

BLUE BAG PROGRAM

What is the Blue Bag Program?

Manchester Public Works provides blue trash bags to those that wish to collect litter throughout the public right-of-way in Manchester. Individuals or organizations may participate in litter collection, and Public Works will coordinate collection and disposal of the bags, so you do not have to!

How to Obtain Blue Bags

Blue bags are available for the purpose of this program, litter collection only. In order to obtain blue bags, you must provide an estimated number of bags needed for clean-up and come to 475 Valley Street in order to receive the bags.

Picking Up Litter

Litter must be collected on Manchester's public right-of-way in order to be eligible for collection. All bags must be left roadside so that they are accessible for city personnel to coordinate collection.

Call Manchester DPW

After you have completed the litter clean-up, please call Manchester DPW at 603-624-6444 with the location of the blue bags in order for collection to be coordinated.

We appreciate your pride in maintaining Manchester's cleanliness!
