The nomination committee is to propose:

- the chairman of the annual general meeting;
- candidates for the post of chairman and other directors of the board;
- directors fees and other remuneration for board assignments to each director;

- fees to members of committees within the board;
- election and remuneration of the Company auditor; and
- principles for the nomination committee.

Members of the nomination committee

The nomination committee, which shall be appointed until a new committee is appointed, shall consist of four members, of whom three shall be nominated by the Company's three largest shareholders by voting power and the fourth shall be the chairman of the board. The chairman of the board shall as soon as reasonably practicable after the end of the third quarter, in an adequate manner, contact the three owner-registered largest shareholders by voting power, according to the share register maintained by Euroclear Sweden AB at that time and request that they, taken into consideration the circumstances, within reasonable time which cannot exceed 30 days, in writing to the nomination committee nominate that person whom the shareholder wishes to appoint as member of the nomination committee. If any of the three largest shareholders wish not to exercise their right to appoint a member of the nomination committee, the next shareholder in consecutive order shall be entitled to appoint a member of the nomination committee. In the case that several shareholders abstain their right to appoint a member of the nomination committee, the chairman of the board shall not be required to contact more than eight shareholders, unless it is necessary in order to obtain a nomination committee consisting of a minimum of three members.

Unless otherwise agreed between the members, the chairman of the nomination committee shall be nominated by the largest shareholder. A member of the board of directors should never chair the nomination committee.

If a member nominated by a shareholder, during the year ceases to be one of the Company's three largest shareholders by voting powers, the member nominated by such shareholder shall resign from the nomination committee. Instead, a new shareholder among the three largest shareholders shall be entitled to independently and in its sole discretion appoint a member of the nomination committee. However, no marginal changes in shareholding and no changes in shareholding which occur later than three months prior to the annual general meeting shall lead to a change in the composition of the nomination committee, unless there are exceptional reasons.

If a member of the nomination committee resigns before the nomination committee has completed its assignment, for reasons other than set out above, the shareholder who has nominated such member shall be entitled to independently and in its sole discretion appoint a replacement member. If the chairman of the board resigns from the board, his/her successor shall replace the chairman of the board also on the nomination committee.

A change in the composition of the nomination committee shall be published immediately.

If the nomination committee at any time would consist of less than three members, the nomination committee shall still be authorized to fulfil the tasks set out in these principles.

The nomination committee's proposal and work and fees

When preparing its proposals, the nomination committee shall take into account that the board of directors is to have a composition appropriate to the Company's operations, phase of development and other relevant circumstances. The directors shall collectively exhibit diversity and breadth of qualifications, experience and background. The nomination committee shall further strive for equal gender distribution.

Item 13: Resolution regarding authorization for the board to issue shares, convertibles and/or warrants

The Board of Directors of the Company proposes that the annual general meeting of the shareholders shall resolve to authorize the board, on one or more occasions, with or without preferential rights for shareholders, to issue in total a maximum of, regardless of share class, warrants and/or convertibles, with the right to subscribe and convert to the respective share class in the Company, corresponding to not more than 10 percent of the share capital of the Company after dilution based on the number of shares at the time of the annual general meeting, to be paid in cash, by set-off or in-kind.

The purpose for the board to resolve on issuances with deviation from the shareholders preferential rights in accordance with the above is primarily for the purpose to carry out acquisitions or financing.

Issuances of new shares under the authorization shall be made on customary terms and conditions based on current market conditions. If the Board of Directors finds it suitable in order to enable delivery of shares in connection with a share issuance as set out above it may be made at a subscription price corresponding to the shares quota value.

The Board of Directors or a person appointed by the board of directors shall be authorized to make such minor adjustments in the above resolution that may be required in connection with the registration with the Swedish Companies Registration Office.

Item 14: Resolution on employee stock option program and directed issue of warrants as well as approval of transfer of warrants

The Company operates, through subsidiaries, within two business areas – Streaming and Print Publishing. The business area Streaming includes, in addition to Streaming, also Digital Publishing.

The Board of Directors of the Company proposes that the general meeting of 15 May 2019 resolves to implement an employee stock option program for employees and key consultants in the Company and the subsidiaries operating within the business area Streaming ("**Employee Stock Option Program 2019/2022**") in accordance with Section A below.

The purpose of the proposed program is to offer the employees and key consultants in the group active within the business area Streaming an opportunity to take part of a value growth in the Company's share of series B, which is expected to lead to an increased commitment to the Company's operation and earnings development, and to raise the motivation and sense of belonging with the Company. Furthermore, it is expected to increase the possibility of recruiting and retaining competent personnel. The Board of Director's considers that the program may have a positive impact on the Company's continued development to the benefit of the Company and its shareholders. The subsidiaries in the group operating within the business area Print Publishing currently have a different compensation structure in place.

In order to hedge the Company's obligations under the Employee Stock Option Program 2019/2022 and hedge the ancillary costs, the Board of Directors also proposes that the general meeting resolves on a directed issue of warrants, as well as an approval of transfer of warrants in accordance with Section B below.

It is the intention of the Board of Directors that the structure for Employee Stock Option Program 2019/2022 should be long-term basis, and the Board of Directors therefore intends, after evaluation of the program, to return with corresponding proposals at the general meetings in the coming years.

A. The Board of Directors' proposal for implementation of the Employee Stock Option Program 2019/2022

The Board of Directors proposes that the general meeting resolves to implement the Employee Stock Option Program 2019/2022 in accordance with the following substantial guidelines:

The Employee Stock Option Program 2019/2022 shall consist of a maximum of 550,000 stock options.

Each stock option confers the holder a right to acquire one new share of series B in the Company against an exercise price corresponding to 120 per cent of the average volume weighted price for the Company's share of series B as quoted on Nasdaq First North during the period of ten trading days following the general meeting

2019. The calculated exercise price shall be rounded off to nearest even hundredth of a krona, whereupon 0.005 krona will be rounded up. The exercise price and number of shares that each stock option confers right to acquire may be recalculated in the event of a bonus issue, consolidation or split-up of shares, new issue, etc. wherein the recalculation terms in the complete terms and conditions of the warrants (please refer to B below).

The Employee Stock Option Program 2019/2022 shall be offered to (i) all employees who are employed by the Company and the subsidiaries of the group operating within the business area Streaming as of 1 June 2019, and (ii) key consultants that (personally or through companies) work in the mentioned companies as of the mentioned date and who are appointed by the Board of Directors based on their importance for the group. Employees refers to full-time and part-time employees, including probationary employees but not hourly employees. A person who has entered into an employment agreement with the Company or a subsidiary of the group that operates within the business area Streaming but has not taken up his/her employment as of the mentioned date, shall not be regarded as an employee. An employee who has terminated the employment or has been dismissed by the mentioned date but is still employed, shall not be regarded as an employee. The Company's CEO shall be offered to participate in the program in the same way as other employees. The number of employees and key consultants that the program shall be offered to is estimated to a maximum 400.

The stock options shall be offered to the employees/key consultants proportionally in relation to their respective annual fixed gross salary/consultancy fees converted to SEK.

Notwithstanding what a calculation as above results in, no employee or key consultant shall be offered more than 7,500 stock options.

Notice of participation in the Stock Option Program 2019/2022 shall be received by the Company on 14 June 2019 at the latest, with a right for the Board of Directors to prolong the time limit. Allotment of stock options to participants shall take place as soon as possible after the expiration of the notification period.

The allotted stock options will be vested over a three-year period in accordance with the following:

- (a) 1/3 of the allotted stock options will be vested on 1 June 2020;
- (b) 1/3 of the allotted stock options will be vested on 1 June 2021; and
- (c) 1/3 of the allotted stock options will be vested on 1 June 2022.

Vesting requires that the participant is still active within the group and that the employment or consultancy agreement has not been terminated as of the date when the respective vesting occur. If a participant ceases to be an employee or consultant or terminates his/her employment with the group or his/her consulting agreement with the group before a vesting date, the already vested stock options may be exercised at the ordinary time for exercise as described below, but further vesting will not take place. If the employee's employment ceases due to dismissal from the employer's side or if the consultancy agreement is terminated due to corresponding reasons, however, also vested options will lapse, unless the Board of Directors decides otherwise on a case-by-case basis.

The stock options shall not constitute securities and shall not be able to be transferred or pledged. However, in the event of death, the rights constituted by vested stock options shall accrue to the beneficiaries of the holder of the stock options.

The stock options shall be allotted without consideration.

The holder can exercise allotted and vested stock options during the period from 1 June 2022 to 15 December 2022. The Board of Directors has the right to limit the number of dates for delivery of shares during the exercise period.

Participation in the Employee Stock Option Program 2019/2022 requires that such participation is in accordance with applicable laws, as well as that such participation can be executed with reasonable administrative costs and financial efforts according to the Company's assessment.

The stock options shall be governed by separate agreements with each participant. The Board of Directors shall be responsible for the preparation and management of the Employee Stock Option Program 2019/2022 within the above mentioned substantial terms. The Board of Directors has the right to, within the framework

of the agreement with each participant, make the reasonable changes and adjustments of the terms and conditions of the stock options that are deemed suitable or appropriate as a result of local employment law or tax law or administrative conditions. This may mean, among other things, that continued vesting of stock options may take place in some cases when otherwise would not have been the case. The Board of Directors also has the right to advance vesting and the timing of exercise of stock options in certain cases, such as in the case of a public takeover bid, certain changes in ownership of the Company, liquidation, merger and similar measures. Finally, the Board of Directors has the right to, in extraordinary cases, limit the scope of, or prematurely terminate, the Employee Stock Option Program 2019/2022 in whole or in part.

B. The Board of Director's proposal for resolution on directed issue of warrants as well as approval of transfer of warrants

In order to enable the Company's delivery of shares under the Employee Stock Option Program 2019/2022 as well as to hedge ancillary costs, primarily social security contributions, the Board of Directors proposes that the general meeting resolves on a directed issue of warrants of series 2019/2022 as well as an approval of transfer of warrants of series 2019/2022.

The Board of Directors therefore proposes that the general meeting resolves on an issue of a maximum of 687,500 warrants on the following terms:

The warrants shall, with deviation from the shareholders' preferential rights, only be able to be subscribed for by Storytel Sweden AB, a wholly owned subsidiary of the Company, (the "**Subsidiary**"). The reason for the deviation from the shareholders' preferential rights is that the warrants are a part of the implementation of the Employee Stock Option Program 2019/2022.

Subscription shall be made on 31 May 2019 at the latest. The Board of Directors shall be entitled to prolong the subscription period.

The warrants shall be issued without consideration.

The warrants and the utilization of the subscription right are subject to the terms and conditions set forth in the enclosed terms and conditions for the warrants 2019/2022; Exhibit 3A, (the "**Warrant Terms and Conditions**"). The Warrant Terms and Conditions states among others:

- (a) that each warrant confers right to subscribe for one new share of series B in the Company against cash payment at a subscription price corresponding to 120 per cent of the average volume weighted price for the Company's share of series B as quoted on Nasdaq First North during the period of ten trading days following the general meeting 2019. The calculated subscription price shall be rounded off to nearest even hundredth of a krona, whereupon 0.005 krona will be rounded up;
- (b) that the subscription price and the number of shares that each warrant confers right to subscribe for may be recalculated in accordance with Clause 8 in the Warrant Terms and Conditions;
- (c) that the subscription right may be utilized during the time period from and including the registration of the warrants with the Swedish Companies Registration Office (*Sw. Bolagsverket*) to and including 31 December 2022;
- (d) that the time period for when the subscription right may be utilized may be postponed in accordance with Clause 8 in the Warrant Terms and Conditions; and
- (e) that the shares issued upon utilization of warrants shall confer right to dividend in accordance with Clause 7 of the Warrant Terms and Conditions.

The complete terms and conditions for the warrants are available at the Company and will also be published on the Company's website no later than two weeks before the annual general meeting and include conditions regarding re-calculation, in certain cases, of the subscription price and the number of shares a warrant entitles to.

In case all warrants are utilized for subscription of new shares, the share capital will increase with SEK 343,750 kronor.

The Board of Directors, or anyone appointed by the Board of Directors, shall be authorized to make such minor formal adjustments of the resolution which may be required for registration with the Swedish Companies Registration Office (*Sw. Bolagsverket*) or, as applicable, Euroclear Sweden AB.

The Board of Directors further proposes that the general meeting resolves to approve that the Subsidiary may transfer warrants to the participants in the Employee Stock Option Program 2019/2022 without consideration in connection with exercise of the stock options in accordance with the terms set out in section A, or in another way dispose of the warrants in order to be able to secure the Company's commitments and costs in relation to the Employee Stock Option Program 2019/2022. The Board of Directors shall not have the right to dispose of the warrants for any other purpose than to secure the Company's commitments and costs in connection with the Employee Stock Option Program 2019/2022.

Previous incentive programs and dilution

Per the day of this proposal there are 55,865,307 shares in the Company, whereof 635 shares of series A and 55,864,672 shares of series B. Share of series A entitles to ten votes and share of series B entitles to one vote.

There are no outstanding share related incentive programs in the Company.

In case all warrants issued within the Employee Stock Option Program 2019/2022 (including those for hedge of ancillary costs in the form of social security contributions) are utilized for subscription of new shares, the number of shares and votes in the Company will increase with 687,500 (with reservation for any recalculation in accordance with the Warrant Terms and Conditions), which corresponds to a dilution of approximately 1.22 per cent of the Company's share capital and votes.

The dilution effect has been calculated as the number of additional shares and votes in relation to the number of existing of shares and votes plus the number of additional shares and votes.

Costs and effects on key figures

The Board of Directors' opinion is that the Employee Stock Option Program 2019/2022 will trigger costs in reference party to accounting salary costs and partly to social security contributions.

Based on the assumption that 100 per cent of the options in the Employee Stock Option Program 2019/2022 will be allotted and an annual employee turnover rate of 5 per cent, meaning that 496,810 stock options will vest, the estimated total accounting costs for the options will amount to approximately MSEK 10.5 during the time period 2019-2022, based on the actual value of the options at the time of calculation. The options do not have a market value since they are not transferable. However, the Board of Directors has calculated a theoretical value of the options in accordance with the Black Scholes formula. The calculations have been based on an assumed share price of SEK 108.57 per share, a risk-free interest rate of -0.37 percent and an assumed volatility of 37 percent. In accordance with this valuation, the value of the options in the Employee Stock Option Program 2019/2022 is approximately SEK 21.12 per option. Limitations in the disposal rights have not been taken into consideration in the valuation.

Upon a positive development of the share price, the Employee Stock Option Program 2019/2022 will entail costs in form of social security contributions. The total costs for social security contributions will depend on the number of options that will be vested and on the value of the benefit that the participant finally will receive, i.e. on the value of the options when utilized 2022, but also in which countries the participants are resident and what percentages that apply to social security contributions in these countries. Based on the assumption that 496,810 of the options in the Employee Stock Option Program 2019/2022 will be vested, an assumed share price of SEK 200 when the options are utilized, an assumed distribution between different countries and an assumed average social security rate of approximately 25 per cent, the total costs for social security contributions will amount to approximately MSEK 8.7. The Company's entire costs for social security contributions are proposed to be hedged through a directed issue of warrants in accordance with Section B above.

The total cost for Employee Stock Option Program 2019/2022 will be distributed over the years 2019-2022. Since 1/3 of the options vest per year, the cost will be distributed more towards the front of the three year term.

Given the above assumptions, and that the program had been introduced in 2017 instead, it is calculated that the key figure earnings per share for full year 2018 would have decreased from SEK -4.02 to SEK - 4.19.

It shall be noted that all calculations above are preliminary and are only intended to provide an illustration of what costs the Employee Stock Option Program 2019/2022 may include. Actual costs may therefore deviate from what has been stated above.

Preparation of the proposal

The proposal for resolution on the implementation of Employee Stock Option Program 2019/2022 and the proposal of resolution on directed issue of warrants of series 2019/2022 as well as approval of transfer of warrants of series 2019/2022 have been prepared by the Board of Directors together with external consultants. It is noted that the CEO, who is also a member of the Board of Directors, has not participated in the Board of Directors' preparation of the proposal, as he, as an employee, is comprised by the proposal.

Majority requirements

The Board of Directors' proposal to implement the Employee Stock Option Program 2019/2022 in accordance with item 14 A, as well as the directed issue of warrants and an approval of transfer of warrants in accordance with item 14 B, constitutes an overall proposal, which shall be resolved upon as one resolution. The resolution on the directed issue of warrants and an approval of transfer of warrants is subject to the provisions in Chapter 16 of the Swedish Companies Act, and a valid resolution hence requires that the proposal is supported by shareholders with at least nine-tenths of both the votes cast and the shares represented at the meeting.

A resolution in accordance with item 13 is valid where supported by shareholders representing at least two thirds of the votes cast and the shares represented at the general meeting.

Number of shares and votes

The total number of shares in the Company as of the date hereof amounts to 55,865,942 shares and 55,871,657 votes divided on 635 A shares carrying 6,350 votes and 55,865,307 B shares carrying 55,865,307 votes. The Company holds no shares of its own.
