# COURSE DETAILS

The Medical Lab Technician (MLT) course includes elements of blood bank management, materials management, supply chain management as well as lab information system management. Additionally, students from this course are trained to clean and maintain lab equipment, manage biomedical waste and adhere to quality control standards as per the NABL regulations.

The course curriculum covers the following topics:

- Introduction to Patient Care, Lab Technology & Equipment
- Basic Pathology & Diagnostic Techniques
- Basic & Clinical Biochemistry
- Basic & Systemic Medical Microbiology
- General Pharmacology
- Basic Haematology, Immunology, Parasitology and Histology
- Blood Banking
- Storage & Transportation of Samples
- Fine Needle Aspiration Technique
- Lab Information Management System
- Preparation and Documentation of Medical Tests & Results
- Biomedical Waste Management
- Infection Control
- Materials Management & Supply Chain Management
- Maintenance and Cleaning of Lab Equipment
- NABL Training & Quality Control

## COURSE OVERVIEW

- Eligibility - Class 12
- Minimum Age - 17 Years
- Duration - 2 Years

## CERTIFICATION

*Diploma jointly issued by*

- Tech Mahindra SMART Academy for Healthcare
- Maharashtra State Board of Skill Development (MSBSD)
- On-the-job Training Partner

## FACILITIES

- Basic skills lab with phlebotomy dummy, sterilisation station & an autoclave
- Advanced medical lab equipped with sample collection stations, microscopes, centrifuges etc

## TRAINING & PLACEMENT

- Mandatory 6 months long supervised on-the-job training

# Diploma in
# Medical Record Technology

☏ 1800 270 2022 (Toll Free)  |  ⊙ +91 93118 33590  |  ⊕ www.smart-academy.in

# COURSE DETAILS

The Medical Record Technician course trains students to handle medical case sheets and records in a scientific manner. They are taught how to prepare a file for storage after checking it for completeness. They are also trained in filing reports as required by the local health and governmental authorities as laid down in the country.

The course curriculum covers the following topics:

- Anatomy
- Medical Record Science
- Medical Terminology
- Hospital Information Systems
- Biostatistics
- International Classification of Diseases (ICD10) Coding
- Medical Transcription
- Legal and Ethical Aspects of Medical Records
- Computer Applications to Maintain Medical Records

## COURSE OVERVIEW

# Diploma in
# Dialysis Technician

1800 270 2022 (Toll Free) | +91 93118 33590 | www.smart-academy.in

A Tech Mahindra Foundation Initiative

## COURSE DETAILS

The Dialysis Technician course trains students to become skilled dialysis technicians, capable of handling haemodialysis and peritoneal dialysis on both Fresinius and B Braun dialysis machines. The course also includes training on the preparation of dialysis fluids, as well as the washing and storage of dialyzers for reuse. Our training includes running safety checks for the machine settings, particularly the pressures, conductivity, and temperature.

The course curriculum covers the following topics:

▶ Basic Anatomy, Physiology and Pathology

▶ Basic & Clinical Biochemistry

▶ Basic & Systemic Microbiology

▶ General Pharmacology

▶ Renal Anatomy & Physiology

▶ Common Kidney Disorders, Diagnosis of Kidney Disease

▶ Management of Kidney Disease

▶ Predialysis Preparation and Assessment

▶ Peritoneal Dialysis & Haemodialysis

▶ Vascular Access

▶ Renal Nutrition

▶ Heparin Therapy

▶ Complications Arising from Haemodialysis

▶ Haemodialysis Prescriptions

▶ Water Treatment Methods

*and more...*

## COURSE OVERVIEW

# Radiology Technician

1800 270 2022 (Toll Free) | +91 93118 33590 | www.smart-academy.in

## COURSE DETAILS

The Radiology Technician Course (X-ray) trains students to work as radiology technicians in radiology departments and clinics. After undergoing a basic training in human anatomy and physiology, they are taught to handle X-ray equipment, develop X-ray films using both wet development and the computerised X-ray machines, CT Scan, MRI and ultra sound sonography.

The course curriculum covers the following topics:

- Introduction to Imaging Technologies
- Basic Anatomy, Physiology and Pathology
- Radiographic Imaging Material and Equipment
- Radiological Physics
- Basic Concepts and Production of X-ray
- Hospital Practice and Care of Patients
- Positioning of the Patient
- Radiographic Photography and Dark-room Technique
- Magnetic Resonance Imaging
- Computerised Tomography
- Special Procedures and the use of Contrast Media
- Safety Procedures and Patient Care
- Radiation Protection

## COURSE OVERVIEW

- Eligibility - Class 12 (Science)
- Minimum Age - 17 Years
- Duration - 12 Months

## CERTIFICATION

*Diploma jointly issued by*

- Tech Mahindra SMART Academy for Healthcare
- Maharashtra State Board of Skill Development (MSBSD)
- On-the-job Training Partner

## FACILITIES

- Basic skills lab that emulates a hospital ward, with dummies
- Access to fully-fledged CT Scan, MRI, sonography diagnostic centre through a partner hospital
- X-ray lab with a dark room for wet development and a computer room for digital reports

## TRAINING & PLACEMENT

- Mandatory 6 months long supervised on-the-job training

# Certificate in Nursing Care

1800 270 2022 (Toll Free)  |  +91 93118 33590  |  www.smart-academy.in

# COURSE DETAILS

The Nursing Care courses in Pune and Mumbai have been designed to cater to the growing need for nurses at community level and in nursing homes. The students are trained to provide healthcare facilities at community level. They are further trained to provide preventive, promotive, restorative and emergency health care to individuals and community as required. They can render skilled mother and child care services at community or hospital.

The course curriculum covers the following topics:

- Basic Human Anatomy & Physiology
- First Aid & its Applications
- Wound Management
- Dressings & Bandages
- Antenatal Care
- Assisting in Normal Delivery
- Basic Nursing Skills
- Assisting in Cesarean Section
- Postnatal Care
- Common Childhood Disorders
- Breastfeeding Counselling
- Assist for Immunization of Babies
- Understanding Hospitals & the Healthcare System
- Administering Drugs as per Prescriptions
- Patient Care

*...and more*

# Hospital Front Office & Billing Executive

☎ 1800 270 2022 (Toll Free) | ⊙ +91 93118 33590 | ⊕ www.smart-academy.in

## COURSE DETAILS

The Post-Graduate Certificate Course in Hospital Front Office & Billing Executive course has been designed to cater for the growing need for trained billing executives in healthcare facilities. They are trained to recognise medical terminologies, abbreviations and diagnoses. They are also trained to work on hospital information systems for real time online billing and hospital operation work.

The course curriculum covers the following topics:

- Organisation of a Hospital and its Departments
- Medical Terminologies & Abbreviations
- Basic Human Anatomy & Physiology
- Procedures Carried out by Different Departments
- Hands-on Training on HIS
- Handling of Cash Paying Patients
- Handling of Medical Insurance Holders
- Handling of Patients referred by CGHS & ECHS Clinics
- Process Flow of a Patient
- OPD Billing Flow
- IPD Billing Flow
- Handling Stress & Difficult Situations

## COURSE OVERVIEW

- Eligibility - Pursuing last year of Graduation
- Minimum Age - 18 Years
- Duration - 6 Months

## CERTIFICATION

*Certificate jointly issued by*

- Tech Mahindra SMART Academy for Healthcare
- On-the-job Training Partner

- Fully equipped computer lab with ICD-10 coding software
- Language lab to facilitate better accent comprehension for medical transcription

## TRAINING & PLACEMENT

- Mandatory 2 months long supervised on-the-job training

# Certificate in
# Phlebotomy Technician

## COURSE DETAILS

The Phlebotomy Technician course is designed to prepare health care professionals to draw quality blood samples from patients and prepare specimens for medical testing. A Phlebotomy Technician is an expert in the techniques involved in minimising pain and discomfort during the procedure of extracting blood.

The course curriculum covers the following topics:

- Introduction to Healthcare in India
- Basic Structure and Functioning of the Human Body
- Medical Terminology and Abbreviations
- Introduction to Medical Laboratory Technology
- Introduction to Microbiology
- Introduction to Biochemistry
- Collection of Blood for Various Tests
- Collection of other Samples for Analysis
- Laboratory Safety and Standard Precautions
- Preparation of Blood Smears
- Storage of Different Samples
- Sample Transportation
- Laboratory Information System
- Infection Control
- Biomedical Waste Disposal

## COURSE OVERVIEW

- Eligibility* - Class 12 (Science)
- Minimum Age - 18 Years
- Duration - 6 Months

## CERTIFICATION

*Certificate jointly issued by*

- Tech Mahindra SMART Academy for Healthcare
- Healthcare Sector Skill Council (HSSC)
- On-the-job Training Partner

# About Tech Mahindra Foundation

Tech Mahindra Foundation (TMF) is the corporate social responsibility arm of Tech Mahindra Limited, a Mahindra Group Company. Since 2006, the Foundation has been working tirelessly in the areas of education, employability, and disability, with a keen focus on corporate volunteering.

The Foundation works with the mandate that 50% & 10% of its beneficiaries would respectively be women and persons with disabilities. Since 2012-2013, the organization has impacted 3,94,727' direct beneficiaries across all programs. Additionally, the lives of 4'+ million indirect beneficiaries have been impacted through the initiatives across 17 states in India.

## Our Focus Areas

### EMPLOYABILITY

SMART (Skills-for-Market Training) is the Foundation's flagship employability program to empower youth from socio-economically backward urban communities. It empowers youth from under-served urban communities with requisite employability skills through structured training and helps them get dignified jobs. The program includes imparting Foundation Skills i.e. Spoken English, Basic IT and Workplace Readiness besides trade-specific domain training. The Foundation has been implementing the **SMART** program by establishing a network of SMART Academies and Centres - run both directly and through other partner implementing agencies.

### EDUCATION

The Foundation is dedicated to enhancing school governance, expanding children's learning opportunities, increasing parental involvement in school education and enabling continuous professional development of schools' stakeholders.. This is executed through our Education programs- **ARISE**, **Shikshaantar** and **Mobile Science Lab**. The Foundation works in government schools through its ARISE (All-Round Improvement in School Education) focuses on providing holistic development for children in government schools. Shikshaantar focuses on teacher empowerment and capacity enhancement through contemporary subject matter and pedagogical practice through directly run In-Service Teacher Education Institute (ITEI) and partner projects. The Mobile Science Labs were launched to enhance the educational experience through a bus equipped with hands-on activities of EVS (Science) that visits government schools and facilitates learning of students from Classes 3 to 5.

### DISABILITY

Enabling true ability in persons with disability, Tech Mahindra Foundation strives to build an inclusive society. There is a keen emphasis on facilitating equal learning opportunities for children and youth with disabilities to lead dignified lives. This is done through **ARISE+** (All Round Improvement in School Education for Children with Disabilities) and **SMART+** (Skills-for-Market Training for Persons with Disabilities). ARISE+ is a program that encourages children with disabilities to become a part of mainstream education. The SMART+ program focuses on providing employable market-related entrepreneurial skills and opportunities to youth with disabilities.

### VOLUNTEERING

Corporate Volunteering is at the heart of Tech Mahindra's ethos where Individual Social Responsibilities (ISR) is a way of life. TechM associates volunteer and contribute to driving positive social change while simultaneously enhancing their capacities for empathy and compassion. This is how we #Rise and find our joy in giving back to society!
