## **Import Cargo Release Information via terminal websites**

The following document shows you how to obtain relevant information concerning the presence, release and/or block-status of your import shipments/containers on the terminals in Rotterdam. Please note the screenshots are examples only and do not necessarily refer to your shipments.

We strongly recommend our clients and/or their trucking/rail/barge operators to always check presence, release and block status of the container before sending the vehicle to the terminal for pick-up. We can not accept any responsibility for waiting hours and/or idle transport at the terminal occurring from sending your operator without checking the status on the terminal website.

## **Cargo release information on ECT Terminals:**

<http://www.ECT.nl>

After login go to My Services > Tracking & Tracing > Container Status.

The screenshot shows the ECT Europe Container Terminals website. The navigation bar includes HOME, MY SERVICES, ALL SERVICES, MY PROFILE, AUTHORISATION, and LOG OUT. The breadcrumb trail is Home > My Services. The left sidebar lists services: My Services, Customs Scan, Orders, Orders Overviews, Reports, Reference Code Lists, and Tracking & tracing. Under Tracking & tracing, the following items are listed: Container Status (highlighted with a red box), Object Status Alert, Object Status, and Terminal Overview. The main content area is titled 'My Services' and contains instructions on how to use the services, a 'More services' section, and a 'Questions' section. The right sidebar contains 'NEWS SERVICES' with links to 'ECP Electronic Communication Procedure', 'Declaration of using E-service', 'TCT Venlo connected to EC', and 'Overview Customs blocked codes'.

*If you have problems with the login, or if you do not have a login yet, please contact the ECT directly. Make sure you apply for both EVG, HML, ITS, EMH and EMS (5 carriers for Evergreen Line)*

The screenshot shows the 'Container Status - ECT Rotterdam' page. The breadcrumb trail is Home > My Services > Tracking & tracing > Container Status. The left sidebar is identical to the previous screenshot. The main content area is titled 'Container Status - ECT Rotterdam' and contains instructions on how to search for container status. Below the instructions is a search form with the following fields and buttons: Terminal (dropdown menu set to ECT Rotterdam), Container prefix number (input field with DFSU and 1234567, and a Multiple button), and a Go button. There are also links for Reset and Help.

To see information about a container fill in a specific container prefix and number and click at Go.
