

7 Ways You Can Champion the Statistics in Schools Program Today!

- 1** Use and distribute over 200 free SIS math, history/social studies, geography, English, and sociology [activities](#) and other K-12 resources like Fun Facts, maps, and more.
- 2** Send a dedicated email to your audience introducing it to the SIS program, a free program that helps K-12 students understand the value of statistics in our data-driven world.
- 3** Follow the Census Bureau's [social media](#) accounts and retweet/share relevant information about SIS with your networks.
- 4** Share SIS materials relevant to your audience in your email newsletters, blogs, articles, and other online publications.
- 5** Link to the [SIS website](#) or SIS materials from your organization's website.
- 6** Spread the word about the SIS Ambassador Program to help recruit amazing educators, teachers, and librarians to help boost the statistical literacy of K-12 students.
- 7** Play and share our educational [Kahoot! games](#) tied to kid-friendly statistics powered by Census Bureau data.
