

Strong Physical Security

Safeguard your organization with essential and valuable physical security solutions able to restrict access, keep track of security breaches, monitor your premises 24/7, and increase a sense of security among your employees.

OVERVIEW

Physical security for your business

Are you really protecting your people and assets?

An effective physical security solution is able to work in tandem with other technologies to fully protect employees and visitors, safeguard buildings and equipment, and prevent criminal activity, including theft, vandalism, and terrorism. Without a reliable physical security plan, adequate solutions, and best practices in place, your enterprise is eminently exposed to attacks and profoundly vulnerable in an uncertain future. We can help you build a solid environment to keep all your resources protected with advanced physical security controls, professional integration, and exceptional customer service.

Amplify the physical security of your organization

Create a robust strategy for safeguarding your business.

BENEFITS

Top benefits of physical security

You need the highest level of security currently achievable. You require a partner with a flawless reputation and vast expertise in planning, building, installing, and maintaining physical security solutions for your particular vertical.

Our tailored physical security solutions offer organizations of any size:

- Multi-floor facilities safeguarded effortlessly with elevator control
- Easy escape mechanisms for occupants of a building during emergencies
- Unauthorized entry prevention
- Enhanced and secure flow of people into your organization
- Seamless system integration
- Peace of mind when doors are closed and managed at all times

SOLUTIONS

Our physical security solutions

Commercial locks

Tailor your commercial lockset to meet your unique function and finish requirements. Choose from electrified, electromagnetic, electronic, and wireless locks with full control, user tracking, and door monitoring. Experience simplicity and flexibility with real-time integration into access control systems, ensuring comprehensive security.

Entrance/door control

Optimize the flow of people within your facility using our effective tools. Our heavy-duty closers suit demanding applications, enhancing security in high-traffic buildings. We also offer robust and reliable turnstiles for added security. With fast installation and dependable performance, our devices can be concealed completely for aesthetic finishes.

Exit devices

Ensure easy and safe evacuation during emergencies with our customizable exit devices. Augment building safety and prevent unauthorized access. Retrofit kits are available for seamless integration with glass, metal, aluminum, and wood doors, delivering enhanced performance and ease of maintenance.

Elevator control

Safeguard your entire facility with our advanced elevator control solutions. Choose from public elevators with private access, private elevators with general access, private elevators with selected floor access, and the convenience of a destination control system (DCS). Embrace the integration of mobile credentials for enhanced security.
