

Cooperation of National Authorities Across Europe

The European national authorities actively work together

The aim of this cooperation is to:

- Enforce rules on the roads
- Help drivers and operators to comply with the rules
- Ensure safe and fair driving operations

When stopped for a roadside check, at least these documents need to be shown:

- The posting declaration (if the driver is posted)
- The tachograph records
- Evidence of the transport operation taking place
- CMR document (if the driver is posted)

The cooperation is done through:

- Inspections at the premises
- Roadside checks

In case of missing documentation, employers may be contacted directly
