Position:				_
	Date:			

IMPORTANT NOTICE

This is a very important document. You should be very careful as you complete this document. Answer each item accurately and completely. Failure to do so may result in you not being considered for the position or in your termination if inaccurate or omitted information is discovered after your employment has begun.

Attention Thermal Operating Company Applicants:

Thermal Operating Company applicants being considered for a position will be subject to a non-evasive hair follicle drug test processed by Psychemedics Corporation.

Words of Caution DRUG USERS NEED NOT APPLY

Anyone who is abusing drugs and being required to take the Psychemedics hair test should clearly understand the following:

- Abstaining from drug use for several days is not going to work with Psychemedics' test. On average, Psychemedics can detect usage several months back and detect drug usage 5 to 10 times more effectively than urinalysis.
- Unlike other less effective hair tests, Psychemedics' hair test can detect marijuana users at a higher rate than urinalysis. Psychemedics spent many years of research to develop technology that allows them to detect marijuana users 4 to 7 times more frequently than urinalysis.
- Shaving your head hair will not prevent you from submitting a sample. We are not limited to just head hair and can test body hair samples.
- Claiming your hair was contaminated by someone else's drug is not a valid excuse. Psychemedics has the most extensive wash process in the industry to account for any external contamination. This has been proven not only in independent studies, but upheld in 20 years of court cases.

If you are currently abusing drugs we suggest you either not apply or preferably get help to get off drugs.

For more information regarding Psychemedics Corporation, please visit: http://www.psychemedics.com/
