

We are pleased to invite you to the Spine Intervention Society's (SIS) [European Congress](#) in Dubrovnik, Croatia. It will be a great opportunity to hear lectures from international experts and network with colleagues at [Sun Gardens Dubrovnik](#).

We will discuss some of the classic controversies and contemporary challenges in the spine intervention field — all in the beautiful Renaissance palazzo, with Mediterranean gardens and a commanding view of the Adriatic's turquoise waters.

The program is specially designed to give you time to explore Dubrovnik.

- Experience the many actual medieval locations used to depict the fantasy world of King's Landing in "Game of Thrones."
- Take in the majestic view from the top of Srd Hill from the Dubrovnik Cable Car.
- Sail the clear sea and dive into an underwater world of sunken warships and undersea caves of the Adriatic.

[YOUR INSTRUCTORS DISCUSS WHY YOU NEED TO ATTEND](#)
