#### Import Restrictions Imposed on Categories of Archaeological and Ethnological Material of Turkey

**AGENCY:** U.S. Customs and Border Protection, Department of Homeland Security; Department of the Treasury.

**ACTION:** Final rule.

**SUMMARY:** This final rule amends the U.S. Customs and Border Protection (CBP) regulations to reflect the imposition of import restrictions on certain categories of archaeological and ethnological material from the Republic of Turkey (Turkey). These restrictions are being imposed pursuant to an agreement between the United States and Turkey that has been entered into under the authority of the Convention on Cultural Property Implementation Act. This final rule amends the CBP regulations by adding Turkey to the list of countries which have a bilateral agreement with the United States that imposes cultural property import restrictions. This final rule also contains the Designated List that describes the types of archaeological and ethnological material to which the restrictions apply.

**DATES:** Effective on June 16, 2021.

#### SUPPLEMENTARY INFORMATION:

##### Background

The Convention on Cultural Property Implementation Act, Public Law 97–446, 19 U.S.C. 2601 *et seq.* (hereinafter, “the Cultural Property Implementation Act”) implements the 1970 United Nations Educational, Scientific and Cultural Organization (UNESCO) Convention on the Means of Prohibiting and Preventing the Illicit Import, Export and Transfer of Ownership of Cultural Property (hereinafter, “the Convention” (823 U.N.T.S. 231 (1972))). Pursuant to the Cultural Property Implementation Act, the United States entered into a bilateral agreement with the Republic of Turkey (Turkey) to impose import restrictions on certain archaeological and ethnological material from Turkey. This rule announces that the United States is now imposing import restrictions on certain archaeological and ethnological material from Turkey.

##### Determinations

Under 19 U.S.C. 2602(a)(1), the United States must make certain determinations before entering into an agreement to impose import restrictions under 19 U.S.C. 2602(a)(2). On March 27, 2020, the Assistant Secretary for Educational and Cultural Affairs, United States Department of State, after consultation with and recommendation by the Cultural Property Advisory Committee, made the determinations required under the statute with respect to certain archaeological and ethnological material originating in Turkey that is described in the Designated List set forth below in this document.

These determinations include the following: (1) That the cultural patrimony of Turkey is in jeopardy from the pillage of archaeological material representing Turkey’s cultural heritage dating from approximately 1.2 million years ago to A.D. 1770, and ethnological material dating from approximately the 1st century A.D. to A.D. 1923; (2) that the Turkish government has taken measures consistent with the Convention to protect its cultural patrimony (19 U.S.C. 2602(a)(1)(B)); (3) that import restrictions imposed by the United States would be of substantial benefit in deterring a serious situation of pillage and remedies less drastic are not available (19 U.S.C. 2602(a)(1)(C)); and

(4) that the application of import restrictions as set forth in this final rule is consistent with the general interests of the international community in the interchange of cultural property among nations for scientific, cultural, and educational purposes (19 U.S.C. 2602(a)(1)(D)). The Assistant Secretary also found that the material described in the determinations meets the statutory definition of “archaeological or ethnological material of the State Party” (19 U.S.C. 2601(2)).

##### The Agreement

On January 19, 2021, the United States and Turkey signed a bilateral agreement, “Memorandum of Understanding between the Government of the United States of America and the Government of the Republic of Turkey Concerning the Imposition of Import Restrictions on Categories of Archaeological and Ethnological Material of Turkey” (“the Agreement”), pursuant to the provisions of 19 U.S.C. 2602(a)(2). The Agreement entered into force on March 24, 2021, upon the exchange of diplomatic notes, and enables the promulgation of import restrictions on categories of archaeological material, ranging in date from approximately 1.2 million years ago to A.D. 1770, and ethnological material, ranging in date from the 1st century A.D. to A.D. 1923, representing Turkey’s cultural heritage. A list of the categories of archaeological and ethnological material subject to the import restrictions is set forth later in this document.

##### Restriction and Amendment to the Regulations

In accordance with the Agreement, importation of material designated below is subject to the restrictions of 19 U.S.C. 2606 and § 12.104g(a) of title 19 of the Code of Federal Regulations (19 CFR 12.104g(a)) and will be restricted from entry into the United States unless the conditions set forth in 19 U.S.C. 2606 and § 12.104c of the CBP Regulations (19 CFR 12.104c) are met. CBP is amending § 12.104g(a) of the CBP Regulations (19 CFR 12.104g(a)) to indicate that these import restrictions have been imposed.

Import restrictions listed as 19 CFR 12.104g(a) are effective for no more than five years beginning on the date on which the Agreement enters into force with respect to the United States. This period may be extended for additional periods of not more than five years if it is determined that the factors which justified the Agreement still pertain and no cause for suspension of the Agreement exists. The import

restrictions will expire on March 24, 2026, unless extended.

### Designated List of Archaeological and Ethnological Material of Turkey

The Agreement between the United States and Turkey includes, but is not limited to, the categories of objects described in the Designated List set forth below. Importation of material on this list is restricted unless the material is accompanied by documentation certifying that the material left Turkey legally and not in violation of the export laws of Turkey.

The Designated List includes archaeological material from Turkey ranging in date from approximately 1.2 million years ago to A.D. 1770, and ethnological material from Turkey from the 1st century A.D. to the end of the Ottoman Empire with the foundation of the Republic of Turkey in A.D. 1923.

 § Section  
 U.S.C. United States Code

**II. Background Information and Regulatory History**

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable and prompt action is needed to respond to the potential safety hazards associated with the Savannah boat parade. The Coast Guard received initial notice of the event on April 26, 2021 regarding the event beginning on July 4, 2021, but did not have final details to prepare a regulation until May 25, 2021. The event would begin before the rulemaking process would be completed. Because of the dangers posed by the parade, a safety zone is necessary to provide for the safety of persons, vessels, and the marine environment in the event area. It is impracticable and contrary to the public interest to delay promulgating this rule because the rule is necessary to protect personnel, vessels, and the marine
