

US/UK World Magnetic Model - 2020.0

Main Field Down Component (Z)

Main Field Down Component (Z)

South Polar Region
Polar Stereographic Projection
Contour interval: 1000 nT
— Positive (down)
— Negative (up)
— Zero line

 Position of Dip Poles

Blackout Zones

Horizontal Field (H) Strength:
 0-2000 nT (Unreliable Zone)
 2000-6000 nT (Caution Zone)
