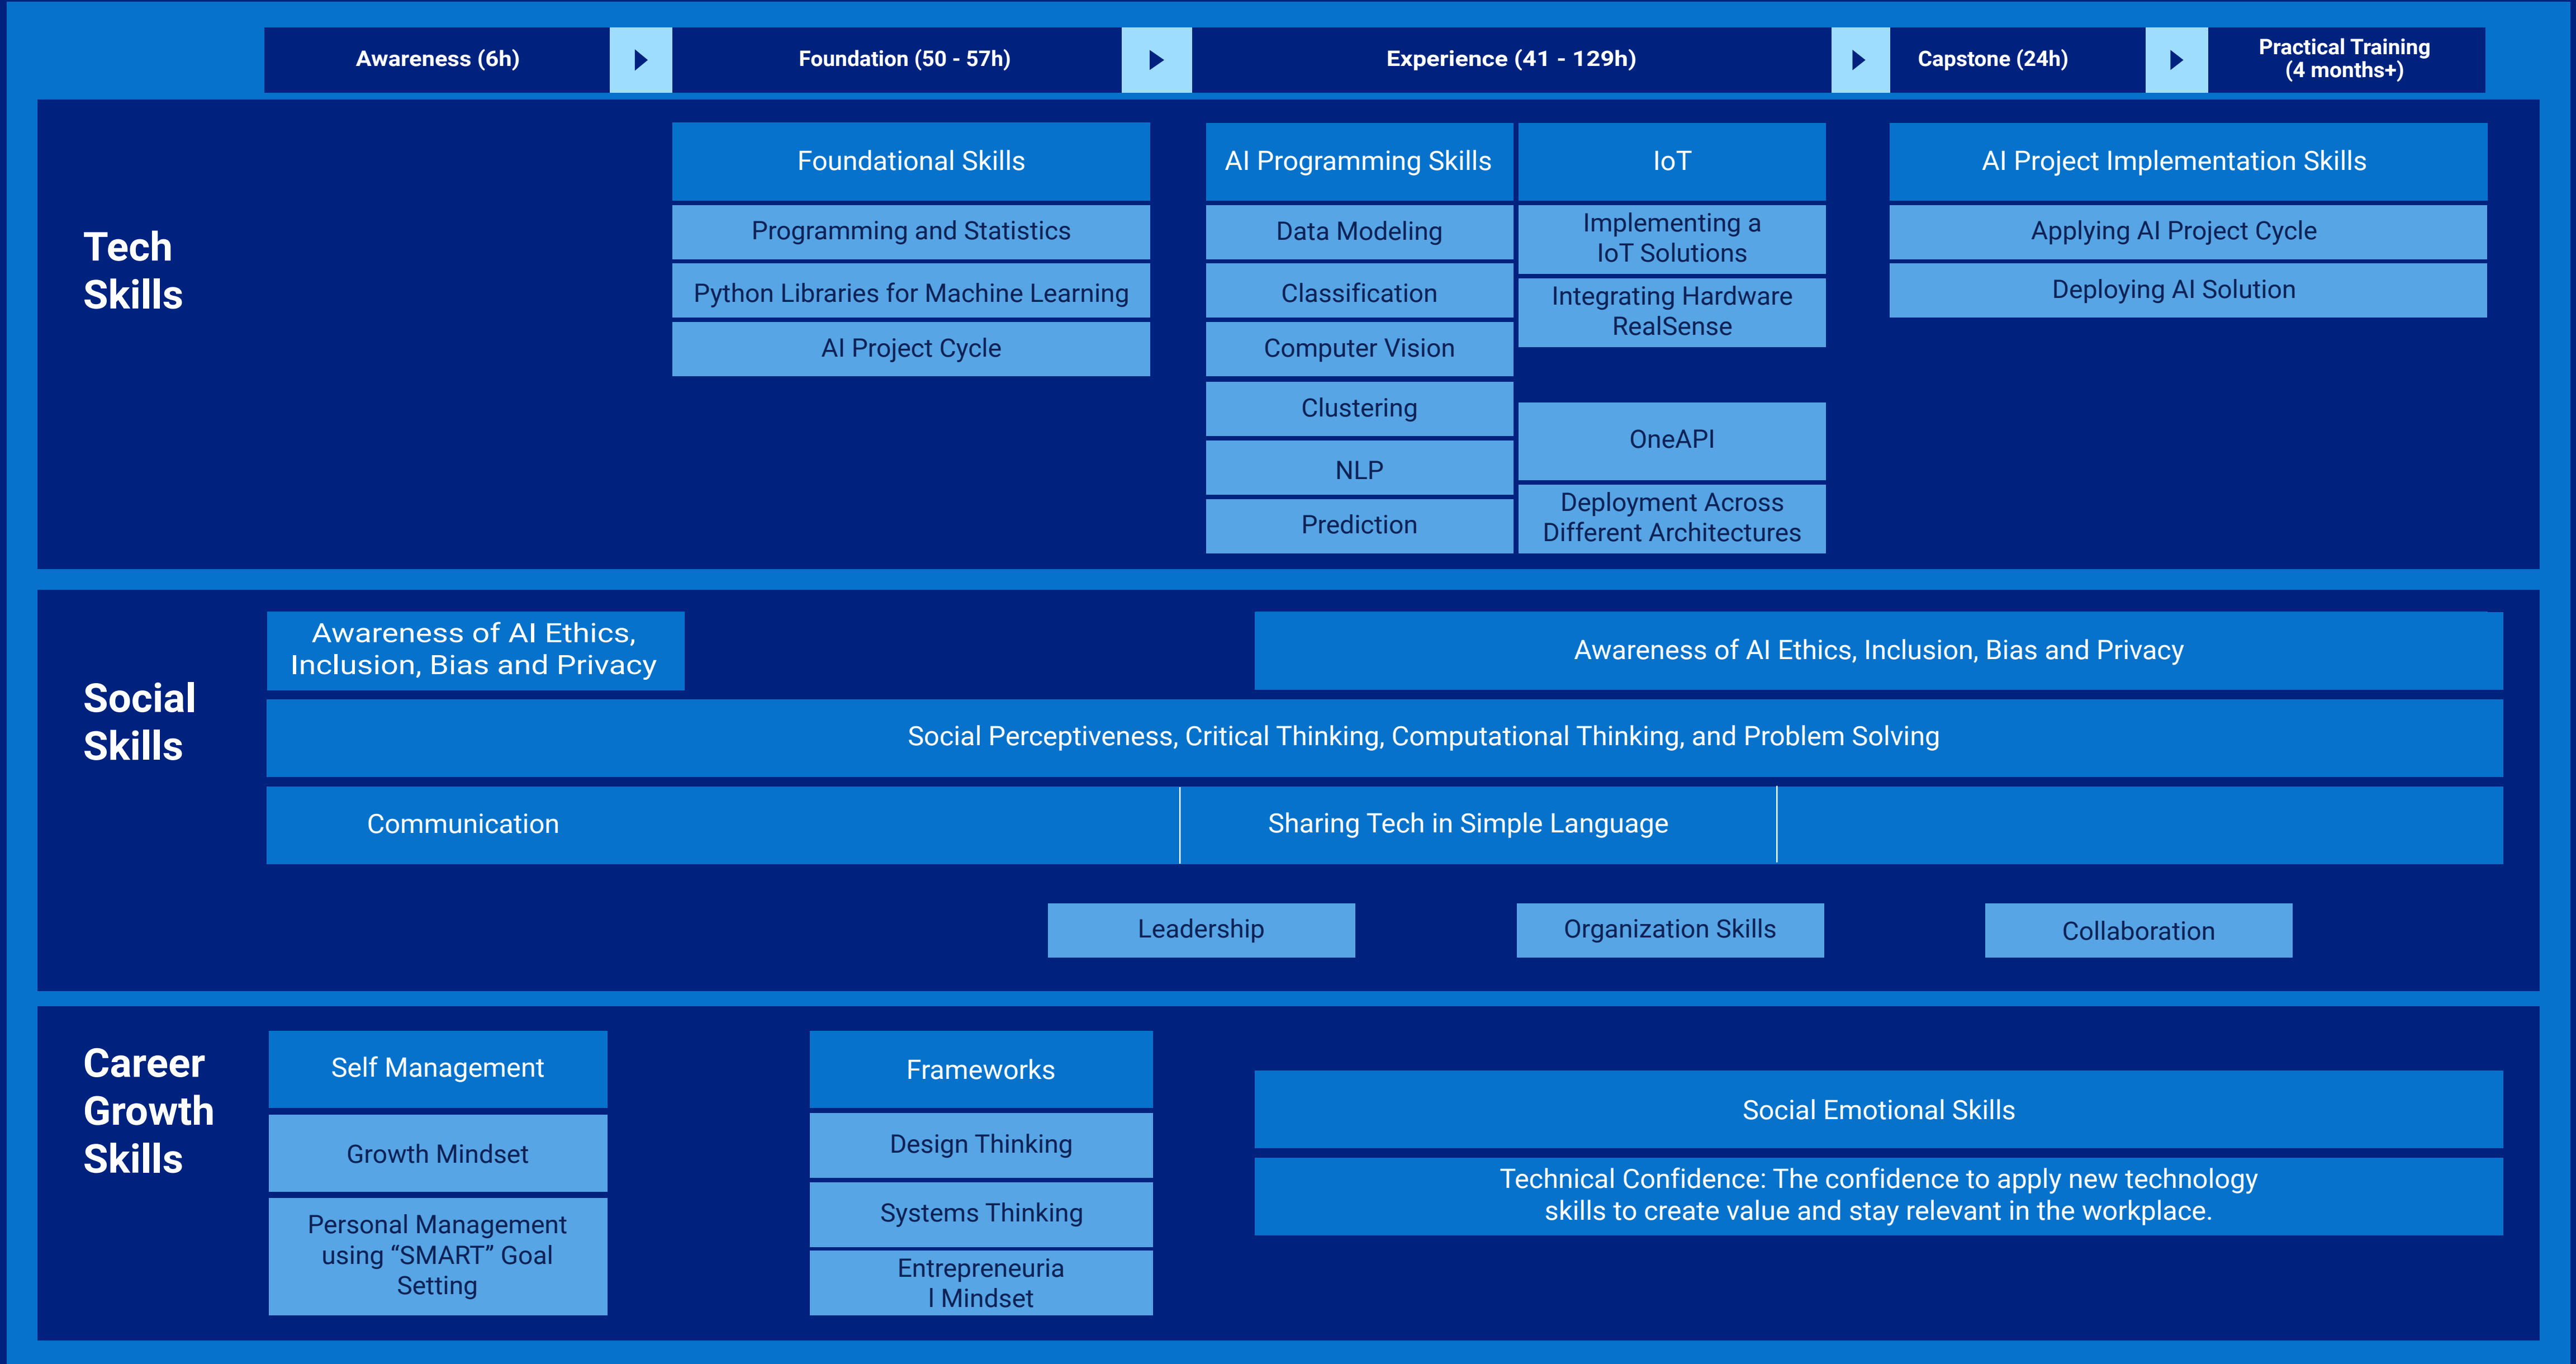

## Intel® AI for Future Workforce Elective

Certification on completing Capstone projects for the elective program.

# Measuring AI Excellence by Delivering Outcomes

# Empowering AI Readiness with Right Tools

The course is filled with a plethora of projects and simulated practical trainings that focus on the development of solutions for real industry problems. Equip your students to achieve optimal outcomes with the required AI-optimized software. **Dell Precision Workstations** have been optimized to ensure that your AI hardware and software stack will run fast and without headaches.

Professional-grade  
hardware

Scalable & customizable  
hardware configuration

Compatible and optimized  
performance

Powerful computation for  
AI tasks

# Empowering Aspirations with the Right Toolset

## Entry-level Products

With entry-level products, students can embark on their AI journey and run statistical data analytic projects.

**OptiPlex 7010 Tower**  
Designed to Deliver greater productivity.

12th Gen Intel Core i5-12500 Processor, 8GB, 512GB, Intel Integrated Graphics, AX211+ BT 5.2 Wireless, Win 11 Pro, 3Yr Onsite Warranty.

Recommended

Recommended

**Monitor E2222H**

Optional

**Headset WH1022 – SnP**

Optional

**Webcam - WB3023**

# Taking Expertise to a Notch Higher **Intermediate- Level Products**

With these products, students can run statistical data analytics and natural language processing projects, along.

Recommended

## **OptiPlex 7010 Plus Tower**

13th Gen Intel Core i5-13500 Processor, 16GB, 512GB, Intel Integrated Graphics, AX211+ BT 5.2 Wireless, Win 11 Pro, 3Yr Onsite Warranty

Recommended

## **Latitude 3340 2 in 1**

13.3 FHD touch Display, 13th Gen Intel Core i5-1335U Processor, 8GB Memory, 256GB Storage, Intel(R) Intel Iris Xe Graphics, AX211+ BT 5.2, Win 11 Pro, 3Yr Onsite Warranty

Recommended

## **Monitor E2222H**

Optional

## **Headset WH1022 – SnP**

Optional

## **Webcam - WB3023**

Optional

## **Pen PN5122W**

# Unleashing Possibilities in the AI Realm

## Advanced-Level Products

With these products, students can run statistical data analytics, natural language processing, and computer vision projects - the fundamental components of the Intel® AI for Future Workforce Core program.

“The Intel AI for Future workforce course opened my eyes to the vast possibilities of AI in various industries. I now feel confident and ready to embrace the AI-driven future.”

**Ayushi,**  
Student, BCA 2nd Year,  
Chandigarh University, Mohali

### Precision 3460 SFF

13th Gen Intel Core i7-13700 Processor, 16GB, 1TB SSD, Nvidia T1000, 8GB Graphics, 8GB Graphics, AX211+ BT 5.2 Wireless, Win 11 Pro, 3Yr Onsite Warranty

Recommended

### Precision 3460 SFF

13th Gen Intel Core i5-13500 Processor, 16GB, 512GB, Nvidia T1000, 4GB Graphics, AX211+ BT 5.2 Wireless, Win 11 Pro, 3Yr Onsite Warranty.

Recommended

Recommended

### Monitor P2222H

Optional

### Headset WH1022 – SnP

Optional

### Webcam - WB3023

Optional

### Pen PN5122W

Optional

### LFD P6524QT

Optional

### OptiPlex 7000 XE

Optional

### Latitude 3340 2 in 1

13.3 FHD touch Display, 13th Gen Intel Core i5-1335U Processor, 16GB Memory, 512GB Storage, Intel(R) Intel Iris Xe Graphics, AX211+ BT 5.2, Win 11 Pro, 3Yr Onsite Warranty

I participated in Intel AI for Future Workforce Program. Very useful sessions covered information about so many AI tools and algorithms. I learnt a lot of new things which is much needed to enhance knowledge, guide our students better and make them ready for future career opportunities. Thanks to Chandigarh University and Intel for the efforts to organize the training program for the faculties.

**Gaganjot Kaur,**  
Assistant Professor,  
Chandigarh University, Mohali, Punjab
