## Residents' Guide to the Budget

The Operating Budget is designed to present summary information about the City's financial plans for the year in a user-friendly format. The Operating Budget is organized by fund, function, and departments. The City has three operating funds and two internal service funds.

**Sewer Fund:** The Sewer Fund is used to account for sewer operations of the City. Revenues are generated from sewer rents, which are adjusted annually to meet the costs of administration, operation, maintenance, and capital improvements to the system.

### **Internal Service Funds**

**Debt Service Fund:** The Debt Service Fund accounts for and reports financial resources that are restricted, committed, or assigned to expenditure for principal and interest and for financial resources that are being accumulated for principal and interest in future years.

**Risk Retention Fund:** The Risk Retention Fund accounts for transactions and reserves set aside by the City to provide for self-insurance programs related to workers' compensation and general liability claims.

## **2020-2021 Proposed Budget Introduction**

The City of Long Beach is facing significant financial challenges. On February 28, 2020, I was hired to begin taking the steps necessary to get the City on a path toward fiscal sustainability. This budget is a significant step in that direction, as it contains savings opportunities and implements fiscal controls to assist in keeping costs reasonable and manageable. The City will simultaneously be exploring new financial streams to support sustainable service and staffing levels.

The City's financial condition did not get this way overnight. In the past, the City was spending more than it was taking in, resulting in operational deficits. The financial condition was exacerbated by the City continually dipping into the rainy day fund in order to make up for these deficits. The City ended the last fiscal year (June 30<sup>th</sup> 2019) with a general fund deficit of \$6.6 million. By the time this fiscal year ends, it is projected to be worse.

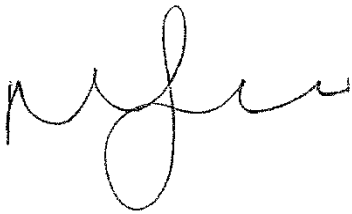

Just as the City did not get into this condition overnight, we will not be able to get out of it overnight either. Achieving fiscal solvency and rebuilding a General Fund Balance surplus will be a multi-year process. Accordingly, while this budget includes difficult workforce reductions, it also relies on borrowing in order to balance what I firmly believe are realistic budget projections. As proposed, this budget remains within the New York State tax cap.

The City will continue with its efforts to enhance our resiliency, improve our infrastructure and increase our general quality of life, but the overarching priority over the next several years will be doing so while also streamlining and re-imagining how the City provides these services. Getting the City back on sound financial footing will allow us to make the investments our community needs and deserves, resulting in a Long Beach we can all be proud of.

The top priorities for the year ahead include:

- Create a 5-year financial plan that results in a replenished General Fund Balance
- Implement policies and procedures on fiscal spending in order to avoid significant service cuts
- Develop monthly financial reporting structures to ensure dynamic budgeting and public transparency
- Identify and secure or implement new, sustaining revenue structures to support City finances

Very truly yours,

### Year Over Year Budget Impacts

For fiscal year 2020 – 2021, the City had to undertake strong measures to bring its expenditures in line with its projected revenues in order to produce a structurally balanced budget.

This adopted budget reflects the following:

- **Expenditures:** The total Adopted Operating Funds Budget includes a \$2.8 million decrease in expenditures.
- **Revenues:** Revenues related to other than property tax items are reduced in this Adopted budget to bring expected revenues closer to prior year trends and to take into account potential impacts of COVID-19, resulting in a decrease in related revenues of approximately \$4.4 million from the 2019-2020 Adopted Budget.
- **Property Taxes:** This Adopted Budget includes a 1.81% increase in Tax Levy. This is the only part of the residential tax increase that the City has control over. The fiscal year 2021 “tax cap” for the City, which is established by the state is 1.81%, which is not being breached by the City. There are two other components to the overall residential tax increase: 1) Increase in tax base, which is prescribed by the state, (2) Reallocation of taxes between Homestead and Non Homestead, the formula for which is determined by the State. Overall the residential tax increase is 3.67%. The 3.67% is the difference between last year’s tax rate and this year’s rate based upon the adopted budget. The additional cost per average house equates to \$142.44 per year or \$11.87 per month.
- **Water/Sewer User Fees:** This Adopted Budget includes no increases in water or sewer rates.
- **Healthcare Costs:** For fiscal year 2021 healthcare costs have been estimated at prior year levels. Since 2015, the City’s healthcare expenses have risen 33.1%, costing an additional \$2.9 million. Expected savings in this category due to the reduction in workforce receiving this benefit were offset by the anticipated increase in health insurance premiums.
- **Salary Line Decreases:** Approximately \$2.1 million decrease in salary lines is primarily due to layoffs.
- **Retirement/Pension Costs:** Retirement/Pension costs are estimated at a total of approximately \$7 million, compared to approximately \$6.8 million actual expense in fiscal year 2019-2020.
- **Debt Service:** \$633,554 increase in debt service is primarily attributed to recent capital improvements, including road reconstruction, recreation upgrades, public safety and transportation equipment, and water and sewer main upgrades, as well as borrowing for termination pay and payment for some large legal settlements.

## City Overview

The City of Long Beach, situated on the south shore of Long Island is about 25 miles east of Manhattan. Founded in 1880 and incorporated in 1922, the City has a land area of approximately 2.2 square miles, and is bounded to the north by Reynolds Channel and on the south by the Atlantic Ocean. Reynolds Channel separates the City from the Long Island “mainland.” As a barrier island, with the ocean on one side and the bay on the other, Long Beach developed as a seaside community. Long Beach averages 13 degrees warmer in the winter and 10 degrees cooler in the summer than inland communities on Long Island and New York City. The population, according to the 2018 U.S. Census Bureau, American Community Services, is estimated at 33,534.

## Community Structure

There are eight major neighborhoods of the City that include;

- The West End - These streets run from the Beach to the Bay, from New York Ave. to Nevada Ave., reaching East Atlantic Beach.
- The West Holme - From Beach to Bay the area from New York Avenue to Magnolia Boulevard, south of Park Avenue; and National Boulevard north of Park Avenue.
- The Walks – The area between Park Avenue and West Beach Street, and between New York Avenue and Lindell Avenue. Ten walks bearing the names of months.
- Central District - The area between Magnolia Boulevard and Monroe Boulevard has become known as the Central District.
- North Park - The area north of Park Avenue, between the LIRR Train and Long Beach Road.
- The East End - The neighborhood between Monroe Boulevard and Maple Boulevard, south of Park Ave, and Monroe to Neptune, north of Park Ave., is known as the East End.
- The Canals - The Canals is an area of the city consisting of several streets running north to south with parallel canals originating from Reynolds Channel. The Canals begin on Forrester Street and end on Curley Street.
- The President Streets - The President Streets is an area of the city consisting of streets named after former U.S. presidents, with the exceptions of Atlantic, Belmont, and Mitchell Avenues, and Pacific Boulevard, the latter of which connects directly from Park Avenue to Broadway, a parallel road to the south.

The City's downtown, a transit-oriented development, is organized around the City Hall government center and multimodal transportation center that act as the hub of the main commercial district. The West End's Beech Street is the other major neighborhood commercial area. Public facilities, industry and institutions define the large central portion of the City's Bayfront.

## Government Structure

The City of Long Beach is one of only two cities on Long Island (the other being Glen Cove). Although geographically within the Town of Hempstead located in Nassau County, Long Beach is politically independent and self-governing. The City of Long Beach operates with a council-manager form of government. The governing body consists of a five member City Council elected every two years (with staggered 2-4 year terms), which appoints a City Manager. It is the job of the City Manager to administer the daily operations of the City's government. The City Manager appoints the City Clerk, City Treasurer, Assessor, City Comptroller, Corporation Counsel and the Commissioners of Public Works and Buildings.

City Council Meetings are held on the first and third Tuesdays of each month at 7:00 pm on the 6th floor of City Hall. All Council meetings are recorded and posted on the City's website, [www.longbeachny.gov](http://www.longbeachny.gov). The Council holds a Good and Welfare session after every regular meeting giving residents the opportunity to address the Council on any subject matter that is within the jurisdiction of the City Council and that does not appear as a regular agenda item. The City Council is not permitted (by law) to take any action during the public comment period, but it may refer matters to the staff for response or official action at a future date.

# Ocean Beach Park

---

Preservation of the characteristics of the Ocean Beach Park, including its depth and quality, is critical not only to the natural environment, but to the very essence of what makes Long Beach unique.

The boardwalk was originally built in 1914 and was resiliently rebuilt in October 2013, after being damaged during Superstorm Sandy. The boardwalk is a multi-use linear park with designated areas for walking, resting, jogging, biking, and other exercises. Five concession buildings with restrooms line the north side of the Boardwalk, one each at Grand Blvd, National Blvd, Edwards Blvd, Riverside Blvd, and Lincoln Blvd. It is a community gathering place and destination.

**Long Beach Boardwalk**

Its 2.2-mile boardwalk, stretching from New York Avenue to Neptune Boulevard, distinguishes it from other stretches of beach along the Atlantic Ocean barrier islands in Nassau and Suffolk Counties. Even within the city, the character of the beach and its relation to the adjacent community differs east and west of the Boardwalk.

In the West End, raised dunes at block ends with wooden walks provide a natural entry to the beach. Since the pattern of development along the boardwalk is largely multifamily apartment buildings, beach entryways are controlled not only at block ends, but also by fee stations at the rear of apartment buildings in the East End.

The beach is open every weekend from 9:00 a.m. to 6:00 p.m. with on-duty lifeguards starting Memorial Day weekend. From late June to Labor Day, the beach is open 9:00 a.m. to 6:00 p.m. daily.

## Ocean Beach Park Amenities

In 2013, the City introduced the Shoregasboard; an assortment of food trucks where Riverside Boulevard meets the beach. The Shoregasboard is open every day from 11:30am to 8:30pm. Most of the trucks are operated by local restaurants.

In 2016, a variety of concession buildings were opened along the beach and boardwalk, providing residents and visitors with an abundance of choices in convenient locations. The locations at Grand Blvd, National Blvd, Edwards Blvd, Riverside Blvd, and Lincoln Blvd were determined based on a community outreach engagement process that took place in 2013 and 2014. The decision to offer an unprecedented diversity of quality foods with local flavor, bolstering existing vendor options along the beach and boardwalk, was based on feedback received during a community survey completed in 2015. In 2020, the City intends to once again enhance the local flavor with additional food options at the Shoregasboard and the boardwalk.

# LONG BEACH IS RECREATION

---

The City owns and operates the Recreation Center, Ice Arena, Magnolia Senior Center, pre and after school care, West End Community Center, seven playgrounds, a skate park, handball courts, a fishing pier, a dog run, and boat launch into Reynolds Channel. The Recreation Center is located at the northern terminus of Magnolia Boulevard at the Reynolds Channel bay front. The center offers a weight room, a pool, men's and women's locker rooms, and a variety of fitness classes. Use of the facility is open to Long Beach and non-Long Beach residents for a membership fee.

The City's Department of Parks and Recreation offers several youth athletic programs, such as football, cheerleading, wrestling, lacrosse, soccer, swimming, intermediate roller hockey, and other sports. There is a one-time flat fee for utilization of these programs, except swimming and wrestling which have additional fees. The Department also offers adult men's and women's softball, special events, and a summer camp for children. The Department coordinates with the City of Long Beach School District to use school facilities, such as the school gymnasiums and fields, for various activities.

## Veteran's Memorial Park

Veteran's Memorial Park is located adjacent to the recreation center and along the Bayfront. The park has a Bayfront esplanade, playground, multi-purpose ball fields, basketball courts, outdoor roller hockey rink, skateboard park, dog run, and a boat ramp. The ball fields have lights for night-time play and are used for softball, soccer, lacrosse and football by the City teams as well as by various community groups and leagues. The Bayfront esplanade continues beyond Veteran's Memorial Park from Magnolia Boulevard to Washington Boulevard. To the rear of the courts are walkways that provide an opportunity for walking and picnicking.

## Long Beach Playgrounds

Long Beach also has seven children's playgrounds located throughout the City, including:

- Georgia Avenue Park
- Magnolia Playground
- Veterans Memorial Park
- Sherman Brown Park
- Leroy Conyers Park
- Pacific Playground
- Clark Street Playground

## Long Beach Ice Arena & Bayfront Area

### Georgia Ave. Park

The enclosed Ice Arena is located adjacent to the Recreation Center which is Home of the New York Applecore hockey team and former practice facility for the New York Rangers. The Ice Arena features a teen center, snack bar and a party area. Learn to skate classes and hockey tournaments are held at the arena which is open year-round. The City also owns tennis courts, which are currently leased to a private organization for operation. The tennis courts are enclosed so they can be used year-round.

The Bayfront offers its own type of recreation, including fishing, kayaking, stand up paddling and boating. Bayfront esplanades run the length of Veteran's Memorial Park and along West Bay Drive from Magnolia Boulevard to Washington Boulevard. A fishing pier is located at the northern terminus of Magnolia Boulevard.

Long Beach Ice Arena

## Youth & Family Services

After-school activities and early morning care are operated by the City at the West End Community Center and Lido Elementary School.

Senior programs are held at the Magnolia Center located at the northern terminus of Magnolia Boulevard. Community, religious, and artistic groups also frequently use the center.

# Getting Around

---

The City's Department of Transportation is responsible for all bus service within the City of Long Beach and Point Lookout. This department establishes rates, schedules and routes. Information can be found at [www.longbeachny.gov/transportation](http://www.longbeachny.gov/transportation). All buses are wheelchair accessible.

All City buses remain within the City, with the exception of the Point Lookout route that travels from the LIRR station in Long Beach to Point Lookout. The City operates this line on behalf of Nassau County.

The fare for Long Beach buses is \$2.25. It costs \$2.75 to ride the Nassau County buses and the Point Lookout bus. The Long Beach bus system operates from 5 AM to 11 PM, with night service until 4:00 am. The bus system covers over 90% of the city, and there are approximately 17,000 passengers per month.

**City of Long Beach Trolley**

The City also operates an ADA paratransit bus system for a fee of \$.75 cents per ride. Passengers must schedule the ride 24 hours in advance.

The Long Island Rail Road, which arrived in 1882, provides passenger transportation from downtown area to other stations within Long Island and New York City. Commuting time to Manhattan is approximately 55 minutes.

# Housing

---

Long Beach offers one of the most diverse stocks of housing choices on Long Island. There are approximately 16,492 housing units, according to the 2018 ACS data, spread across 2.2 miles of land with a vibrant commercial and residential district. The bay side of the community is lined with homes and private docks. Waterfront homes can also be found in the Canals. Man-made extensions were created when the canals were dug to connect areas of Long Beach to the bay. In fact, no home is more than a few hundred yards from the water as Long Beach is only a half of a mile wide at its widest point.

Homes embodying diverse architectural designs can be seen along with the older dwellings which were built in the 1930s. Older homes can be found throughout the island, which once were seasonal summer homes, but now serve as year round residences. Long Beach is also going through somewhat of a housing transition due to the devastation from Superstorm Sandy as older buildings are being replaced or restored into new modern residences both along the shore and throughout the inland parts of the City. The real estate market has been very much on the rise in recent years, receiving significant media coverage from the likes of HGTV and the New York Times.

The department seeks out funding and technical assistance for the City in support of this mission.

## Description of Services

Created in 2013, the Department of Economic Development and Planning (DEDP) is responsible for economic development in support of the business community, the Long Beach Local Development Corporation (LDC), planning, many city grants, marketing and the supervision of the Arts Council. It also works on environmental issues, implementing complete streets policies, expanding bicycle lanes to foster a healthier and less auto dependent community, affordable housing and regional coordination.

The DEDP had been awarded after Superstorm Sandy two, state grants to update the Comprehensive Plan and draft Local Waterfront Revitalization Program (LWRP) with minimum cost to the City. This was done using outside consultants and including community outreach. The two documents propose both short and long term goals for the City, focusing on resiliency, economic development, parking, affordable housing and preventing gentrification and overdevelopment. It is anticipated that in the next year, the City, working with the community, will reexamine these plans to better reflect current goals for the future of the City and that this will lead to the formal adoption of both documents.
