

APPOINTMENTS

- 2022 – present **Professor and Engineering Physics Chair**, Department of Nuclear Engineering and Radiological Sciences, Department of Electrical Engineering and Computer Science, Department of Materials Science and Engineering, Department of Robotics, Applied Physics Program, University of Michigan
- 2012 – 2022 **Assistant Professor** (2012-2018), **Associate Professor** (2018-2022), **Associate Head for Graduate Programs** (2020-2022), **Donald Biggar Willett Faculty Scholar** (2020-2022), **Adjunct Professor** (2022-present), Department of Nuclear, Plasma, and Radiological Engineering, Department of Electrical and Computer Engineering, Department of Materials Science and Engineering, Program of Computational Science and Engineering, Illinois Robotics Group, Center for Autonomy, Center for Biophysics and Quantitative Biology, Beckman Institute for Advanced Science and Technology, University of Illinois Urbana-Champaign
- 2019 – 2020 Visiting Professor, Department of Materials Science and Engineering, University of California, Berkeley and Lawrence Berkeley National Laboratory
- 2010 – 2012 **Clifford G. Shull Fellow**, Neutron Sciences Directorate, Oak Ridge National Laboratory

EDUCATION

- Ph.D.** Nuclear Science and Engineering, **Massachusetts Institute of Technology** (MIT), 2010
Thesis: “*Neutron Scattering Investigations on the Unusual Phase Behavior of Water*”
- B.S.** Electrical Science and Technology, **University of Science and Technology of China** (USTC), 2004

RESEARCH INTERESTS

YZ’s research can be summarized into two words: **Matter and Machine**. In the realm of *Matter*, his group synergistically integrates statistical mechanics and molecular fluid mechanics theories, accelerated molecular simulations, understandable AI methods, and neutron scattering experiments to extend our understanding of rare events and long timescale phenomena in complex material systems. Particular emphasis is placed on the physics and chemistry of liquids, glasses, and complex fluids, especially at interfaces, under extreme conditions, or when driven away from equilibrium. Concurrently, on the *Machine* front, leveraging their expertise in materials and modeling, his group advances the development of soft robots and human-compatible machines, swarm robots and collective intelligence, and robots in extreme environments. These two research areas, spanning from fundamental to applied, serve as integral pillars in their overarching mission to foster a sustainable, resilient, and secure energy infrastructure.

- **Matter**
 - Rare events and long timescale phenomena in complex material systems
 - Physics and chemistry of liquids, glasses, and complex fluids, especially under interfacial/extreme/non-equilibrium conditions (water, metallic liquids, molten salts, ionic liquids, electrolyte solutions)
 - Statistical mechanics and molecular fluid mechanics theories, accelerated molecular simulations, understandable AI methods
 - Neutron scattering, sources, and instrumentation
- **Machine**
 - Soft robots and human-compatible machines
 - Swarm robots and collective intelligence
 - Robots in extreme environments

PUBLICATIONS

More than 70 publications (citations ~ 3,000, h-index = 28) in book sections and high-impact journals such as *Phys. Rev. Lett.*, *J. Am. Chem. Soc.*, *Angew. Chem.*, *P. Natl. Acad. Sci. USA*, and *Nature Commun.* A full list of publications is appended.

AWARDS & HONORS

- 2024.05 IEEE Senior Member
2022.04 Joint Center for Energy Storage Research (JCESR) Best Paper Award
2020.03 **Donald Biggar Willett Faculty Scholar**, UIUC
2020.02 **Dean's Award for Excellence in Research**, Grainger College of Engineering, UIUC
2017.04 **Landis Young Member Engineering Achievement Award**, American Nuclear Society, "in recognition of his contributions to nuclear and advanced experimental techniques to understand the complex makeup, nature and performance of materials in the far-from-equilibrium state"
2015.05 **Doctoral New Investigator Award**, American Chemical Society Petroleum Research Fund
2013.05 Collins Fellow, College of Engineering Academy for Excellence in Engineering Education, UIUC
2013 – 2022 List of Teachers Ranked as Excellent (Fall 2013, Fall 2014, Spring 2015, Spring 2017, Fall 2017, Spring 2018, Fall 2018, Spring 2019, Fall 2021)
2010.09 **Clifford G. Shull Fellowship**, ORNL
2010.03 Student Research Showcase, Nuclear Science and Engineering Research Expo, MIT
2009.10 Best Poster Award, the 15th User's Meeting of National Synchrotron Radiation Research Center, Taiwan, "Water in the Confined Space: Study of Density Anomalies of Supercooled Water"
2008.05 **Manson Benedict Award**, "in recognition of the outstanding excellence of your academic and research performance" and "for excellence in neutron scattering research, particularly the study of critical behavior of supercooled water", MIT
2008.05 **Neutron Scattering Society of America Prize** "for cyber development of enhancing the North American neutron community"
2004.07 Distinguished Graduate of Anhui Province, Distinguished Graduate of USTC
2003.05 Elected representative of USTC for the Associations of East Asian Research Universities
2000.11 Best Paper Award on Modern Chinese Society Research
1999 – 2003 Recipient of five scholarships, including **Guo Moruo Scholarship** (2003), **Samsung Scholarship** (2003), Outstanding Student Scholarship (2001), **Lenovo Scholarship** (2000), Outstanding Freshman Scholarship (1999)
2002 – 2004 Recipient of nine prizes in international contests in *Mathematical Modeling*, including Interdisciplinary Contest in Modeling (ICM 2003, 2004), Mathematical Contest in Modeling (MCM 2002), INRIA and LIAMA Contests in Scientific Computing Software Scilab (2003)

EDITORSHIPS

- Associate Editor, *Science and Technology of Advanced Materials*, **IF = 8.090** (2020), 2016 – 2023
- Associate Editor, *Frontiers in Materials*, Glass Science section, 2015 – present
- Associate Editor, *Frontiers in Physics* and *Frontiers in Chemistry*, Physical Chemistry and Chemical Physics section, 2015 – present
- Co-editor, with Rene A. Nome and Pilar Cossio, of the special issue *Integrating timescales from molecules up in Frontiers in Chemistry*, 2020
- Guest Editor, *MRS Advances*, Theory, Characterization, and Modeling section, Fall 2015

INVITED TALKS

More than 70 invited talks (some as a keynote speaker) at national and international conferences, workshops, peer universities, national labs, and other organizations.

1. Machine Learning in Chemical and Materials Sciences Conference, Los Alamos National Laboratory, 2024.05
2. TMS Annual Meeting, Orlando, FL, 2024.03
3. The 9th International Discussion Meeting on Relaxations in Complex Systems (9IDMRCS), Chiba, Japan, 2023.08

4. KLA Corporation, 2023.03
5. Department of Materials Science and Engineering, University of Michigan, 2023.02
6. MIDAS Data Science and AI Summit, University of Michigan, 2022.11
7. Telluride Workshop on Machine Learning and Informatics for Chemistry and Materials, Telluride, CO, 2022.10
8. American Conference on Neutron Scattering, Boulder, CO, 2022.06
9. Machine Learning in Chemical and Materials Sciences Conference, Los Alamos National Laboratory, 2022.05
10. Neutron Scattering Division, ORNL, 2022.04
11. School of Nuclear Engineering, Purdue University, 2022.03
12. Workshop for the Molten Salt Thermal Properties Working Group, University of South Carolina, 2021.11
13. QENS/WINS 2021, 2021.05
14. Women in Nuclear Student Chapter at UIUC, 2021.04
15. Department of Materials Science and Engineering, Rensselaer Polytechnic Institute, 2021.03
16. ANS Winter Meeting, 2020.11
17. Computational Approaches to Molten Salts 2020 Workshop, University of South Carolina, 2020.11
18. Materials Science Colloquium, ANL, 2020.10
19. Illinois Ignite 2020, 2020.09
20. ACS Fall Meeting, 2020.08
21. X Development (formerly Google X), Mountain View, CA, 2019.11
22. Neutron Scattering Techniques for Time-Resolved Studies Workshop, ORNL, 2019.10
23. Society of Engineering Science Annual Meeting, St. Louis, MO, 2019.10
24. J-PARC Symposium 2019, Tsukuba, Japan, 2019.09
25. Pacific Northwest National Laboratory (PNNL) Interfacial Dynamics in Radioactive Environments and Materials (IDREAM) Energy Frontier Research Center (EFRC), 2019.09
26. 26th International Symposium of Metastable, Amorphous and Nanostructured Materials, Chennai, India, 2019.07
27. 2019 DOE/BES/MSED Neutron Scattering Program PI Meeting, Gaithersburg, MD, 2019.07
28. Nvidia Corporation, Santa Clara, CA, 2019.06
29. Honda Research Institute, San Jose, CA, 2019.06
30. Roma Tre Congress on Water Under Extreme Conditions, Rome, Italy, 2019.06
31. Department of Mechanical and Energy Engineering, Purdue University, 2019.04
32. Tutorial on modern modeling methods in neutron spectroscopy, ORNL, 2019.04
33. Department of Engineering Physics, Tsinghua University, Beijing, China, 2018.07
34. China Spallation Neutron Source, Dongguan, China, 2018.07
35. Keynote Speaker, QENS/WINS 2018, Hong Kong, 2018.07
36. Telluride Workshop on Water: Grand Challenges for Molecular Science and Engineering, Telluride, CO, 2018.07
37. The 12th International Conference on Bulk Metallic Glasses (BMG XII), Seoul, Korea, 2018.05
38. International Center for Quantum Materials, Peking University, Beijing, China, 2018.05
39. Beckman Institute Director's Seminar, UIUC, 2017.11
40. The 8th International Discussion Meeting on Relaxations in Complex Systems (8IDMRCS), Wilsa, Poland, 2017.07
41. Theoretical and Computational Biophysics Seminar, Beckman Institute, UIUC, 2017.04
42. Department of Materials Science and Engineering, University of Florida, 2017.04
43. TMS Annual Meeting, San Diego, CA, 2017.02
44. WPI-AIMR Workshop on Structure and Dynamics of Glasses, Tohoku University, Sendai, Japan, 2017.02
45. 2019 DOE/BES/MSED Neutron Scattering Program PI Meeting, Gaithersburg, MD, 2016.12
46. Department of Chemistry, Physical Chemistry Seminar, UIUC, 2016.11
47. Department of Materials Science and Engineering, University of California Berkeley, 2016.10
48. Neutron Electrostatic Levitator (NESL) User Workshop, ORNL, 2016.08
49. American Conference on Neutron Scattering, Long Beach, CA, 2016.07
50. The 11th International Conference on Bulk Metallic Glasses (BMG XI), Washington University in St. Louis, 2016.06
51. Institute of Physics, Chinese Academy of Sciences, Beijing, China, 2016.05
52. 40 Years of Neutron Scattering Symposium, NIST, 2016.02

53. Gordon Research Conference, Neutron Scattering: Effect of Disorder and Disordered Materials, Hong Kong, 2015.06
54. NIST Center for Neutron Research Summer School on Fundamentals of Neutron Scattering, NIST, 2015.06
55. National Synchrotron Light Source II (NSLS-II) and Center for Functional Nanomaterials (CFN) Joint Users' Meeting, BNL, 2015.05
56. Future and Current Use of Neutron Spin-Echo Spectroscopy in Condensed Matter Research Workshop, ORNL, 2015.05
57. US Army Construction Engineering Research Laboratory (CERL), Champaign, IL, 2015.03
58. DOE Workshop on Fundamental Challenges in Our Understanding of the Physics and Chemistry of Water, Houston, TX, 2015.01
59. The Center for High Resolution Neutron Scattering (CHRNS) NSF Review, NIST, 2015.01
60. DOE Grand Challenges in Soft Matter Workshop, University of California Santa Barbara, 2014.05
61. Department of Physics, Condensed Matter Seminar, UIUC, 2014.02
62. Berkeley Mini Stat Mech Meeting breakout session, University of California Berkeley, 2014.01
63. International collaborative online course "Neutrons in Soft Matter Science: Complex Materials on Mesoscopic Scales" invited lecturer, Joint Institute for Neutron Sciences, 2013.11
64. Department of Materials Science and Engineering, Soft Materials Seminar, UIUC, 2013.09
65. School of High Resolution Neutron Scattering to Measure Slow Dynamics, ORNL, 2013.03
66. Petersen Asphalt Research Conference, Laramie, WY, 2012.07
67. Department of Food Science and Engineering, University of Tennessee Knoxville, 2012.02
68. Department of Nuclear, Plasma and Radiological Engineering, UIUC, 2012.02
69. Berkeley Mini Stat Mech Meeting breakout session, University of California Berkeley, 2012.01
70. Departments of Physics and Materials Research Laboratory, University of California Santa Barbara, 2012.01
71. Department of Materials Science and Engineering, University of Tennessee Knoxville, 2011.10
72. Neutron Sciences Seminar, ORNL, 2011.10
73. Center for Molecular Biophysics, ORNL, 2011.09
74. Young Faculty and Research Scientist Seminar, Department of Nuclear Science and Engineering, MIT, 2011.03
75. NIST Center for Neutron Research, NIST, 2011.02
76. Department of Materials Science and Engineering, University of Tennessee Knoxville, 2010.03
77. Clifford G. Shull lecture, ORNL, 2010.03
78. Department of Civil Engineering, MIT, 2008.11

CONFERENCE ORGANIZATIONS

- Lead organizer, APS March Meeting Focus Session "Physics of Liquids", 2017, 2018, 2019, 2020, 2021, 2024
- Co-organizer, "Recent Advances in Neutron Spin Echo Science and Technology", co-organizers: C. Do, G. Ehlers, A. Faraone, J. S. Gardner, Y. Wang, 2022.06
- Lead organizer, "New Science Opportunities with Time-of-Flight Wide-Angle Neutron Spin-Echo at STS", 2021.02
- Lead organizer, 2019 MRS Fall Meeting Symposium "Advanced Materials Explorations with Neutrons", co-organizers: K. Herwig, D. Louca, V. Garcia-Sakai, 2019.11
- Co-organizer, ORNL Joint Nanoscience and Neutron Scattering User meeting, 2017.07
- Co-organizer, ORNL Center for Nanophase Materials Sciences (CNMS) User Meeting, 2016.08
- Member, Advisory Committee, the 11th International Conference on Bulk Metallic Glasses (BMG XI), St. Louis, MO, 2016.06
- Lead organizer, 2015 MRS Fall Meeting Symposium "Liquids and Glassy Soft Materials – Theoretical and Neutron Scattering Studies", co-organizers: T. Egami, E. L. Liu, H. E. Stanley, 2015.11
- Co-organizer, "Workshop on Topics in Soft Condensed Matter", MIT, 2015.11
- Co-organizer, ORNL Neutron Sciences User Meeting, 2015.10

OTHER SYNERGISTIC ACTIVITIES

- Spokesperson and Chair of the Advisory Committee, EXPanded Angle Neutron Spin Echo (EXPANSE) instrument at ORNL, 2020 – present
- Member, Committee on Scientific Meetings, American Physical Society (APS), 2024 – 2026

- Member (Treasurer 2024-2025), Executive Committee, Robotics & Remote Systems Division (RRSD), American Nuclear Society (ANS), 2023 – 2026
- Publication co-chair, Decommissioning Environmental Sciences and Remote Technology 2024 (DESD/RRSD 2024) Revolutionizing Decommissioning with Robotics, Resiliency, and Digital Transformation, embedded in the 2024 ANS winter conference and expo, 2024
- Advisory Committee Member, Chopper Spectrometer Examining Small Samples (CHESS) instrument at ORNL, 2020 – present
- Member, Pennsylvania State University Neutron Science Advisory Council, 2019 – present
- Member (Chair of the Chemical Spectroscopy Committee since 2022), Science Review Committee, Neutron Sciences Directorate at ORNL, 2014 – present
- Panelist, Neutrons for the Future Workshop, 2023.10
- Member, Proposal Review Committee, Center for Nanophase Materials Sciences (CNMS) at ORNL, 2016 – 2023
- Panel Chair, Nuclear Science Week, 2022.10
- Co-chair, DOE Neutron Scattering PI Meeting, 2021.12
- Member, ORNL Second Target Station (STS) Hiring Committee, 2021 – 2022
- Reviewer, HFIR/SNS Review of the Instrument Suite for Spectroscopy at ORNL, 2020.09
- Member, COVID-19 Emergency Response Science Review Committee, Neutron Sciences Directorate at ORNL, 2020
- Member, Users Organization Steering Committee, Advanced Photon Source (APS) at ANL, 2017 – 2020
- Chair, Artificial Intelligence/Machine Learning/Data Science Townhall Discussion, Science at the Second Target Station Workshop, ORNL, 2019.12
- Panel Chair, Machine Learning & Data Science Approaches for Neutron Scattering Research, 2019 DOE/BES/MSED Neutron Scattering Program PI Meeting, 2019.07
- Panelist, NSF CHE/DMS Innovation Lab: Learning the Power of Data in Chemistry, 2018.12
- Panelist, NSF Strategic Planning Workshop on Progress and Prospects for Neutron Scattering in the Biological Sciences, 2018.02
- Reviewer, HFIR/SNS Review of the Instrument Suite for Inelastic Scattering at ORNL, 2017.11
- Member, NIST Center for Neutron Research (NCNR) Beam Time Allocation Committee, 2017
- Secretary, Users Executive Committee, Center for Nanophase Materials Sciences (CNMS) at ORNL, 2015 – 2017
- Member, Proposal Review Panel, Center for Functional Nanomaterials (CFN) at BNL, 2015 – 2017
- Panelist, Neutron Spin Echo for Slow Dynamics Investigations Workshop, 2016.11
- Member, Executive Committee, Spallation Neutron Source and High-Flux Isotope Reactor User Group (SHUG) at ORNL, 2013 – 2015
- Panelist, Spallation Neutron Source Second Target Station Workshop, ORNL, 2015.10
- Panelist, Neutron Measurements for Materials Design and Characterization Workshop organized by NIST, Potomac, MD, 2014.08
- Panelist, DOE Grand Challenges in Soft Matter Workshop, UCSB, 2014.05
- Panelist, Future Science Impact Meeting, ORNL, 2013.10
- Member, Science Highlights Editorial Committee, Neutron Sciences, ORNL, 2012

INTERNAL SERVICES

- Chair, Faculty Search Committee at NERS UMich, 2023 – 2024
- Member, Executive Committee at NERS UMich, 2023 – 2025
- Member, Program of Computational Science and Engineering Steering Committee at UIUC, 2017 – 2022
- Faculty and Staff Mental Health Ambassador, UIUC, 2021 – 2022
- Member, Program Advisory Committee, Beckman Institute for Advanced Science and Technology, 2017 – 2020
- Panelist, Polsky Center Soft Materials Workshop, 2018.06

REVIEW ACTIVITIES

- Reviewer for neutron and X-ray beam time allocations at SNS/HFIR, NCNR, and SSRL

- Reviewer for National Science Foundation, DOE Basic Energy Science, DOE Advanced Scientific Computing Research, DOE Nuclear Energy, DOE SBIR/STTR, ACS Petroleum Research Fund, Italian Cineca, Austrian Science Fund, Chilean National Science and Technology Commission
- Reviewer for Tenure, Promotion, and Performance at five universities and research institutes
- Reviewer for *Nature*, *Phys Rev Lett/X/B/E*, *P Natl Acad Sci USA*, *Nature Commun*, *Nature Chem*, *J Am Chem Soc*, *J Chem Phys*, *J Phys Chem Lett/B/C*, *Phys Chem Chem Phys*, *Soft Matter*, *J Phys-Condens Mat*, *J Comp Chem*, *J Non-Cryst. Solids*, *ACS Macro Lett*, *Biophys J*, *Nano Lett*, *J of Mater Chem B*, *Langmuir*, etc.

PROFESSIONAL SOCIETY MEMBERSHIPS

American Physical Society, American Nuclear Society, Institute of Electrical and Electronics Engineers, American Chemical Society, Materials Research Society, Society of Engineering Science, Minerals Metals and Materials Society, American Association for the Advancement of Science, Neutron Scattering Society of America, Society for Science at User Research Facilities

STUDENTS' AWARDS & HONORS

- 2024.02 Luca Murg, G. T. Seaborg Summer Fellowship at LANL
 2023.02 Lucas Trojanowski and Luca Murg, Computational Physics Student Summer Workshop Fellowship at LANL
 2022.05 Kevin Wandke, Mavis Future Faculty Fellow
 2022.04 Nicholas Dailey, NPRE Outstanding Undergraduate Research Award
 2021.05 Yanqin Zhai, Mavis Future Faculty Fellow
 2021.05 Shao-Chun Lee, Block Grant Fellowship
 2021.05 Ganesh Arunachalam, Albert Zhao, and David Null, Promoting Undergraduate Research in Engineering (PURE) Best Poster Award (Audience Choice)
 2021.05 Sara Alabbadi, Parth Anjaria, and Kevin Wandke, Promoting Undergraduate Research in Engineering (PURE) Best Poster Award (Judge Choice)
 2020.05 Zhixia Li, Mavis Future Faculty Fellow
 2020.05 Zhixia Li, Block Grant Fellowship
 2020.01 Kevin Wandke, Harold L. Olesen Undergraduate Teaching Award
 2018.08 Zhixia Li, CSE Fellowship
 2017.04 Zhikun Cai, Beckman Fellowship
 2017.04 Nathan Walter, Roy A. Axford Fellowship
 2015.08 Abhishek Jaiswal, CSE Fellowship
 2015.05 Abhishek Jaiswal, Block Grant Fellowship
 2014.04 Pawel Piotrowicz, NPRE Outstanding Undergraduate Research Award
 2014.02 Nathan Walter, Computational Physics Student Summer Workshop Fellowship at LANL
 2014.01 Nathan Walter, NRC Fellowship
 2013.08 Ke Yang, Best Group Presentation Award at ANL/ORNL NX Summer School
 2013.06 Abhishek Jaiswal, Best Group Presentation Award at NCNR Summer School
