Dear School Community,

The individual *Annual Arts in Schools Report* is an integral part of the NYC Public School's efforts to ensure that schools are providing students with high-quality arts education and experiences that they need and deserve. The report has been created to help school leaders, teachers, and families understand how they can improve students' learning in the arts. It provides a view of the arts education opportunities that your school has for your students, based on data from the *2022-23 Annual Arts Education Survey* and from NYC Public School databases.

In unity,

Darleen Garner, Director of Arts Education Accountability & Support  
 New York City Public Schools

### SCHOOL'S ARTS PROGRAM DESCRIPTION

We provide a four-year program in art that explores fine art techniques along with art history and the application of these skills in various art-related industries. Our students study the business of the arts and learn both digital and darkroom photography techniques. Students create portfolios over their four-year experience and write artists' statements and related essays. We aim to provide as varied a program as possible in the many areas of the arts, including design, illustration, gallery and curatorial techniques. Our close connection with the business, industry and post-secondary education communities ensures that the standards, knowledge and expectations are continually updated and reassessed. This connection also allows students to have access to special enrichment, unique internship and on-the-job training opportunities.
