

Financial Aid Academic Improvement Plan

This Academic Improvement Plan (AIP) documents what you, as a student, will do to improve academically so you can remain eligible for US Federal Financial Aid.

Term for AIP

To be completed by student and a nominated academic advisor.

Student Name	Student ID
Program Name	Program Number
Advisor Name	Advisor Position
Advisor Contact Email	Advisor Contact Number

In carrying out my Academic Improvement Plan, as a student, I understand that I must:

1. Maintain results of 65% or above for all course assessments.
2. If the results of any assessment fall below 65% I must seek further academic support by consulting with Faculty Student Centre, Student Development International, or the Learning Centre, and take an appropriate action to ensure 65% is met in future assessments. Documentation of the suggested academic support and evidence of completion should be provided to the US Financial Aid Office if requested.
3. Seek and document academic support for Program 'X'.
4. Meet UNSW's minimum class attendance rules.
5. Not withdraw after drop/add from courses agreed to in this plan, or I will lose eligibility for federal financial aid.

Goals by AIP Term

The target cumulative WAM for the current AIP Term will be 65% in order to remain eligible for Financial Aid. All subsequent terms must be at least 65% until the overall program cumulative WAM reaches 65% in order to remain eligible for Financial Aid.

If, for reasons beyond my control, I cannot complete the plan as agreed, I must immediately contact the Financial Aid Office on 9385 7717.
