

SUSTAINABILITY ACCOUNTING STANDARDS BOARD (SASB) INDEX

TOPIC ACCOUNTING METRIC RESPONSE

SUSTAINABILITY DISCLOSURE TOPICS & ACCOUNTING METRICS – MEAT, POULTRY & DAIRY AND SELECTED PROCESSED FOODS METRICS

Table 1. Sustainability disclosure topics & accounting metrics

| | | |
|--------------------------|---|--|
| Greenhouse Gas Emissions | Gross global Scope 1 emissions | 3.56 million metric tons (ESG Data Center) |
| | Discussion of long-term and short-term strategy or plan to manage Scope 1 emissions, emissions reduction targets and an analysis of performance against those targets | Tyson Foods 2022 Sustainability Report > Responsibly Managing Natural Resources to Achieve Net Zero > Climate action |
| Energy Management | Total Energy Consumed | 61 million GJ (ESG Data Center) |
| | Percentage grid electricity | 28% |
| | Percentage renewable energy | 1% |
| Water Management | Total water withdrawn | 123.3 million cubic meters (ESG Data Center) |
| | Total water consumed, percentage of each in regions with High or Extremely High Baseline Water Stress | 123.3 million cubic meters, 19.6% in regions with High or Extremely High Baseline Water Stress |
| | Description of water management risks and discussion of strategies and practices to mitigate those risks | Tyson Foods 2022 Sustainability Report > Responsibly Managing Natural Resources to Achieve Net Zero > Water |
| | Number of incidents of noncompliance with water quality permits, standards and regulations | 54 |

| TOPIC | ACCOUNTING METRIC | RESPONSE |
|-------------------------------------|--|---|
| Land Use & Ecological Impacts | Amount of animal litter and manure generated, percentage managed according to a nutrient management plan | Not tracked |
| | Percentage of pasture and grazing land managed to Natural Resources Conservation Service (NRCS) conservation plan criteria | Not tracked |
| | Animal protein production from concentrated animal feeding operations (CAFOs) | Farms that supply Tyson Foods' U.S.-based poultry operations and Tyson Foods' wholly owned subsidiaries of the Pork Group, Inc. and Cobb-Vantress, Inc. farms would be considered CAFOs as defined by the U.S. Environmental Protection Agency. Due to lack of supply chain traceability, we are unable to provide a quantitative value related to the livestock and outside meat we procure that may be raised in CAFO production systems. We invite you, however, to review the Environmental and Agriculture sections of tysonfoods.com to learn more about the environmental and animal housing and raising practices of our poultry and livestock supply chain partners. Additionally, our Supplier Code of Conduct establishes the environmental and animal welfare expectations we have of our supply partners. |
| Food Safety | Global Food Safety Initiative (GFSI) audit non-conformance rate and associated corrective action rate for major and minor non-conformances | All of our food manufacturing facilities are 100% certified to a GFSI standard. |
| | Percentage of supplier facilities certified to a GFSI food safety certification program | 98.08% |
| | Number of recalls issued and total weight of products recalled | None |
| | Total number of notices of food safety violations received and percentage corrected | 100% of routine USDA/FDA noncompliance is corrected and responded to in writing. Zero regulatory enforcement events in FY2022. |
| | Discussion of markets that ban imports of the entity's products | Tyson Foods' products are subject to the mandates of countries of export as related to any food sanitary and phytosanitary requirements. Tyson Foods complies fully and voluntarily with all export library requirements for countries we ship product into. |
| Product Labeling & Marketing | Revenue from products labeled as (1) containing genetically modified organisms (GMOs) and (2) non-GMO | (1) \$0 USD and (2) \$0 USD |
| Antibiotic Use in Animal Production | Percentage of animal production that received medically important antibiotics and not medically important antibiotics by animal type | Tyson Foods 2022 Sustainability Report > Animal Health and Welfare |
| Workforce Health & Safety | Total recordable incident rate (TRIR) | 2.59 (ESG Data Center) |
| | Total fatality rate | Unfortunately, we were saddened during the year to experience six road- and manufacturing-related team member fatalities. Such incidents make us even more committed to ongoing training, communication and oversight so that we can continue building a safe work environment for all. (ESG Data Center) |
| | Description of efforts to assess, monitor, and mitigate acute and chronic respiratory health conditions | Tyson Foods 2022 Sustainability Report > Employee Health, Safety and Wellbeing |

| TOPIC | ACCOUNTING METRIC | RESPONSE |
|---|--|---|
| Animal Care & Welfare | Percentage of pork produced without the use of gestational crates | Tyson supports our independent farmer partners in managing well-maintained housing systems that promote good animal health and welfare. Current research within the industry has yet to conclusively prove which sow housing system best facilitates responsible production across all welfare and sustainability focus areas. For this reason, we continue to seek a balanced approach and respect our hog supply partners' right to choose the system that best fits their operations and needs as well as focuses on animal welfare outcome measures. We remain dedicated to verifying responsible management and proper handling and care of all hogs within our supply chain. Our FarmCheck® Program serves as verification of our supply partners' shared commitment to providing the best possible care to their hogs, regardless of the operation type or system. |
| | Percentage of cage-free shell egg sales | We do not sell shell eggs. |
| | Percentage of production certified to a third-party animal welfare standard | Tyson Foods 2022 Sustainability Report > Animal Health and Welfare |
| Environmental & Social Impacts of Animal Supply Chain | Percentage of livestock from suppliers implementing the Natural Resources Conservation Service (NRCS) conservation plan criteria or the equivalent | Due to lack of supply chain traceability, we are unable to provide a quantitative value related to the percentage of livestock we source from suppliers implementing the NRCS conservation plan criteria or the equivalent. |
| | Percentage of supplier and contract production facilities verified to meet animal welfare standards | 100% |
| Ingredient Sourcing | List of priority food ingredients and discussion of sourcing risks due to environmental and social considerations | Tyson Foods 2022 Sustainability Report > Forest Risk Management |
| Animal & Feed Sourcing | Percentage of animal feed sourced from regions with High or Extremely High Baseline Water Stress | While Tyson Foods does not source animal feed directly, 6% of feed ingredients are sourced from regions with High or Extremely High Baseline Water Stress. |
| | Percentage of contracts with producers located in regions with High or Extremely High Baseline Water Stress | Not tracked |
| | Discussion of strategy to manage opportunities and risks to feed sourcing livestock supply presented by climate change | Tyson Foods 2022 Sustainability Report > A Climate-Smart Future |
