

# US/UK World Magnetic Model - Epoch 2020.0

## Annual change inclination (I)

**Annual Change Inclination (I, SV)**  
 Miller Cylindrical Projection  
 Contour interval: 1 arcminute/year

- Red: Positive (downward) change
- Blue: Negative (upward) change
- Green: Zero change

**Position of Dip Poles**

**Blackout Zones**

**Horizontal Field (H) Strength:**

- Dark Grey: 0-2000 nT (Unreliable Zone)
- Light Grey: 2000-6000 nT (Caution Zone)
