Dear School Community,

The individual *Annual Arts in Schools Report* is an integral part of the NYC Public School's efforts to ensure that schools are providing students with high-quality arts education and experiences that they need and deserve. The report has been created to help school leaders, teachers, and families understand how they can improve students' learning in the arts. It provides a view of the arts education opportunities that your school has for your students, based on data from the *2022-23 Annual Arts Education Survey* and from NYC Public School databases.

In unity,

Darleen Garner, Director of Arts Education Accountability & Support
 New York City Public Schools

SCHOOL'S ARTS PROGRAM DESCRIPTION

Our young artists are active and exuberant explorers who are increasingly curious about the art world around them. They discover that ideas can be interpreted in a variety of ways and that creating art supports the development of a variety of skills and a sense of self as an artist. Our students recognize the cultural, societal, and historical significance of art, connect the visual arts to other disciplines, and apply the skills and knowledge learned in their art, music and arts partnership classes to interpreting the world. We look forward to continuing to provide arts experiences for our students and observing their ongoing development as artists in our school community.
