

circuit, and power source units were mounted onto the outer case with screws and screwdrivers. In holding that the country of origin of the assembled printers was Japan, CBP recognized that the vast majority of the printer's parts were of Japanese origin and that the operations performed in China were relatively simple assembly operations.

Here, as in HQ 558919, the merchandise contains many U.S. materials that are important components of the final product. With the exception of the French-origin ISA, which may in some cases contain U.S. parts, and some German-origin connectors on one subassembly, all the materials used in the gyroscope are of U.S.-origin. These U.S.-origin parts are essential to the functionality of the finished gyrocompass. As noted above, the processor board serves as the "intelligence" of the product and contains firmware and the user interface that allows a ship's crew to control the product. The interface board serves as the electrical link between the ship's electrical equipment and the product, and the DSP board processes the raw data generated by the ISA into a format that is compatible with navigational equipment. Without the U.S.-origin components, the ISA's functionality would be limited to measuring raw accelerations and rotation rates and would not be capable of producing the output expected from a navigational gyrocompass including heading, roll, pitch, and heave.

In addition, the assembly processes that will occur in the United States are complex and time-consuming. Each of the electronic boards contains dozens of electrical components that must be properly mounted to the surface of the board and soldered into place. This process takes 4.2 hours, while the customized metal housing takes about ten hours to manufacture. Next, these components will be combined with the ISA in a process that includes placing a gasket, affixing a heat-sink compound, soldering connectors, attaching cables, fastening screws, and loading software. This process will take an additional seven and a half hours. Finally, significant post-assembly testing procedures, which will calibrate the merchandise and ensure smooth communication with the ship's navigational equipment, will be carried out in the United States. [The Manufacturer] states that the calibration testing will take up to 24 hours. Consistent with previous CBP decisions, the large number of individual components, the 4.2 hours that will be spent assembling the boards, the ten hours that will be spent manufacturing

the metal housing, the seven and a half hours that will be spent on final assembly, and the time spent on final calibration testing (up to 24 hours) are evidence of complex and meaningful assembly operations in the United States.

In addition, we find that the French-origin ISAs will undergo a change in name, character, and use when they are assembled into finished gyrocompasses in the United States. Although a change in a product's name is the weakest evidence of a substantial transformation, *Uniroyal, Inc. v. United States*, 3 CIT 220, *aff'd* 703 F.2d 1022 (Fed. Cir. 1983), we note that the name of the imported material will change from ISA to gyrocompass after assembly in the United States. Furthermore, the ISA's character—or its "mark, sign [or] distinctive quality," *Energizer Battery Inc. v. United States*, No. 16-116, slip op. at 18 (CIT 2016) (quoting Webster's Third New Int'l Dictionary of the English Language Unabridged (2002) at 376)—will change from a component capable of taking raw measurements to a calibrated system able to record, collect, and transmit data to a ship's navigational systems. Finally, the integration of the French-origin ISA into the finished product changes its use from a measurement component to a complete gyrocompass and "attitude reference system that is capable of delivering actionable data integrated into the ship's navigation and control systems." Because of the change in name, character, and use that occurs in the United States, and considering the totality of the U.S. assembly operations, amount and importance of U.S. materials, and testing that will occur in the United States, the country of origin of the gyrocompasses will be the United States for purposes of U.S. Government procurement.

HOLDING:

The country of origin of the gyrocompasses for purposes of U.S. Government procurement will be the United States.

Notice of this final determination will be given in the **Federal Register**, as required by 19 C.F.R. § 177.29. Any party-at-interest other than the party which requested this final determination may request, pursuant to 19 C.F.R. § 177.31, that CBP reexamine the matter anew and issue a new final determination. Pursuant to 19 C.F.R. § 177.30, any party-at-interest may, within 30 days of publication of the **Federal Register** Notice referenced above, seek judicial review of this final determination before the Court of International Trade.

Sincerely,

Alice A. Kipel, Executive Director
Regulations & Rulings
Office of Trade

BILLING CODE P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Accreditation and Approval of Saybolt LP (St. Rose, LA) as a Commercial Gauger

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: Notice of accreditation and approval of Saybolt LP (St. Rose, LA), as a commercial gauger.

SUMMARY: Notice is hereby given, pursuant to CBP regulations, that Saybolt LP (St. Rose, LA), has been approved to gauge petroleum and certain petroleum products for customs purposes for the next three years as of June 13, 2017.

DATES: Saybolt LP (St. Rose, LA) was approved and accredited as a commercial gauger and laboratory as of June 13, 2017. The next triennial inspection date will be scheduled for June 2020.

FOR FURTHER INFORMATION CONTACT: Christopher J. Mocella, Laboratories and Scientific Services Directorate, U.S. Customs and Border Protection, 1300 Pennsylvania Avenue NW, Suite 1500N, Washington, DC 20229, tel. 202-344-1060.

SUPPLEMENTARY INFORMATION: Notice is hereby given pursuant to 19 CFR 151.13, that Saybolt LP, 190 James Drive East, Suite 110, St. Rose, LA 70087, has been approved to gauge petroleum and certain petroleum products for customs purposes, in accordance with the provisions of 19 CFR 151.13. Saybolt LP (St. Rose, LA), is approved for the following gauging procedures for petroleum and certain petroleum products from the American Petroleum Institute (API):

API chapters	Title
3	Tank gauging.
7	Temperature determination.
8	Sampling.
11	Physical Properties Data.
12	Calculations.
17	Maritime measurement.

Anyone wishing to employ this entity to conduct gauger services should

request and receive written assurances from the entity that it is approved by the U.S. Customs and Border Protection to conduct the specific gauger service requested. Alternatively, inquiries regarding the specific gauger service this entity is approved to perform may be directed to the U.S. Customs and Border Protection by calling (202) 344-1060. The inquiry may also be sent to CBPGaugersLabs@cbp.dhs.gov. Please reference the website listed below for a complete listing of CBP approved gaugers and accredited laboratories. <http://www.cbp.gov/about/labs-scientific/commercial-gaugers-and-laboratories>.

Dated: April 25, 2018.

Dave Fluty,

Executive Director, Laboratories and Scientific Services.

BILLING CODE 9111-14-P

DEPARTMENT OF JUSTICE

Bureau of Alcohol, Tobacco, Firearms and Explosives

[OMB Number 1140-0036]

Agency Information Collection Activities; Proposed eCollection eComments Requested; Revision of a Currently Approved Collection; FFL Out of Business Records Request—ATF F 5300.3A

AGENCY: Bureau of Alcohol, Tobacco, Firearms and Explosives, Department of Justice.

ACTION: 60-Day notice.

SUMMARY: The Department of Justice (DOJ), Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), will submit the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The proposed collection OMB 1140-0036 (FFL Out of Business Records Request—ATF F 5300.3A) is being revised due to minor changes to ATF F 5300.3A, as well as an increase in the respondents, burden hours, and cost since the last renewal in 2016. The proposed information collection is also being published to obtain comments from the public and affected agencies. **DATES:** Comments are encouraged and will be accepted for 60 days until July 2, 2018.

FOR FURTHER INFORMATION CONTACT: If you have additional comments, particularly with respect to the estimated public burden or associated

response time, have suggestions, need a copy of the proposed information collection instrument with instructions, or desire any additional information, please contact Kris Howard, Program Manager, National Tracing Center Division, either by mail at 244 Needy Road, Martinsburg, WV 25405, by email at kris.howard@atf.gov, or by telephone at 304-260-3683.

SUPPLEMENTARY INFORMATION: Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection*

(*check justification or form 83*):

Revision of a currently approved collection.

2. *The Title of the Form/Collection:*

FFL Out of Business Records Request.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:*

Form number (if applicable): ATF F 5300.3A.

Component: Bureau of Alcohol, Tobacco, Firearms and Explosives, U.S. Department of Justice.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

Primary: Business or other for-profit.

Other (if applicable): None.

Abstract: The form is used by ATF to notify licensees that go out of business to send their firearms related business records to the ATF, if the business discontinuance is absolute, or to allow

the licensee to notify ATF of the successor who will be maintaining control of their firearms related records. The questions are simple and a return address is supplied. The format is easy for the user to list the required information ATF needs to perform its functions in regard to the law.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* A combined total of 4,607 respondents will utilize the form and then package and ship/deliver business records to the ATF following business discontinuance. It will take a combined total of five minutes for respondents to prepare the form, and an additional six hours to package and then ship/deliver business records to the ATF.

6. *An estimate of the total public burden (in hours) associated with the collection:* The combine estimated annual public burden associated with this collection is 27,904.25 hours which is equal to 3,147 (# of respondents who used the form) * 0.0833333 hours (5 minutes – total time taken to complete the form) + 4,607 (# or respondents) * 6 hours (time taken to package and ship/deliver business records to the ATF).

7. *An Explanation of the Change in Estimates:* The burden changes associated with this collection due to an increase in respondents, as well as the inclusion of the combined time taken and costs associated with both preparing the form and then packaging and shipping/delivering business records to the ATF.

If additional information is required contact: Melody Braswell, Department Clearance Officer, United States Department of Justice, Justice Management Division, Policy and Planning Staff, Two Constitution Square, 145 N Street NE, 3E.405A, Washington, DC 20530.

Dated: April 27, 2018.

Melody Braswell,

Department Clearance Officer for PRA, U.S. Department of Justice.
