

## Client Access

Stoel Rives recognizes the importance of using technology to both enhance internal office communications and workflow and to work with clients and outside counsel more efficiently. One of the ways that we facilitate efficient collaboration among personnel and with our clients is by creating custom websites through a secure, password-protected portal that provides our clients with the self-serve convenience of real-time access to documents and other confidential information. If you are interested in learning more about our client portal, please send an email to [clientportal@stoel.com](mailto:clientportal@stoel.com).

### Client Portal

Log in to this secure site to collaborate on documents and communicate with your Stoel team. To establish access or for technical support, please email [clientportal@stoel.com](mailto:clientportal@stoel.com).

### ClientPay

Registered users can pay Stoel Rives invoices online. If you do not have an online ClientPay account established, please contact [accountsreceivable@stoel.com](mailto:accountsreceivable@stoel.com) to set yours up.

### Large File Transfer Site

Use Box for the secure transfer of files over 30 MB to the secure Stoel Rives Box file site.
