# Group online check-in

Making group travel easier

At Virgin Australia, simplify your check-in experience with group online check-in for seamless travel with your group.

Virgin Australia will provide the Group Leader with the option to checkin the entire travelling group online and print boarding passes prior to arrival at the airport, allowing your group to breeze through airport formalities. Members of your group travelling without checked baggage can simply proceed to the boarding gate.

Members travelling with checked baggage can proceed to the baggage drop off counters with their pre-issued boarding pass.

This service is available via a dedicated check-in code provided by your Virgin Australia Group Sales representative, along with instructions on how to complete group check-in online.
