

Managed Video Surveillance

Experience an anticipatory and comprehensive video security solution for all businesses with unparalleled day-and-night monitoring of premises, real-time centralized management of video operations, prompt responses to emerging situations, and increased situational awareness.

OVERVIEW

Managed video surveillance for your business

Detect and deter crime 24/7/365 with our skilled operators and an advanced, interactive technology

Security 101 offers sophisticated cloud-based managed video surveillance to commercial sites and enterprises of any size to safeguard your people and property from dangerous external threats — at all times.

Improve your video monitoring operations and performance

Allow us to take care of your business remotely to detect suspicious behavior, prevent crime, and ultimately empower you with the highest level of coverage and protection.

BENEFITS

Top benefits of managed video surveillance

You need a video solution that is efficient, interactive, and scalable.

- **Crime prevention**
You will be able to prevent crime, deter threatening activity, and reduce security incident response time, all while you focus on your core business functions.
- **Video analytics**
We constantly review and strategically adjust analytic settings to improve security operations and performance.
- **Extensive experience**
Your system will be built, configured, set-up, operated, and tested by experienced security professionals. Our qualified agents understand the risks you face daily and keep an eye on your premises to continuously meet your security needs.
- **Documentation**
VSaaS helps you capture and store video of suspect activity and incidents for optimal oversight and actionable insights.
- **Capability**
Our operators are able to challenge suspects directly, using the effective voice down capability, which is exponentially more potent than just a siren sounding. Voice down is applied to evict wanderers, warn suspects, or enforce corporate protocols.
- **Cost savings**
With our managed video services, your business will be able to reduce security personnel, hardware requirements, training, and maintenance costs. Moreover, you will be able to increase the Return on Investment (ROI). The typical capital expense recovery time frame is less than 1-year.
- **Peace of mind**
The appropriate managed video surveillance can take a lot of stress off of you and give you peace of mind.

NATIONAL | GLOBAL ACCOUNTS

Reliable **protection**, increased **proactivity**, less risks

Our **National | Global Accounts Division** can deliver an optimal integrated security solution, tailored to help you face the challenges experienced by large enterprises.

Our seamless integration of the right technologies permits a considerable reduction in costs and enables your multi-site organization to effectively eliminate disparate systems, centralize monitoring, increase flexibility, and manage operations remotely.

Achieve outstanding operations efficiency with our integrated electronic security solutions

SOLUTIONS

Elevate the security of your organization

VSaaS consists of 3 innovative solutions that don't require your organization to add supplementary resources.

Virtual guard tours

Scheduled or unscheduled virtual guard tours are deployed to detect and deter criminal attempts with voice-down technology. You can decide the times and frequency that operators should remotely tour your property. Benefits include enhanced situational awareness, reduced shrinkage, and reduced internal theft.

Virtual doormen

Virtual doormen is a two-way video and audio communication system that creates a secure and personalized reception experience for employees and visitors after hours. This is a vital service to ensure your team members always arrive and depart safely.

Virtual chaperones

Our virtual chaperones offer extra protection for employees who may have to open or close your business after hours or alone. Further, they provide remote monitoring support to staff during cash movements or when performing stocking routines.

WHY US

Security 101 offers the best-in-class **integrated electronic security systems** for your organization.

| We are experienced security professionals

Security 101 has the depth of experience to *design, install, and maintain* a seamless integrated electronic security system that is unique to your security needs.

| Our technologies are effective and sophisticated

Knowing that your integrated security system consists of best-in-class technologies, serviced by certified and experienced technicians, is foundational to our Security 101 approach.

| We are fanatical about customer service

We take customer care seriously. Our priority is to provide you with ongoing support and assistance to help you maintain the integrity and security of your organization.
